Muslim Medical Ethics Jonathan E. Brockopp, Thomas Eich, 2021-02-09 A timely exploration of balancing Islamic heritage with contemporary medical and health concerns Muslim Medical Ethics draws on the work of historians health care professionals theologians and social scientists to produce an interdisciplinary view of medical ethics in Muslim societies and of the impact of caring for Muslim patients in non Muslim societies Edited by Jonathan E Brockopp and Thomas Eich the volume challenges traditional presumptions of theory and practice to demonstrate the ways in which Muslims balance respect for their heritage with the health issues of a modern world Like members of many other faiths Muslims are deeply engaged by the technological challenges posed by modern biomedicine and they respond to those challenges with enormous creativity whether as patients doctors or religious scholars Muslim Medical Ethics demonstrates that religiously based cultural norms often inform medical practice and vice versa in an ongoing discourse The contributors map the breadth and boundaries of this discourse through discussions of contested issues on the cutting edge of ethical debates from fertilized embryos in Saudi Arabia to patient autonomy in Toronto from organ trafficking in Egypt to sterilization in Tanzania As the authors illustrate the effects of Muslim medical ethics have ramifications beyond the Muslim world With growing populations of Muslims in North America and Europe Western physicians and health care workers should be educated on the special needs of this category of patients In every essay the richness of the Islamic tradition is visible In the premodern period Muslim physicians were considered among the best in the world building and improving on Greek and Indian traditions Muslim physicians today continue that tradition while incorporating scientific advances Scholars of Islamic law work closely with physicians to develop ethical guidelines for national and international bodies and individual Muslims take full advantage of advances in medicine and religious law combining them with the wisdom of Sufism and traditions of family and community This exploration of Muslim medical ethics is therefore a foray into the richness and sophistication of the Islamic tradition itself Designed as an engaging point of entrance for students in religious studies anthropology ethics and medical humanities this pathbreaking volume also has

Islamic Law and Ethics David R. Vishanoff, 2020-09-01 Does Islamic law define Islamic ethics Or is the law a branch of a broader ethical system Or is it but one of several independent moral discourses Islamic and otherwise competing for Muslims allegiance The essays in this book present a range of answers some take fiqh as the defining framework for ethics

others insert the law into a broader ethical system and others present it as just one among several parallel Islamic ethical discourses or show how Islamic ethics might coexist with non Muslim normative systems Their answers have far reaching implications for epistemology for the authority of jurists and lay Muslims for the practical moral challenges of daily life and for relationships with non Muslims The book presents Muslim ethicists with a strategic contemporary choice should they pursue a single overarching methodology for judging all ethical questions or should they relish the rhetorical and political competition of alternative but not necessarily incompatible moral discourses

Gendered Morality Zahra M. S. Ayubi, 2019-07-30 Islamic scriptural sources offer potentially radical notions of equality Yet medieval Islamic philosophers chose to establish a hierarchical male centered virtue ethics In *Gendered Morality* Zahra Ayubi rethinks the tradition of Islamic philosophical ethics from a feminist critical perspective She calls for a philosophical turn in the study of gender in Islam based on resources for gender equality that are unlocked by feminist engagement with the Islamic ethical tradition Developing a lens for a feminist philosophy of Islam Ayubi analyzes constructions of masculinity femininity and gender relations in classic works of philosophical ethics In close readings of foundational texts by Abu Hamid Muhammad al Ghazali Nasir ad Din Tusi and Jalal ad Din Davani she interrogates how these thinkers conceive of the ethical human being as an elite male within a hierarchical cosmology built on the exclusion of women and nonelites Yet in the course of prescribing ethical behavior the ethicists speak of complex gendered and human relations that contradict their hierarchies Their metaphysical premises about the nature of the divine humanity and moral responsibility indicate a potential egalitarian core *Gendered Morality* offers a vital and disruptive new perspective on patriarchal Islamic ethics and metaphysics showing the ways in which the philosophical tradition can support the aims of gender justice and human flourishing
