Race And Childbirth:

"Race" and Childbirth Savita Katbamna, 2000 Race and Childbirth explores the experiences of pregnancy and childbirth from the perspectives of two groups of South Asian women in Britain. The women's personal accounts are examined within the context of the immense diversity which exists within the South Asian communities in terms of socio-economic, cultural, religious, and immigration history. The book highlights the relationship between these factors and women's childbirth experiences. It traces the progress of a group of Gujarati Hindu and Bangladeshi Muslim women from the third trimester of pregnancy to six weeks after birth. The women's moving personal accounts provide an insight into the tension between the medical and traditional approaches to care during pregnancy and childbirth and the strategies they use in negotiating diametrically opposed childbirth practices. The central role of older female relatives in the maintenance of traditional practices and their influence over pregnant women within extended families is explored in depth. Race and Childbirth provides an up-to-date account of this much neglected subject. It explores issues which are beyond the experience of many health professionals and highlights many areas where there is a need for greater sensitivity. The book is recommended reading for general practitioners, obstetricians, midwives, health visitors, and medical social workers. It is also directly relevant to researchers, trainers, and students in these fields. The Social Context of Birth Caroline Squire, 2009 Providing an understanding of the impact of social circumstance on women giving birth, their babies, and families in the 21st century, this title explains to midwives and other health professionals how social issues such as domestic violence, race, and poverty can affect the birth progress. **Health Aspects of Pregnancy and Childbirth, United States, 1982-88** Anjani Chandra, 1995 *African American Midwifery in the South* Gertrude Jacinta Fraser, 1998-11-30 In an important contribution to African American studies and anthropology, *African American Midwifery in the South* brings new voices to the discourse on the hidden world of midwives and birthing. *Childbirth, Maternity, and Medical Pluralism in French Colonial Vietnam, 1880-1945* Thuy Linh Nguyen (Historian), 2016 Explores the complex interactions between French medicine and Vietnamese childbirth traditions, documenting the emergence of a plural system of maternity services that incorporated both biomedical knowledge and local birthing traditions. 1970 Census of Population, 1975 **Health Aspects of Pregnancy and Childbirth, United States, 1982** Elsie Pamuk, National Center for Health Statistics (U.S.), 1988 **Census of Population (1970)**.
