Quicker Than The Eye:

Quicker Than the Eye John Mulholland, 1932 Quicker Than the Eye. The Magic and Magicians of the World ... Illustrated, Etc John Mulholland, 1932 **Quicker Than the Eye** Ray Bradbury, 1996 From the ghosts of Laurel and Hardy to an ancient murderous couple from a witch doctor to a family who detour down a sideroad of alternative futures Ray Bradbury returns with a collection of human and blackly comic fiction *Quicker Than the Eye* Random House, 1998-02-01

Ray Bradbury Jonathan R. Eller, William F. Touponce, 2004 This is a textual bibliographical and cultural study of 60 years of Bradbury's fiction The authors draw upon correspondence with his publishers agents and friends as well as archival manuscripts to examine the story of Bradbury's authorship over more than half a century **It's Not Magic, It's Science!** Hope Buttitta, 2007 Every child who performs these 50 fabulous feats will feel like a magician but the magic here is really science at play Every trick in the book has a sound easy to understand scientific explanation that will stimulate kids understanding of basic concepts Even as they're having fun children will wow the crowd by poking a skewer through a balloon without making it pop or balancing a penny on a coat hanger Nothing's cooler than watching a real egg get sucked into a glass bottle picking up ice without even touching it or whipping up fizzy and colorful solutions that any mad scientist would prize Wild optical illusions will boggle the mind and astound the eye *Magic* Joshua Jay, 2008-11-08 Finally a book that brings the art of magic into the 21st century Rick Merrill 2006 World Champion of Magic Every 10 or 20 years a book comes along that introduces a whole new generation to the art and craft of magic This is it Stan Allen Editor in Chief of Magic Magazine The Book A book of powerful secrets How to master the art of direction Perfect the Sid Lorraine force essential to card tricks Harness PATEO to read minds Learn skills like the false transfer palm switch big action covers the small action and more Above all how to create an emotional hook so that in the fleeting moment when an effect occurs magic truly happens revealing the world to be a place of boundless wonder Dazzle your friends Impress a date like never before Confound your kids or better yet confound your parents Magic shows you how to master over 100 effects that are simple to learn and guaranteed to astonish The DVD Included with Magic is an entertaining 132 minute DVD featuring 35 effects performed and taught in great detail with particular emphasis on rhythm and action and the nuances of timing and direction The author Joshua Jay was crowned champion at the World Magic Seminar in 1998 when he was still a teenager He's performed and lectured in over 50 countries is a headliner at the Magic Castle in Hollywood and writes a monthly column in MAGIC the leading magazine for magicians His website is www.joshuajay.com **Lawyer and Banker and Southern Bench and Bar Review** Charles Elwell George, 1914 Short Story Index, 1999 **Cheating and Deception** J. Bowyer Bell, Barton Whaley, 2017-09-04 Cheating and deception are terms often used but rarely defined They summon up unpleasant connotations even those deeply involved with cheating and deception rationalize why they have been driven to it Particularly for Americans and much of Western civilization official cheating government duplicity cheating as policy and conscious

contrived deception are all unacceptable except as a last resort in response to threat of extinction As a distasteful tool deception is rarely used to achieve national interests unless in relation to the deployment of military force As an area of study it has by and large been ignored Intrigued by attitudes toward cheating and deception the authors decided to analyze its roots structure and process They asked fundamental questions are there categories of deception general steps in the process of deception and ways to evaluate its results across time and in different modes The book that results is a typology of kinds of deception beginning with military deception but extending into other categories and stages In his introduction to this new edition Bell outlines how the book came to be written describes the mixed emotions toward the subject displayed by governmental and nongovernmental funding sources and speculates about its critical and commercial reception He discusses widespread new interest in the subject the research that has been undertaken since this book was first published and its limitations This book provides a general overview of this complex subject creating a framework for analysis of specific instances of cheating or deception It will be of particular interest to political scientists those interested in military affairs and strategy and psychologists The general reader will find the book written with a light touch drawing examples of cheating and deception in the pursuit of love and money The specialist reader will be intrigued by its broad ranging examples drawn from policy and politics

The Eye of Zeitoon Talbot Mundy,2022-06-13 In *The Eye of Zeitoon* Talbot Mundy stunningly captures the cadence of historical narration and adventure marrying it with intricate political and cultural undercurrents of the waning Ottoman Empire Set against the backdrop of the Italo Turkish War of 1911 the novel vividly portrays the Armenian community's tumultuous struggle for liberation from Ottoman oppression Through the eyes of three Englishmen an American and a dauntless American woman Mundy weaves a narrative rife with suspense and rich in the ambience of a land bracing for conflict His prose masterfully echoes the period's linguistic style while offering profound commentaries on courage camaraderie and the complexities of freedom This work stands as a powerful testament to the historic Armenian resistance encapsulated within a tapestry of adventure and the timeless quest for self determination

Talbot Mundy an English writer possessed a unique insight into the geopolitical mosaics of the early 20th century Near East His own experiences in Africa and India informed his perspectives on colonial and cultural dynamics which are prevalent in his storytelling Mundy's empathy for indigenous struggles mirrored in *The Eye of Zeitoon* likely stems from his time abroad witnessing first hand the fallout of Empire and the plight of those caught in its wake His dedicated research and nuanced understanding of the Oriental landscape imbue this novel with authenticity and resonant depth

The Eye of Zeitoon invites readers who relish in historical fiction that elucidates the contours of an era fraught with struggle yet brimming with heroism Mundy's novel is recommended for aficionados of rich character development and for those seeking to immerse themselves in the rarely explored narratives of Armenian resilience Beyond a mere retelling of events this novel is a literary doorway to the echoes of past battles for dignity
