

COMPARATIVE POLICE SYSTEM.

INTRODUCTION

Policing is one of the most important functions undertaken by the every sovereign government. For the state machinery, police is an inevitable organ which would ensure maintenance of law and order, and also the first link in the criminal justice system. On the other hand, for common man, police force is a symbol of brute force of authority and at the same time, the protector from crime. Police men get a corporate identity from the uniform they wear; the common man identifies, distinguishes and awes him on account of the same uniform. The police systems across the world have developed on a socio cultural background, and for this reason alone huge differences exist between these police systems. Policing mainly rests on either of the two broad principles: Policing by consent and Policing by law.

Police Politics A Comparative Study Of Three Cities:

The Politics of Policing in Greater China Sonny Shiu-Hing Lo, 2016-11-21 This book examines the politics of policing in Greater China including mainland China Taiwan Hong Kong and Macao As the author shows police ideological indoctrination is strongest in mainland China followed by Hong Kong and Taiwan where the police is under increasing political stress in the aftermath of rising public protests and socio political movements Macao s police on the other hand is far less politicized and indoctrinated than their mainland Chinese counterpart This book demonstrates that policing in China is a distinctive and extensive topic as it involves not only crime control but also crisis management and protest control governance and corruption or anti corruption the management of customs and immigration the control over legal and illegal migrants the transfer of criminals and extradition and intergovernmental police cooperation and coordination As economic integration is increasing rapidly in Greater China this region s policing deserves special attention **Police Politics** Leonard I.

Ruchelman, 1974 Investigation and comparison of important issues of police policy in New York Philadelphia and Chicago for the period covering 1966 to 1969 The book focuses on the three overlapping policy areas which have received a great deal of attention in the news media of all three cities civil review and accountability of the police the law and order issue and police community relations They were selected for study because of the way they demonstrate the changing political role of the police in society The book concentrates primarily on the process by which issues are resolved rather than on a thorough treatment of the issues themselves For each issue the author discusses the nature of decision making participation including the point of view of key participants power resources brought to bear and the degree of success as measured by the outcome of an issue Attention is directed to determining which individuals or agencies most often initiated the proposals that were finally adopted or most often successfully vetoed the proposals of others The document discusses the basic environmental characteristics of the three cities considered their political and governmental structure and special qualities of law enforcement organization An overview of patterns of police politics and their effect on the outer parameters of city politics is presented The appendixes contain lists of decision making cases in the three selected cities for the period 1966 1969

John D Brewer, 2016-07-27 Are police forces agents of the state or of society How do different police forces maintain order How does the nature of a country's political system affect the state's reaction to disorder This study identifies trends in public order policing across a broad sample of seven countries Britain Northern Ireland the Irish Republic the United States of America Israel South Africa and China It explains why the handling of disorder has become a controversial and topical issue in different parts of the world Each chapter provides a range of data on the size make up and cost of the police and follows a common format in analysing the place of the police at the junction of state society relations Clearinghouse Review, 1975 *Book Review Digest* Leslie Dunmore-Leiber, 1976 **A Tale of Three Cities** John Lynch, 1998-07-13 The city of Belfast tends to be discussed in terms of its distinctiveness from the rest of Ireland an industrial city in an agricultural country However when compared with another British industrial port such as Bristol it is the similarities rather than the differences that are surprising When these cities are compared with Dublin the contrasts become even more painfully evident This book seeks to explore these contrasting urban centres at the start of the twentieth century **America, History and Life**, 1982 Provides historical coverage of the United States and Canada from prehistory to the present Includes information abstracted from over 2 000 journals published worldwide
