Quodlibetal Questions On Moral Problems:

Quodlibetal Questions on Moral Problems Henry (of Ghent),2005 *Moral Dilemmas in Medieval Thought* M. V. Dougherty,2011-04-14 The history of moral dilemma theory often ignores the medieval period overlooking the sophisticated theorizing by several thinkers who debated the existence of moral dilemmas from 1150 to 1450 In this book Michael V Dougherty offers a rich and fascinating overview of the debates which were pursued by medieval philosophers theologians and canon lawyers illustrating his discussion with a diverse range of examples of the moral dilemmas which they considered He shows that much of what seems particular to twentieth century moral theory was well known long ago especially the view of some medieval thinkers that some forms of wrongdoing are inescapable and their emphasis on the principle choose the lesser of two evils His book will be valuable not only to advanced students and specialists of medieval thought but also to those interested in the history of ethics **Social Rights and the Politics of Obligation in History** Steven L. B.

Jensen,Charles Walton,2022-01-06 This pioneering volume explores the long neglected history of social rights from the Middle Ages to the present It debunks the myth that social rights are second generation rights rights that appeared after World War II as additions to a rights corpus stretching back to the Enlightenment Not only do social rights stretch back that far they arguably pre date the Enlightenment In tracing their long history across various global contexts this volume reveals how debates over social rights have often turned on deeper struggles over social obligation over determining who owes what to whom morally and legally In the modern period these struggles have been intertwined with questions of freedom democracy equality and dignity Many factors have shaped the history of social rights from class gender and race to religion empire and capitalism With incomparable chronological depth geographical breadth and conceptual nuance *Social Rights and the Politics of Obligation in History* sets an agenda for future histories of human rights **Just Wars and Moral**

Victories David Whetham,2009 While recognising the sophistication of the practice of medieval warfare many people still have problems reconciling the widespread use of surprise and deception with the code of chivalric warfare Was chivalry really just a meaningless veneer If true perhaps more perplexing are the many cases where surprise or deception were not employed and advantages were therefore sacrificed This work argues that understanding these apparent inconsistencies requires an appreciation of the moral and legal context of medieval strategic thought Through taking this approach chivalric warfare can be seen for what it was a very real framework or system of rules that allowed a result or decision to be reached which could be accepted by both sides *Henry of Ghent's Summa of Ordinary Questions* Henry (of Ghent),2008 **Moral**

Psychology in History: From the Ancient to Early Modern Period Virpi Mäkinen,Simo Knuuttila,2024-10-09 This book provides a comprehensive study of major issues of moral psychology throughout history from ancient to early modern philosophy The volume focuses primarily on the Western history of philosophy but also deals with Jewish and Islamic heritage The Introduction chapter lays out the historical background in broad strokes giving the reader the lay of the land when it

comes to the terms of analysis and their overall development within the Western tradition of moral psychology The book continues by studying and analyzing moral anthropology moral agency and motivation virtues and social and political commitments taking a thematic approach in a specific time period and focus on the most unique and or fruitful discussions about a particular historically situated discussion when it comes to thinking about questions and or problems in the field of moral psychology Aimed at both a layman and academic audience this book is of great interest to a broad readership **An**

Introduction to Medieval Philosophy Joseph W. Koterski, 2011-09-09 By exploring the philosophical character of some of the greatest medieval thinkers An Introduction to Medieval Philosophy provides a rich overview of philosophy in the world of Latin Christianity Explores the deeply philosophical character of such medieval thinkers as Augustine Boethius Eriugena Anselm Aquinas Bonaventure Scotus and Ockham Reviews the central features of the epistemological and metaphysical problem of universals Shows how medieval authors adapted philosophical ideas from antiquity to apply to their religious commitments Takes a broad philosophical approach of the medieval era by taking account of classical metaphysics general culture and religious themes **Moral Philosophy on the Threshold of Modernity** Jill Kraye, Risto Saarinen, 2006-03-30

Over the past twenty years the transition from the late Middle Ages to the early modern era has received increasing attention from experts in the history of philosophy In part this new interest arises from claims made in literature aimed at a less specialist readership that this transition was responsible for the subsequent philosophical and theological problems of the Enlightenment Philosophers like Alasdair MacIntyre and theologians like John Milbank display a certain nostalgia for the medieval synthesis of Thomas Aquinas and consequently evaluate the period from 1300 to 1700 in rather negative terms Other historians of philosophy writing for the general public such as Charles Taylor take a more positive view of the Reformation but nevertheless conclude that modernity has been shaped by 1 conflicts which stem from early modern times Ethics and moral thought occupy a central place in these theories It is assumed that we have lost something the concept of virtue for instance or the source of common morality Yet those who put forward such notions do not treat the history of ethics in detail From the historian s perspective their far reaching theoretical assumptions are based on a quite small body of textual evidence In reality there was a rich variety of approaches to moral thinking and ethical theories during the period from 1400 to 1600 Common Good and Self-Interest in Medieval and Early Modern Philosophy Heikki Haara, Juhana

Toivanen, 2024-04-03 This open access volume provides an in depth analysis of philosophical discussions concerning the common good and its relation to self interest in the history of Western philosophy The thirteen chapters explore both renowned and lesser known thinkers from the Middle Ages to the eighteenth century covering also the relevant ancient background By bridging the gap between the medieval and early modern periods they provide fresh insights into how moral and political philosophers understood the concepts of the common good and self interest along with their ethical and political implications The concept of the common good occupies a central role in philosophical reflections on the public and private

dimensions of moral and social life in contemporary debates By exploring the rich and diverse ways in which the relationship between the common good and self interest has been understood this volume has the potential to contribute to our ongoing efforts to critically discern the possibilities and limitations of these concepts in the present Thus the volume will be useful for scholars interested in the multi layered role of the notion of the common good both in the history of philosophy and in contemporary moral and political philosophy

Dictionary of Theologians Jonathan Hill, 2010-03-25 An exhaustive guide to every significant Christian theologian who lived from the first century to 1308 the year in which John Duns Scotus died The dictionary encompasses the Catholic Orthodox Nestorian and Monophysite traditions including information not previously available in English Thoroughly indexed the dictionary incorporates common variants of names and concepts which will help and direct the reader The main criterion for inclusion has been contribution to the development of Christian theology Sub criteria by which that is measured include above all originality and influence on later figures With over 290 entries the dictionary provides a handy summary of theologians' lives and writings together with recent scholarship as well as an up to date definitive bibliography listing primary texts translations and secondary literature in the major western European languages Useful for all levels of academia no other text matches the depth of the dictionary's bibliographies The unprecedented thoroughness of Hill's compilation provides an essential resource for studies at all levels on such a large and varied range of Church thinkers

Teleology Jeffrey K. McDonough, 2020-05-08 Teleology is the belief that some things happen or exist for the sake of other things It is the belief that for example salmon swim upstream in order to spawn and that bears have claws for the sake of catching fish This volume takes up the intuitive yet puzzling concept of teleology as it has been treated by philosophers from ancient times to the present day It includes nine main chapters centered on the treatment of teleology in Plato Aristotle the Islamic medieval tradition the Jewish medieval tradition the Latin medieval tradition the early modern era Kant Hegel and contemporary philosophy Each chapter probes central questions such as is teleology inherent in its subjects or is it imposed on them from the outside Does teleology necessarily involve intentionality that is a subject's cognizing some end goal or purpose What is the scope of teleology Is it for example applicable to elements and animals or only to rational beings Finally is teleology explanatory When we say that salmon swim upstream in order to spawn have we explained why they swim upstream When we say that bears have claws for catching fish have we explained why bears have claws The philosophical discussions of the main chapters are enlivened and contextualized by four reflection pieces exploring the implications of teleology in medicine art poetry and music

Medieval Philosophy Peter Adamson, 2019-09-26 Peter Adamson presents a lively introduction to six hundred years of European philosophy from the beginning of the ninth century to the end of the fourteenth century The medieval period is one of the richest in the history of philosophy yet one of the least widely known Adamson introduces us to some of the greatest thinkers of the Western intellectual tradition including Peter Abelard Anselm of Canterbury Thomas Aquinas John Duns Scotus William of Ockham

and Roger Bacon And the medieval period was notable for the emergence of great women thinkers including Hildegard of Bingen Marguerite Porete and Julian of Norwich Original ideas and arguments were developed in every branch of philosophy during this period not just philosophy of religion and theology but metaphysics philosophy of logic and language moral and political theory psychology and the foundations of mathematics and natural science Empire of Poverty Julia McClure,2024-11-11 Empire of Poverty examines how changing concepts of poverty in the long sixteenth century helped shape the deep structures of states and empires and the contours of imperial inequalities While poverty is often understood to have become a political subject with the birth of political economy in the eighteenth century this book points to the longer history of poverty as a political subject and a more complicated relationship between moral and political economies It focuses upon the critical transformations taking place in the long sixteenth century with the emergence of the world s first global empire and the development of colonial capitalism The book explores how the moral political economy of poverty defined as a new and changing conceptualisation of and approach to poverty across laws institutions and acts of resistance played a critical role in the development and governance of the Spanish Empire In so doing it offers insights into the negotiated nature of sovereignty the construction of inequalities and strategies of resistance Empire of Poverty explains how the combined processes of the transition to global capitalism and imperialism in the long sixteenth century wrought a moral crisis which led to the transformation of poverty and reconceptualization of the poor and how the newly emerging beliefs laws and institutions of poverty helped structure the inequalities of the new global order *Mind and Obligation in the Long Middle Ages* ,2024-12-31 Do you have to learn a language to speak with yourself Can you know something but be uncertain about whether you know that thing Are you responsible for your own happiness or lack thereof And what about the more basic acts of your soul such as perception or digestion These are some of the questions addressed by this volume which brings together contributions in the history of logic philosophy of mind and ethics With papers dealing with both mediaeval and early modern authors the book highlights long term historical developments and surprising connections between the three domains Contributors are Tuomo Aho Guido Alt Susan Brower Toland Deborah Brown Tomas Ekenberg Jari Kaukua Taneli Kukkonen Henrik Lagerlund Vili Lhteenm ki John Marenbon Calvin Normore Martina Reuter Sonja Schierbaum Filipe Silva Juhana Toivanen and Sara Uckelman Theological Quodlibeta in the Middle Ages Christopher David Schabel,2006 The second of two volumes on special theological disputations from ca 1230 1330 in which audience members asked the era s greatest intellectuals questions de quolibet about anything The variety of the material and the authors stature make the genre uniquely fascinating **The Bonds of Humanity** Cary J. Nederman,2020-01-06 Of the great philosophers of pagan antiquity Marcus Tullius Cicero is the only one whose ideas were continuously accessible to the Christian West following the collapse of the Roman Empire Yet in marked contrast with other ancient philosophers Cicero has largely been written out of the historical narrative on early European political thought and the reception of his ideas has barely been studied The Bonds

of Humanity corrects this glaring oversight arguing that the influence of Cicero's ideas in medieval and early modern Europe was far more pervasive than previously believed. In this book Cary J. Nederman presents a persuasive counternarrative to the widely accepted belief in the dominance of Aristotelian thought. Surveying the work of a diverse range of thinkers from the twelfth to the sixteenth century including John of Salisbury, Brunetto Latini, Marsiglio of Padua, Christine de Pizan, and Bartolom de Las Casas, Nederman shows that these men and women inherited, deployed, and adapted key Ciceronian themes. He argues that the rise of scholastic Aristotelianism in the thirteenth century did not supplant but rather supplemented and bolstered Ciceronian ideas, and he identifies the character and limits of Ciceronianism that distinguish it from other schools of philosophy. Highly original and compelling, this paradigm-shifting book will be greeted enthusiastically by students and scholars of early European political thought and intellectual history, particularly those engaged in the conversation about the role played by ancient and early Christian ideas in shaping the theories of later times.

Philosophical Problems of the Internal and External Worlds John Earman, Allen Janis, Gerald J. Massey, Nicholas Rescher, 2014-02-06 The inaugural volume of the Pittsburgh Konstanz series devoted to the work of philosopher Adolf Grünbaum encompasses the philosophical problems of space, time, and cosmology; the nature of scientific methodology; and the foundations of psychoanalysis.

Faith, Ethics, and Church David Aers, 2000 Examination of key texts Chaucer to Wyclif sheds new light on medieval spirituality. The relationship between versions of the late medieval Church's faith, ethics, and the lay powers as explored in a range of late fourteenth and early fifteenth century texts written in England is the subject of this book. It argues that they disclose strikingly diverse models of Christian discipleship and examines the sources and consequences of such differences. Issues investigated include whether the Church could shape modern communities and individual identities and how it could combine its status as a major landlord and trader without being assimilated by the various networks of earthly power and profit. The book begins with Chaucer's treatment of received versions of faith, ethics, and the Church and moves via St. Thomas, Ockham, Nicholas Love, Gower, the Gawain poet, and Langland, who pursues the issues with particular intensity and focus, to Wyclif's construal of Christian discipleship in relation to his projected reform of the Church. Interdisciplinary in approach, the book will be of interest to all those studying late medieval Christianity and literature.

DAVID AERS is James B. Duke Professor of English and Professor of Historical Theology at Duke University.

Summistae Lidia Lanza, Marco Toste, 2021-03-15 Thomas Aquinas' *Summa theologiae* is one of the classics in the history of theology and philosophy. Beyond its influence in the Middle Ages, its importance is also borne out by the fact that it became the subject of commentary. During the sixteenth century, it was gradually adopted as the official text for the teaching of scholastic theology in most European Catholic universities. As a result, university professors throughout Europe and the colonial Americas started lecturing and producing commentaries on the *Summa* and using it as a starting point for many theological and philosophical discussions. Some of the works of major authors such as Vitoria, Soto, Molina, Suárez, and Arriaga are nothing more than commentaries on the *Summa*. This book is the

first scholarly endeavour to investigate this commentary tradition As it examines late scholasticism against its institutional backdrop and contains studies of manuscripts and texts unpublished it will remain an authoritative source for the research of late scholasticism The Idea of a Moral Economy Lawrin Armstrong,2016-01-01 The Idea of a Moral Economy is the first modern edition and English translation of three questions disputed at the University of Paris in 1330 by the theologian Gerard of Siena The questions represent the most influential late medieval formulation of the natural law argument against usury and the illicit acquisition of property Together they offer a particularly clear example of scholastic ideas about the nature and purpose of economic activity and the medieval concept of a moral economy In his introduction editor Lawrin Armstrong discusses Gerard s arguments and considers their significance both within the context of scholastic philosophy and law and as a critique of contemporary mainstream economics His analysis demonstrates how Gerard s work is not only a valuable source for understanding economic thought in pre modern Europe but also a fertile resource for scholars of law economics and philosophy in medieval Europe and beyond

Whispering the Strategies of Language: An Mental Journey through **Quodlibetal Questions On Moral Problems**

In a digitally-driven earth wherever monitors reign great and immediate connection drowns out the subtleties of language, the profound secrets and psychological nuances hidden within phrases usually get unheard. However, located within the pages of **Quodlibetal Questions On Moral Problems** a fascinating fictional treasure pulsing with natural thoughts, lies an exceptional quest waiting to be undertaken. Composed by a skilled wordsmith, that wonderful opus invites viewers on an introspective trip, gently unraveling the veiled truths and profound affect resonating within the very fabric of each word. Within the mental depths of this emotional evaluation, we shall embark upon a sincere exploration of the book is primary styles, dissect their interesting publishing fashion, and yield to the effective resonance it evokes strong within the recesses of readers hearts.

Quodlibetal Questions On Moral Problems Introduction

In the digital age, access to information has become easier than ever before. The ability to download Quodlibetal Questions On Moral Problems has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Quodlibetal Questions On Moral Problems has opened up a world of possibilities. Downloading Quodlibetal Questions On Moral Problems provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Quodlibetal Questions On Moral Problems has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Quodlibetal Questions On Moral Problems. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Quodlibetal Questions On Moral Problems. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Quodlibetal Questions On Moral

Problems, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Quodlibetal Questions On Moral Problems has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Quodlibetal Questions On Moral Problems Books

1. Where can I buy Quodlibetal Questions On Moral Problems books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
