Goodlad,2004-12-07 Studies of Victorian governance have been profoundly influenced by Discipline and Punish Michel Foucault s groundbreaking genealogy of modern power Yet according to Lauren Goodlad Foucault s analysis is better suited to the history of the Continent than to nineteenth century Britain with its decentralized voluntarist institutional culture and passionate disdain for state interference Focusing on a wide range of Victorian writing from literary figures such as Charles Dickens George Gissing Harriet Martineau J S Mill Anthony Trollope and H G Wells to prominent social reformers such as Edwin Chadwick Thomas Chalmers Sir James Kay Shuttleworth and Beatrice Webb Goodlad shows that Foucault s later essays on liberalism and governmentality provide better critical tools for understanding the nineteenth century British state Victorian Literature and the Victorian State delves into contemporary debates over sanitary education and civil service reform the Poor Laws and the century long attempt to substitute organized charity for state services Goodlad s readings elucidate the distinctive quandary of Victorian Britain and indeed any modern society conceived in liberal terms the elusive quest for a pastoral agency that is rational all embracing and effective but also anti bureaucratic personalized and liberatory In this study impressively grounded in literary criticism social history and political theory Goodlad offers a timely post Foucauldian account of Victorian governance that speaks to the resurgent neoliberalism of our own day Black Cat Weekly #64 John M. The Idea of Decadence in French Literature, 1830-1900 A.E. Carter,1978-12-15 The cult of decadence is usually dismissed as an eccentricity of French literature a final twitter of Romantic neurosis convulsing the lunatic fringe of letters during the last third of the nineteenth century However the nineteenth century s preoccupation with decadence provides us with a key to the secret places of its thought to all the obscure passages and backstairs behind the triumphant facade Between 1814 and 1914 there was no sense of disaster no tragic sense Civilization had become a habit a side product of political constitutions and applied science History was viewed pragmatically of what use were such traditional symbols as throne and altar Both are essentially propitiatory evidence of man s uneasy knowledge that power is dangerous and destiny implacable And both seemed anachronisms in a world where it was thought human reason had solved or would solve all the old problems The theory of decadence is very largely a protest against this comfortable belief Had the decadents not written we should hardly suspect that the nineteenth century suffered from the same doubts and hesitations as all other ages before and since
