## **R A Long's Planned City The Story Of Longview:**

**R. A. Long's Planned City** John Morris McClelland, 1976      **Longview** Dennis Weber, Karen Dennis, Sue Maxey, 2012

From his command post in a downtown Kansas City skyscraper the nation's foremost lumberman R A Long received the devastating report from his company's timber scouts in 1918 his sources for raw material were nearly exhausted The once lush pine and oak forests of the Mississippi Delta had been stripped clean and converted into farmland Now his Long Bell Lumber Company was at a crossroads The timber baron put the question to a vote by his board of directors disband or build the world's largest lumber mill somewhere else This group of middle aged men looked upon R A Long as a father figure and a proverbial King Midas able to turn wood into gold Their decision was easy they wholeheartedly endorsed the plan to build And their vision became the Longview story combining social engineering modern marketing and a whole lot of money into a 20th century urban success story

**The Company Town** John Garner, 1992-10-01 Built by industrialists whose early businesses contributed to the escalation of the Industrial Revolution company towns flourished in countries that embraced capitalism and open market trading In many instances the company town came to symbolize the wrecking of the environment especially in places associated with extractive industries such as mining and lumber milling Some resident industrialists however took a genuine interest in the welfare of their work forces and in a number of instances hired architects to provide a model environment Overtaken by time these towns were either abandoned or caught up in suburban growth The most thorough going and only international assessment of the company town this collection of essays by specialists and authorities of each region offers a balanced account of architectural and social history and provides a better understanding of the architectural and urban experiences of the early industrial age

**Family Nibbles - Volume 7** Mark Jarvis, Family Nibbles Volume 7 Stories of Our Jarvis Ancestors 1920-1938 is a compilation of stories from the blog site familynibbles.com These stories include genealogy research on one line of Jarvis in Kansas This volume is about the lives of Ralph and Chleo Jarvis and their family They were in their prime in the 1920s and 1930s They got married worked and raised a family The book is also about Nathan L Jones the visionary mentor to Ralph Jarvis Jones provided Jarvis with opportunities and Ralph Jarvis took advantage of them This book is about the Roaring Twenties and the Great Depression These two decades saw the best of times and the worst of times Finally this book is about the modernization of American life It was the age of the automobile radio and telephone Perhaps most important it was the age of electricity bringing light and electric appliances into the homes of ordinary people

*Company Towns of the Pacific Northwest* Linda Carlson, 2017-09-01 Company town The words evoke images of rough and tumble loggers and gritty miners of dreary shacks in isolated villages of wages paid in scrip good only at price gouging company stores of paternalistic employers But these stereotypes are outdated especially for those company towns that flourished well into the twentieth century This new edition updates the status of the surviving towns and how they have changed in the fifteen years since the original edition and what new life has been created on the sites of the ones that

were razed In the preface Linda Carlson reflects on how wonderful it has been to meet people who lived in these towns or had parents who did and to hear about their memorable experiences **GEORGE S LONG (cl) , Urban Farming in the West** Robert M. Carriker,2010-04-15 From 1933 to 1935 the federal government s Division of Subsistence Homesteads created thirty four New Deal communities that sought to provide a healthier and more economically secure life for disadvantaged Americans These settlements were designed to combine the benefits of rural and urban living by offering part time farming uplifting social functions and inexpensive homes Four were located in the West in Phoenix Arizona El Monte and San Fernando California and Longview Washington Robert Carriker examines for the first time the intricate histories of these subsistence homestead projects which have long been buried in bureaucratic records and clouded by misunderstanding showing that in many ways they were among the agency s most successful efforts He provides case studies of the projects rescuing their obscure histories using archival documents and rare photographs He also reveals the machinations of civic groups and private citizens across the West who jockeyed for access to the funds being allotted for New Deal community building By describing what took place on these western homesteads Carriker shows that the DSH s agenda was not as far fetched as some have reported The tendency to condemn the Division and its projects he argues has failed to appreciate the good that came from some of the individual homestead communities particularly those in the Far West Although overshadowed by the larger undertakings of the New Deal some of these western communities remain thriving neighborhoods living legacies to FDR s efforts that show how the country once chose to deal with economic hardship Too often the DSH is noted for its failures Carriker s study shows that its western homesteads were instead qualified accomplishments *Pacific Northwest Quarterly* ,1975 *Black Gold* Bob Wyss,2025-09-23 Coal s central role in America s history and its ongoing threats in the climate crisis For decades coal has been crucial to America s culture society and environment an essential ingredient in driving out winter s cold cooking meals and lighting the dark In the coalfields and beyond Bob Wyss describes how this magical elixir sparked the Industrial Revolution powered railroads and built urban skylines while providing home comforts for families Coal s history and heritage are fundamental to understanding its legacy of threats to America s well being As industry developed so did clashes between powerful tycoons coal miners and innocent families Exploitation and avarice led to victimization deadly violence and ultimately the American labor movement More recently coal has endangered American lives and safety brought on by two centuries of carbon combustion and here the threat remains unresolved This is coal s most enduring legacy and Black Gold is pivotal in helping us understand how we got to this point Public Works History in the United States Suellen M. Hoy,American Association for State and Local History,Public Works Historical Society,1982 Our Daily Bread Geoff Mann,2012-09-01 A wage is more than a simple fee in exchange for labor argues Geoff Mann Beyond being a quantitative reflection of productivity or bargaining power a wage is a political arena in which working people s identity culture and politics are negotiated and developed In *Our Daily Bread*

Mann examines struggles over wages to reveal ways in which the wage becomes a critical component in the making of social hierarchies of race gender and citizenship Combining a fresh analysis of radical political economy with a critical assessment of the role of white men in North American labor politics Mann addresses the issue of class politics and places the problem of interests squarely at the center of political economy Rejecting the idea that interests are self evident or unproblematic Mann argues that workers interests and thus wage politics are the product of the ongoing effort by wage workers to focus on quality in a socioeconomic system that relentlessly quantifies Taking three wage disputes in the natural resources industry as his case studies Mann demonstrates that wage negotiation is not simply emblematic of economic conflict over the distribution of income but also represents critical contests in the cultural politics of identity under capitalism City Dreams, Country Schemes Kathleen A. Brosnan, Amy L. Scott, 2013-10-11 The American West from the beginning of Euro American settlement has been shaped by diverse ideas about how to utilize physical space and natural environments to create cohesive sometimes exclusive community identities When westerners developed their towns they constructed spaces and cultural identities that reflected alternative understandings of modern urbanity The essays in City Dreams Country Schemes utilize an interdisciplinary approach to explore the ways that westerners conceptualized built and inhabited urban suburban and exurban spaces in the twentieth century The contributors examine such topics as the attractions of open space and rural gentrification in shaping urban development the role of tourism in developing national parks historical sites and California's Napa Valley and the roles of public art gender and ethnicity in shaping urban centers City Dreams Country Schemes reveals the values and expectations that have shaped the West and the lives of the people who inhabit it

*Dictionary of Missouri Biography* Lawrence O. Christensen, William E. Foley, Gary Kremer, 1999-10 **Eruption: The Untold Story of Mount St. Helens** Steve Olson, 2016-03-07 A riveting history of the Mount St Helens eruption that will long stand as a classic of descriptive narrative Simon Winchester For months in early 1980 scientists journalists sightseers and nearby residents listened anxiously to rumblings in Mount St Helens part of the chain of western volcanoes fueled by the 700 mile long Cascadia fault Still no one was prepared when an immense eruption took the top off of the mountain and laid waste to hundreds of square miles of verdant forests in southwestern Washington State The eruption was one of the largest in human history deposited ash in eleven U S states and five Canadian provinces and caused more than one billion dollars in damage It killed fifty seven people some as far as thirteen miles away from the volcano's summit Shedding new light on the cataclysm author Steve Olson interweaves the history and science behind this event with page turning accounts of what happened to those who lived and those who died Powerful economic and historical forces influenced the fates of those around the volcano that sunny Sunday morning including the construction of the nation's railroads the harvest of a continent's vast forests and the protection of America's treasured public lands The eruption of Mount St Helens revealed how the past is constantly present in the lives of us all At the same time it transformed volcanic science the study of environmental resilience

and ultimately our perceptions of what it will take to survive on an increasingly dangerous planet Rich with vivid personal stories of lumber tycoons loggers volcanologists and conservationists Eruption delivers a spellbinding narrative built from the testimonies of those closest to the disaster and an epic tale of our fraught relationship with the natural world *The Jersey Bulletin and Dairy World* ,1917 **Washington Education Journal** ,1928 National Lumberman ,1923 **The Lumber Manufacturer and Dealer** ,1923 *The American City* Arthur Hastings Grant,Harold S. Buttenheim,1926

**Washington Comes of Age** David Hodges Stratton,1992 Nine noted regional and national experts here explore Washington s coming of age Essays delve into the frustration of territorial residents with the presidency of Abraham Lincoln Washington s struggle for statehood the state s constitutional convention suffragist Abigail Scott Duniway s fight for women s rights and the role of the Hanford nuclear reservation in American history Former governor and senator Daniel J Evans political correspondent Lou Cannon and Gordon Hirabayashi who protested the World War II internment of Japanese Americans in a highly publicized legal case provide their personal reflections upon recent state history Washington Comes of Age continues the Washington State University Press s Pettyjohn series of publications examining essential aspects of Pacific Northwest history
