conciliarism whether the Common Council has priority over the Pope and curialism whether the Bishop of Rome has priority over the Common Council On the whole the situation had at least two remarkable features Firstly Polish philosophy was pluralistic and remained so since its very beginning But it was also eclectic which might explain why it aimed to a large extent at achieving a compromise between rival views Secondly given the shortcomings of the political system of the time as well as external pressure by an increasingly hegemonic Germany thinkers were very much interested in political matters Poland was a stronghold of political thought mostly inclined towards conciliarism and Polish political thought distinguished itself in Europe J **New York Times Saturday Review of Books and Art** ,1968 **Philosophy of Nature Today** Adam Świeżyński,2009 Time Zdzisław Augustynek,2012-12-06 This book is dedicated to the memory of Professor Henryk Mehlberg primarily because I want to recall his name to readers in the West for although Professor Mehlberg was the foremost Polish philosopher in the field of philosophy of time in that version which is related to twentieth century physics his fundamental work concerning time was published in English 43 years after its original publication of Mehlberg 1980 I am deeply indebted to Henryk Mehlberg For two years after the Second World War I was his student at Wrocław University where he lectured on philosophy and mathematical logic At that time I developed under his influence a long life fascination with the philosophy of time and was taught by him how to approach these problems effectively My research in this field has resulted in three books The first Properties of Time published in Polish in 1970 concerns the topological properties and properties of symmetry homogeneity and anisotropy of time The second The Nature of Time published in Polish in 1975 looks at possible definitions of time within both theories of relativity The present book is the third originally published in Polish in 1979 it concerns philosophical problems of past present and future and is here presented in English to reach a wider audience
