Race Politics And Economic Development Community Perspectives:

Race, Politics, and Economic Development James Jennings, 1992-12-17 In April 1992 the world witnessed a renewal in South Central Los Angeles of the urban violence that had exploded there over a quarter of a century earlier. As in the Watts rebellion of 1965, the spark that ignited the firestorm was Black rage over police brutality. But in both eras the tinder was prepared by decades of social neglect and political disenfranchisement that have left the predominantly non-white urban poor trapped and virtually without hope. *Race Politics and Economic Development* examines the underlying causes of Black urban poverty and recommends means to escape the seemingly endless cycle of retributive violence that it spawns. The book brings together Black activists and scholars including two former mayors of American cities to analyze the theoretical and practical problems facing the Black community in the United States. The essays argue that political influence, power, and wealth are major factors in determining social welfare policies; that both liberal and conservative policies are no longer effective in alleviating a growing human service crisis among Blacks; and that political mobilization of the Black community is absolutely critical in resolving the problem of poverty in urban America. Drawing on work in the social sciences, political theory, and economics, and also on the contributors' activist experiences, these essays present an agenda for the participation of grassroots Black leaders in developing and implementing urban policy.

Race and Democracy in the Americas

Georgia A. Persons, 2018-12-07 *Race and Democracy in the Americas* examines dimensions of the comparative dynamics of race and ethnicity with a directed focus on the Americas, most particularly Brazil and the United States. Brazil and the United States are two countries in the Americas that have been major hosts for the African diaspora. Both countries experienced prolonged enslavement of Africans and both now claim to be beacons of democracy for much of the developing world. Both Afro-Brazilians and African Americans have fielded major liberation movements against racism and oppression, yet both groups continue to experience considerable residual racial discrimination and displacement. Brazil and the U.S. remain racialized societies, though both officially purport to be otherwise. The chapters of this volume illuminate a common search for understanding how race operates in societies generally and how it shapes life opportunities for African Americans and Afro-Brazilians, both oppressed by this most detrimental social construction. The project that fueled this volume represented a rare opportunity for collaboration between Afro-Brazilian scholars and their African American counterparts. This volume offers a passionate conversation between colleagues who have endured common sociopolitical and cultural struggles but who have only belatedly been able to meet and connect as individuals. Both groups share identities as scholars and activists; for neither identity alone is sufficient to nourish the longings of their hearts, nor of their consciences. This volume also represents an all too rare opportunity to give voice and expression to the work of Afro-Brazilian scholars. Volume 9 of the *National Political Science Review* also carries a special tribute to Mack Henry Jones, a senior Black political scientist retiring from Atlanta University, and honors Jones's legacy and continues his quest for understanding the nature and intricacies of oppression and

possible paths to liberation *The Color of Freedom* David Carroll Cochran,1999-01-01 Offers a fresh distinctive and compelling analysis of the United States s continuing dilemma of race Economic Citizenship Amalia Sa'ar,2016-07-01
