Hogan, 2015-05-07 From the inception of the science fiction film writers directors producers and actors have understood that the genre lends itself to a level of social commentary not available in other formats Viewers find it easier to accept explorations of such issues as domestic violence war xenophobia faith identity racism and other difficult topics when the protagonists exist in future times or other worlds that are only vaguely similar to our own The 22 original essays in this collection examine how the issues in particular science fiction films from 1930 s High Treason to 1999 s The Iron Giant reflect and comment on the prevailing issues of their time The 16 writers including such noted contributors as Ted Okuda Gary Don Rhodes Bryan Senn John Soister and Ken Weiss provide insight on how the genre s wistful daydreaming forthcoming wonders and nightmarish scenarios are often grounded in the grimmer realities of the human condition Films covered include It Came from Outer Space Godzilla The 27th Day Alien and Starship Troopers plus television s The Adventures of Superman the Flash Gordon serials and vintage space cartoons by Fleischer      Eye on Science Fiction Tom Weaver, 2007-04-23 The march of the monster movie makers continues in Tom Weaver s ninth book of in depth interviews with the men and women who made the horror and sci fi favorites of the 1940s 50s and 60s Actors including Mike Connors Brett Halsey Natalie Trundy and Richard Kiel writers producers and directors recall legendary genre figures Lugosi Chaney Jr Tod Browning and James Whale films ranging in quality from The Thing to Macumba Love and Eegah behind the scenes tales of cult TV series Twilight Zone Batman Lost in Space more and serials and of course the usual barrage of outlandish movie menaces this time including the Fly Flesh Eaters Monolith Monsters ape men voodoo women and spider babies And all in the candid no holds barred style that has made Weaver king of the interviewers Classic Images      **Challenging**

**Anthropocentrism in Eco-Science Fiction Novels** Fatma Gamze Erkan, 2024-01-03 This book explores the relationship between humanity and nature while challenging the notion that anthropocentric behaviour causes the environmental catastrophes depicted in the four selected British eco science fiction novels These novels are John Christopher s The Death of Grass 1956 J G Ballard s The Drought 1965 Brian Aldiss s Earthworks 1965 and John Brunner s The Sheep Look Up 1972 all of which fictionalise the fact that the consequences of environmental problems can be diverse but equally serious This book examines how even the smallest damage caused by human beings to the environment negatively affects them other living beings and the ecosystem they need to live and flourish In conjunction with these the factors and conditions that push characters in the novels to ignore and harm the environment are also scrutinised While examining how and why the environmental problems in the novels have arisen it is evaluated whether the authors propose solutions to these problems and if so what they are      **Boys' Life** , 1979-11 Boys Life is the official youth magazine for the Boy Scouts of America Published since 1911 it contains a proven mix of news nature sports history fiction science comics and Scouting

**Speculations on Speculation** James E. Gunn, Matthew Candelaria, 2005 Science fiction is a field of literature that has great interest and great controversy among its writers and critics This book examines the roots history development current status and future directions of the field through articles contributed by well respected science fiction writers teachers and critics The articles speculate on what is science fiction is science fiction serious literature which writers are considered good science fiction writers and where the genre of science fiction is headed with 21st century writers Contributors include Brian W Aldiss Kathryn Cramer Samuel R Delany David G Hartwell Ursula K Le Guin Barry N Malzberg Darko Suvin Michael Swanwick and many other outstanding authors Examining all genres and subgenres of science fiction writing this book provides differing viewpoints on science fiction making it a great basis for dynamic classroom discussions John Brunner Jad Smith, 2013-01-30 Under his own name and numerous pseudonyms John Brunner 1934 1995 was one of the most prolific and influential science fiction authors of the late twentieth century During his exemplary career the British author wrote with a stamina matched by only a few other great science fiction writers and with a literary quality of even fewer importing modernist techniques into his novels and stories and probing every major theme of his generation robotics racism drugs space exploration technological warfare and ecology In this first intensive review of Brunner s life and works Jad Smith carefully demonstrates how Brunner s much neglected early fiction laid the foundation for his classic Stand on Zanzibar and other major works such as The Jagged Orbit The Sheep Look Up and The Shockwave Rider Making extensive use of Brunner s letters columns speeches and interviews published in fanzines Smith approaches Brunner in the context of markets and trends that affected many writers of the time including Brunner s uneasy association with the New Wave of science fiction in the 1960s and 70s This landmark study shows how Brunner s attempts to cross fertilize the American pulp tradition with British scientific romance complicated the distinctions between genre and mainstream fiction and between hard and soft science fiction and helped carve out space for emerging modes such as cyberpunk slipstream and biopunk **Science Fiction in Translation** Ian Campbell, 2022-01-01 Science Fiction in Translation Perspectives on the Global Theory and Practice of Translation focuses on the process of translation and its implications The volume explores the translation of works of science fiction SF from one language to another and the translation of SF tropes terms and ideas of SF theory into cultures outside the West Providing a comprehensive examination of the state of translation into English the essays consider how representative the body of translated work of SF is from the source language culture It also considers the social political and economic choices in selecting a work to translate The book illustrates the dramatic growth both in SF production outside the Anglosphere the translation of works from other languages into English and the practice of translating English language SF into other languages Altogether the essays map the theory practice and business of SF translation around the world

propulsion written by experts in the field it includes the latest developments in cfd experimental techniques and guidance for  
the practical estimation of ship propulsive power

naval architecture resistance propulsion design britannica - Jun 13 2023

web resistance and propulsion the resistance to forward motion of a ship is of three principal kinds friction wave making and  
separation or eddy making friction or viscous resistance is caused by the acceleration of liquid particles in a forward  
direction as the bow continually runs into a region of liquid at rest

**ship resistance and propulsion cambridge university press** - Aug 03 2022

web introduction the estimation of ship propulsive power is fundamental to the process of design ing and operating a ship a  
knowledge of the propulsive power enables the size and mass of the propulsion engines to be established and estimates made  
of the fuel consumption and operating costs

*ship resistance and propulsion cambridge university* - Apr 11 2023

web ship resistance and propulsion is dedicated to providing a comprehensive and modern scientific approach to evaluating  
ship resistance and propulsion the study of propulsive power enables the size and mass of the propulsion engines to be  
established and estimates made of the fuel consumption and likely operating costs
