Non-Conceptual Negativity Zafer Aracagök, 2019-03-25 Non Conceptual Negativity Damaged Reflections on Turkey critiques those who have accused Deleuze of an unbounded affirmation which according to them has played directly into the hands of capitalist modes of production Yet no one has acknowledged that under the aegis of nano fascism late capitalism has grown into Neanderthal capitalism invented and developed in laboratory countries like Turkey with the aid of an international Neanderthal league Layer upon layer Aracagök explains in fragmentary fashion that it is not only a matter of

how Turkey has grown into a prime laboratory of nano fascism with the aid of the US and European Union but also how the results obtained from this laboratory are put into practice in different countries under Neanderthal capitalism enslaving each and every one of us into accepting even the position of suicide bomber As none of us is exempted from nano fascism today perhaps it is timely to reconsider the ways in which Deleuzian thought is appropriated in the form of an unquestioned affirmation and how its critique has ended up in an old fashioned formulation of the individual according to a party program If this all goes to show that we are face to face with a route different from the accepted forms of affirmation that is if we are all affirmed and seem to be happily affirming life as it is as a result of the Neanderthal manipulation of the negative then isn't it timely to rethink the Deleuzian affirmation in its non ordinary origin with regard to Adorno's resistance against affirmation That is the double negation never ends up in affirmation and if it does so it might mean your negation is not strong enough
