Darwin biographer Janet Browne *The Quotable Darwin* draws from Darwin's writings, letters to friends and family, autobiographical reminiscences and private scientific notebooks. It offers a multifaceted portrait that takes readers through his youth, the famous voyage of the *Beagle*, the development of his thoughts about evolution, his gradual loss of religious faith, and the time spent turning his ideas into a well-articulated theory about the natural origin of all living beings, a theory that dangerously included the origin of humans. *The Quotable Darwin* also includes many of the key responses to Darwin's ideas from figures across the social spectrum, scientists and nonscientists alike, and criticism too. We see Darwin as an innovative botanist and geologist, an affectionate husband and father, and a lively correspondent who once told his cousin that he liked to play billiards because it drives the horrid species out of my head. This book gives us an intimate look at Darwin at work, at home as a public figure, and on his travels. Complete with a chronology of Darwin's life, by Browne, *The Quotable Darwin* provides an engagingly fresh perspective on a remarkable man who was always thinking deeply about the natural world.
