flying various aircraft including the Catalina and Dornier Do 24 His missions ranged from supply drops and minelaying to bombing and reconnaissance This is Vic s remarkable story told in his own words for the first time **Aircraft of The Royal Australian Air Force** Air Force History Branch,2021-06-01 Aircraft of The Royal Australian Air Force tells the story of the RAAF s first one hundred years by describing the acquisition operation and service record of the multitude of aircraft types flown by the RAAF The 176 aircraft types include the flimsy wood and canvas aircraft typical of World War I through the technological advances during and after World War II to modern fifth generation complex aircraft like the F 35 Lightning II Even before its formation Sir Richard Williams the Father of the RAAF had decided to employ an alpha numeric numbering system to identify and account for each aircraft in service This system started with A1 A2 A3 etc as each type of aircraft came into service Each individual aircraft within each series was identified as A1 1 A1 2 and so on and the aircraft serial became known colloquially as the A number With some exceptions over the century since the A number system started aircraft entered RAAF service in broadly the sequence of the A numbers and so this book is intended to assist in charting the 100 year history of the RAAF by listing aircraft operated in A number sequence rather than by listing them by role such as Fighter Bomber Maritime Trainer Transport etc or alphabetically by name or by manufacturer The inclusion of a comprehensive Index and the Quick Reference Guide to aircraft by role is intended to facilitate the location of the entry for any specific type of aircraft for those who may not already know its A number Aircraft of The Royal Australian Air Force is a must have for all those who have served in the RAAF those with a passion for military aviation and aircraft in general and the broader members of the public wishing to gain an appreciation of the Royal Australian Air Force in its centenary year

The World Air Power Guide David Wragg,2011-02-23 Compiled by the author of Janes Air Forces of the World this book is a must for aviation experts In one volume the reader will find the composition and details of all air elements of a staggering 169 nations air forces and where they exist army air naval air and such paramilitary organizations as the US Coast Guard Service By definition such a book must be regularly updated and David Wragg has researched his subject right up to the minute This latest book supersedes the authors early book in the Jane series **Cold War Warriors** Ian Pearson,2021-09-01 Cold War Warriors tells the little known story of the operations by the Royal Australian Air Force s P 3 Orions during the latter years of the Cold War The aircraft s largely low profile missions usually flown far from their base were often shrouded by confidentiality Now access to declassified documents has allowed this story to be told From the lead up to their delivery in 1968 to the end of the Cold War in 1991 from the intrigues associated with the procurement of the aircraft and subsequent upgrades to perilous moments experienced by the aircraft and their crews while conducting operations and from triumphs to tragedies Cold War Warriors documents the P 3 s service in the RAAF in the context of the unfolding domestic and international events that shaped the aircraft s evolving missions As well as being a story of the RAAF Orions and their growing capabilities Cold War Warriors is also the story of the crews who flew the aircraft Using their words

Cold War Warriors faithfully describes a number of incidents both on the ground and in the air to provide a sense of the enormous breadth of service the P 3 Orion has provided to the Royal Australian Air Force to Australia and to our allies

Japan's Pacific War Peter Williams, 2021-06-30 I had no qualms fighting the Australians just as I have killed without remorse any of the Emperor's enemies the British the Americans and the Dutch so admits Takahiro Sato in this ground breaking oral history of Japan's Pacific War Thanks to years of research and over 100 interviews with veterans the Author has compiled a fascinating collection of personal accounts by former Japanese soldiers sailors and airmen Their candid views are often provocative and shocking There are admissions of brutality the killing of prisoners and cannibalism Stark descriptions of appalling conditions and bitter fighting blend with descriptions of family life Their views on the prowess of the enemy differ with some like air ace Kazuo Tsunoda who believed the Australians worthy Some remain unrepentant

while others such as Hideo Abe are ashamed of his part in Japan's war of aggression. The result is a revealing insight into the minds of a ruthless and formidable enemy which provides the reader with a fresh perspective on the Second World War.

My Flying Boat War 'Vic' Hodgkinson, 2024-07-04 Wing Commander Vic Hodgkinson DFC served throughout the Second World War as a pilot in the Royal Australian Air Force. His war began in 1939 when he traveled to the UK to become one of the founding members of 10 Squadron RAAF. With its training complete, the squadron took delivery of its first Short Sunderland flying boats. In early 1940, the squadron was loaned to the RAF by the Australian Government. Flying from Mount Batten, Plymouth, Pembroke Dock, Wales, and Oban, Scotland, Vic Hodgkinson, along with the rest of the squadron, played a vital part in the early stages of the Battle of the Atlantic as part of the RAF's Coastal Command. During that time, he was involved in numerous air-sea rescues. This included picking up twenty-one survivors of a U-boat attack and of returning the compliment with depth charge attacks on German submarines. Vic himself became a survivor when returning from a fifteen-hour patrol in fog; his Sunderland crashed into the Irish Sea near Bardsey Island off the North Wales coast while returning to Pembroke Dock. Six of his eleven crew were killed; it was a gruelling twelve hours before the survivors were finally rescued. In May 1941, Vic and his crew were dispatched to the Mediterranean but became stranded in Egypt after their Sunderland was damaged while awaiting spare parts. Vic volunteered to serve with a RAF flying boat squadron based in Alexandria. He found himself flying through heavy enemy fire to make contact with Allied troops fighting for their lives in Crete. After this, they were once again back in the Atlantic flying patrols across the Bay of Biscay. During one such sortie, Vic's crew became embroiled in a battle of the giants with a Focke Wulf Fw 200 Condor. It was an engagement that ended badly for the faster and heavily armed enemy aircraft. In 1942, Hodgkinson was sent back to Australia, going on to serve with both 20 Squadron RAAF and 40 Squadron RAAF. It was in this period that he also flew the Consolidated Catalina, Martin Mariner, and other flying boats, including Dornier Do 24s that had been impressed into RAAF service after the fall of the Dutch East Indies. His missions included dropping supplies to remote areas, minelaying, reporting on Japanese ship movements, and engaging in the bombing of enemy positions. This is Vic's remarkable story told here in his own words for the first time. **Flying Catalinas**

Andrew Hendrie, 2012-10-24 The Consolidated PBY Catalina was probably the most versatile and successful flying boat amphibian ever built, serving not just with the US Army, Navy, and Coast Guard during the Second World War but also with the air forces of Britain, Canada, Australia, and New Zealand, with the Danes, Free French, and Norwegians, as well as in Brazil, Chile, Indonesia, and elsewhere. With a remarkable lifting capacity and endurance, this long-range twin-engine aircraft could absorb a great deal of punishment and still return home after flights lasting an entire day and covering thousands of miles. It was employed as a maritime reconnaissance aircraft, as a bomber and torpedo bomber, as an anti-submarine weapon, as a mine layer, as a special operations machine, and as a search and rescue craft, by day and night. It ferried stores, mail, and people, many of them sick and injured, across the world's oceans. In this book, Andrew Hendrie tells the story of the Flying
