

ANOTHER BOOK OF LASTING INTEREST

A Treasury of ALBERT SCHWEITZER

edited by THOMAS KIRKMAN

Collected here in a single volume are the most important philosophical writings of one of the greatest thinkers and humanitarians of our time. Carefully chosen from among his many written works, the selections contained in this anthology are so arranged as to illustrate and explicate Dr. Schweitzer's cardinal principle of total reverence for life.

One of Schweitzer's major essays, "Philosophy of Religion," appears here for the first time in English. Among other important and revealing works included are his "Pilgrimage to Humanity," which outlines his philosophy of culture, the early influences in his life, and his ideal of world peace; "The Light Within Us," which is one of this century's most significant and beautiful statements of one man's faith in his fellow man; and "Reverence for Life," which states, with utmost clarity and conviction, the essence of Schweitzer's wisdom.

Because of his legendary fame as a medical missionary, other equally important and outstanding aspects of Schweitzer's life are not so well known. Thus, it is the aim of this Treasury to present Albert Schweitzer as a creative thinker whose concern with the problems of the human spirit and whose methods of expressing his answers have raised him to the stature of one of the world's greatest philosophers.

Hopkins,2024-09-05 Over the past several decades American society has experienced fundamental changes from shifting relations between social groups and evolving language and behavior norms to the increasing value of a college degree These transformations have polarized the nation s political climate and ignited a perpetual culture war In a sequel to their award winning collaboration *Asymmetric Politics* Grossmann and Hopkins draw on an extensive variety of evidence to explore how these changes have affected both major parties They show that the Democrats have become the home of highly educated citizens with progressive social views who prefer credentialed experts to make policy decisions while Republicans have become the populist champions of white voters without college degrees who increasingly distrust teachers scientists journalists universities non profit organizations and even corporations The result of this new diploma divide between the parties is an increasingly complex world in which everything is about politics and politics is about everything
