differences occur the factors that trigger them and translation strategies which are used to solve them The book offers a systematic corpus based approach to terminology Data for analyses come from the English and Polish surveying corpora compiled specifically for this project The author of the book attempts to provide a wide picture of surveying terminology by looking at problems that diversified groups of users may identify The book is directed towards terminologists and lexicographers for whom it provides a set of guidelines on how to enrich the content of surveying dictionaries translators and technical writers who may find information on how to deal with conceptual mismatches and to specialists in the surveying field who are interested in finding equivalents for problematic terms *Alfred Tarski on Scientific Semantics* David Hitchcock, Magda Stroińska, 2025-01-11 This book tells the story of the landmark event in modern logic whereby Alfred Tarski became the man who defined truth Alfred Tarski's classic monograph on truth became known internationally in 1935 when he presented its ideas in German at an international conference and collaborated in preparation of its German translation This book provides the first English translation of the Polish version of Tarski's conference paper which for purposes of comparison is printed side by side with a new exact English translation of the German version It offers for the first time a comprehensive and detailed analysis of the paper and for the first time a description and analysis of the discussion of the paper immediately after its presentation It discusses 22 substantive differences between the two versions The book also extracts from recently discovered correspondence about the German translation of the truth monograph how it was decided to produce such a translation the process of vetting and changing the translation changes requested by Tarski objections to the appeal to intuition in the Polish original supported by a list of those appeals with their replacements in the German and English translations other translational issues discrepancies other than those concerning appeals to intuition between the Polish original and its German translation the Keystone cops saga of Tarski's off prints and monetary matters It lists from Tarski's journal his skiing mountaineering and tourist trips in 1935 and describes his companions on those trips An electronic supplement translates or summarizes the complete correspondence with comments and includes images from Tarski's journal of his itineraries of his 1935 trips with the editors explanatory comments *Polish Sacred Philology in the Reformation and the Counter-Reformation* David A.
