Forensic Anthropology C. Clifford Boyd, Jr., Donna C. Boyd, 2018-03-19 Provides comprehensive coverage of everything that students and practitioners need to know about working in the field of forensic anthropology Forensic anthropology has been plagued by questions of scientific validity and rigor despite its acceptance as a section in the American Academy of Forensic Sciences nearly half a century ago Critics have viewed it as a laboratory based applied subfield of biological anthropology and characterised it as emphasising methodology over theory This book shows that these views are not only antiquated but inadequate and inaccurate Forensic Anthropology Theoretical Framework and Scientific Basis introduces readers to all of the theoretical and scientific foundations of forensic anthropology beginning with how it was influenced by the early theoretical approaches of Tyler Morgan Spencer and Darwin It instructs on how modern forensic science relies on an interdisciplinary approach with research being conducted in the fields of archaeology physics geology and other disciplines This modern approach to theory in forensic anthropology is presented through the introduction and discussion of Foundational Interpretive and Methodological theories Sections cover Bias and Objectivity in Forensic Anthropology Theory and Practice The Theory and Science Behind Biological Profile and Personal Identification Scientific Foundation for Interpretations of Antemortem Perimortem and Postmortem Processes and Interdisciplinary Influences Legal Ramifications and Future Directions Illustrates important aspects of the theory building process and reflects methods for strengthening the scientific framework of forensic anthropology as a discipline Inspired by the Application of Theory to Forensic Anthropology symposium presented at the 67th annual meeting of the American Academy of Forensic Sciences Chapters written by experts in the field who were presenters at the symposium Forensic Anthropology Theoretical Framework and Scientific Basis is ideal for university courses in anthropological science forensic science criminal science and forensic archaeology Comparative Dental Morphology T. Koppe, G. Meyer, K.W. Alt, A. Brook, M.C. Dean, I. Kjaer, J.R. Lukacs, B.H. Smith, M.F. Teaford, 2009-09-23 Teeth and their surrounding structures are exceptional sources for addressing significant questions in numerous disciplines In this publication an international multidisciplinary team of researchers addresses important issues on current aspects of dental morphology research from evolutionary anatomical clinical and archaeological perspectives In combining leading edge methods of data acquisition and analyses such as molecular analyses and highly advanced non destructive imaging technologies the book demonstrates how information about various aspects of dental morphology can be used to explore the

evolution of vertebrate life histories a subject most relevant to our own species The chapters provide profound discussions on dental evolution dental morphology dental tissues dental growth and development as well as on clinical aspects of dental morphology As a special feature the publication provides new information about the role of teeth as tools in reconstructing the nature and behaviour of past populations This book will serve as an important reference for researchers of dental sciences anatomy evolutionary biology paleoanthropology paleontology archaeology prehistoric anthropology comparative anatomy genetics embryology and forensic medicine      **Practicing Anthropology in Corporate America** ,2009-04-22

**Biocultural Synthesis** Alan H. Goodman,Thomas Leland Leatherman,2010-03-23 Anthropology with its dual emphasis on biology and culture is or should be the discipline most suited to the study of the complex interactions between these aspects of our lives Unfortunately since the early decades of this century biological and cultural anthropology have grown distinct and a holistic vision of anthropology has suffered This book brings culture and biology back together in new and refreshing ways Directly addressing earlier criticisms of biological anthropology Building a New Biocultural Synthesis concerns how culture and political economy affect human biology e g people s nutritional status the spread of disease exposure to pollution and how biological consequences might then have further effects on cultural social and economic systems Contributors to the volume offer case studies on health nutrition and violence among prehistoric and historical peoples in the Americas theoretical chapters on nonracial approaches to human variation and the development of critical humanistic and political ecological approaches in biocultural anthropology and explorations of biological conditions in contemporary societies in relationship to global changes Building a New Biocultural Synthesis will sharpen and enrich the relevance of anthropology for understanding a wide variety of struggles to cope with and combat persistent human suffering It should appeal to all anthropologists and be of interest to sister disciplines such as nutrition and sociology Alan H Goodman is Professor of Anthropology Hampshire College Thomas L Leatherman is Associate Professor of Anthropology University of South Carolina

The Politics of Multiracialism Heather M. Dalmage,2004-06-23 A provocative analysis of current thought and discourse on multiracialism      **Anthropology & Education Quarterly** ,1996      *Race, Ethnicity, and Health* Thomas A. LaVeist,Lydia A. Isaac,2012-09-26 *Race Ethnicity and Health* Second Edition is a critical selection of hallmark articles that address health disparities in America It effectively documents the need for equal treatment and equal health status for minorities Intended as a resource for faculty and students in public health as well as the social sciences it will be also be valuable to public health administrators and frontline staff who serve diverse racial and ethnic populations The book brings together the best peer

reviewed research literature from the leading scholars and faculty in this growing field providing a historical and political context for the study of health race and ethnicity with key findings on disparities in access use and quality This volume also examines the role of health care providers in health disparities and discusses the issue of matching patients and doctors by race New chapters cover reflections on demographic changes in the US based on the current census metrics and nomenclature for disparities theories of genetic basis for disparities the built environment residential segregation environmental health occupational health health disparities in integrated communities Latino health Asian populations stress and health physician patient relationships hospital treatment of minorities the slavery hypertension hypothesis geographic disparities and intervention design     Handbook of Research on Technoethics Luppicini, Rocci,Adell, Rebecca,2008-08-31 This book traces the emergence of the new interdisciplinary field of technoethics by exploring its conceptual development important issues and key areas of current research Compiling 50 authoritative articles from leading researchers on the ethical dimensions of new technologies Provided by publisher     Borders of Belonging Heide Castañeda,2019-02-26 Borders of Belonging investigates a pressing but previously unexplored aspect of immigration in America the impact of immigration policies and practices not only on undocumented migrants but also on their family members some of whom possess a form of legal status Heide Casta eda reveals the trauma distress and inequalities that occur daily alongside the stratification of particular family members access to resources like education employment and health care She also paints a vivid picture of the resilience resistance creative responses and solidarity between parents and children siblings and other kin Casta eda s innovative ethnography combines fieldwork with individuals and family groups to paint a full picture of the experiences of mixed status families as they navigate the emotional social political and medical difficulties that inevitably arise when at least one family member lacks legal status Exposing the extreme conditions in the heavily regulated U S Mexico borderlands this book presents a portentous vision of how the further encroachment of immigration enforcement would affect millions of mixed status families throughout the country     Health and Healing in Comparative Perspective Elizabeth Dixon Whitaker,2006 This reader provides both fascinating comparative ethnographic detail and a theoretical framework for organizing and interpreting information about health While there are many health related fields represented in this book its core discipline is medical anthropology and its main focus is the comparative approach Cross cultural comparison gives anthropological analysis breadth while the evolutionary time scale gives it depth These two features have always been fundamental to anthropology and continue to distinguish it among the social sciences A third feature is the in depth knowledge of culture produced by anthropological methods such as participant observation involving long term presence in and research among a study population The first part of the book explores healing systems in different cultures the second and third provide a strong grounding in evolutionary and culture oriented analysis making clear the connections between biology and culture as they affect health the final part emphasizes case studies that apply the theoretical principles
