Smith Ivey, 2014-10-28 An exquisite and authoritative look at four centuries of quilts and quilting from around the world. Quilts are among the most utilitarian of art objects yet the best among them possess a formal beauty that rivals anything made on canvas. This landmark book drawn from the world renowned collection of the Colonial Williamsburg Foundation highlights the splendor and craft of quilts with more than 300 superb color images and details. Fascinating essays by two noted scholars trace the evolution of quilting styles and trends as they relate to the social, political, and economic issues of their time. The collection includes quilts made by diverse religious and cultural groups over 400 years and across continents from the Mediterranean, England, France, America, and Polynesia. The earliest quilts were made in India and the Mediterranean for export to the west and date to the late 16th century. Examples from 18th to 20th century America, many made by Amish and African American quilters, reflect the multicultural nature of American society and include boldly colored and patterned worsteds and brilliant pieced and appliqué works of art. Grand in scope and handsomely produced. **Four Centuries of Quilts: The Colonial Williamsburg Collection** is sure to be one of the most useful and beloved references on quilts and quilting for years to come.

The Life in the Massachusetts Bay Colony George Francis Dow, 2020-12-17 A picture of some phases of life in the early days of the Massachusetts Bay Colony is presented in the following pages. It follows many of the everyday happenings, the manners and customs of daily life. Few realize how modern are the furnishings and comforts of our present day houses and how different was the home life of our ancestors. Chairs were unknown in ordinary English households until a generation or so before the sailing of the Mayflower. Hats were worn at meals and the use of table forks did not become general until the last of the 1600s. Food was placed in the mouth with the knife or the fingers. This is a collection of source materials somewhat digested rather than a comprehensive well balanced narrative of daily life in the Colony. Contents: Every Day Life in the Massachusetts Bay Colony, The Voyage To Massachusetts, Their Early Shelters and Later Dwellings, How They Furnished Their Houses, Counterpanes and Coverlets, Concerning Their Apparel, Pewter in the Early Days, The Farmhouse and the Farmer, Manners and Customs, Sports and Games, Trades and Manufactures, Concerning Shipping and Trade, From Wampum To Paper Money, Herb Tea and the Doctor, Crimes and Punishments. [Old House Interiors](#), 2000-04 National architectural magazine now in its fifteenth year covering period inspired design 1700-1950. Commissioned photographs show real homes inspired by the past but livable. Historical and interpretive rooms are included, new construction additions and new kitchens and baths take their place along with restoration work. A feature on furniture appears in every issue. Product coverage is extensive. Experts offer advice for homeowners and designers on finishing, decorating and furnishing period homes of every era. A garden feature, essays, archival material, events and exhibitions and book reviews round out the editorial. Many readers claim the beautiful advertising, all of it design related, no lifestyle ads is as important to them as the articles.
