**Race and Democracy in the Americas** Georgia Anne Persons, *Race and Democracy in the Americas* examines dimensions of the comparative dynamics of race and ethnicity with a directed focus on the Americas most particularly Brazil and the United States Brazil and the United States are two countries in the Americas that have been major hosts for the African diaspora Both countries experienced prolonged enslavement of Africans and both now claim to be beacons of democracy for much of the developing world Both Afro Brazilians and African Americans have fielded major liberation movements against racism and oppression yet both groups continue to experience considerable residual racial discrimination and displacement Brazil and the U S remain racialized societies though both officially purport to be otherwise The chapters of this volume illuminate a common search for understanding how race operates in societies generally and how shapes life opportunities for African Americans and Afro Brazilians both oppressed by this most detrimental social construction The project that fueled this volume represented a rare opportunity for collaboration between Afro Brazilian scholars and their African American counterparts This volume offers a passionate conversation between colleagues who have endured common sociopolitical and cultural struggles but who have only belatedly been able to meet and connect as individuals Both groups share identities as scholars and activists for neither identity alone is sufficient to nourish the longings of their hearts nor of their consciences This volume also represents an all too rare opportunity to give voice and expression to the work of Afro Brazilian scholars Volume 9 of the National Political Science Review also carries a special tribute to Mack Henry Jones a senior black political scientist retiring from Atlanta University and honors Jones s legacy and continues his quest for understanding the nature and intricacies of oppression and possible paths to liberation This essential work will be of particular interest to ethnic studies specialists African American studies scholars political scientists historians and sociologists Georgia A Persons is professor of political science in the School of Public Policy at Georgia Institute of Technology where she also directs the Center for the Study of Social Change

**Race and Democracy in the Americas** Georgia A. Persons, 2017 *Race and Democracy in the Americas* examines dimensions of the comparative dynamics of race and ethnicity with a directed focus on the Americas most particularly Brazil and the United States Brazil and the United States are two countries in the Americas that have been major hosts for the African diaspora Both countries experienced prolonged enslavement of Africans and both now claim to be beacons of democracy for much of the developing world Both Afro Brazilians and African Americans have fielded major liberation movements against racism and oppression yet both groups continue to experience considerable residual racial discrimination and displacement Brazil and the U S remain racialized societies though both officially purport to be otherwise The chapters of this volume illuminate a common search for understanding how race operates in societies generally and how shapes life opportunities for African Americans and Afro Brazilians both oppressed by this most detrimental social construction The project that fueled this volume represented a rare

opportunity for collaboration between Afro Brazilian scholars and their African American counterparts This volume offers a passionate conversation between colleagues who have endured common sociopolitical and cultural struggles but who have only belatedly been able to meet and connect as individuals Both groups share identities as scholars and activists for neither identity alone is sufficient to nourish the longings of their hearts nor of their consciences This volume also represents an all too rare opportunity to give voice and expression to the work of Afro Brazilian scholars Volume 9 of the National Political Science Review also carries a special tribute to Mack Henry Jones a senior black political scientist retiring from Atlanta University and honors Jones s legacy and continues his quest for understanding the nature and intricacies of oppression and possible paths to liberatio Provided by publisher Democracy in Black Eddie S. Glaude Jr.,2016-01-12 A powerful polemic on the state of black America that savages the idea of a post racial society America s great promise of equality has always rung hollow in the ears of African Americans But today the situation has grown even more dire From the murders of black youth by the police to the dismantling of the Voting Rights Act to the disaster visited upon poor and middle class black families by the Great Recession it is clear that black America faces an emergency at the very moment the election of the first black president has prompted many to believe we ve solved America s race problem Democracy in Black is Eddie S Glaude Jr s impassioned response Part manifesto part history part memoir it argues that we live in a country founded on a value gap with white lives valued more than others that still distorts our politics today Whether discussing why all Americans have racial habits that reinforce inequality why black politics based on the civil rights era have reached a dead end or why only remaking democracy from the ground up can bring real change Glaude crystallizes the untenable position of black America and offers thoughts on a better way forward Forceful in ideas and unsettling in its candor Democracy In Black is a landmark book on race in America one that promises to spark wide discussion as we move toward the end of our first black presidency

**Races and Immigrants in America** John Rogers Commons,1907 Cannibal Democracy Zita Nunes,2008 Zita Nunes argues that the prevailing narratives of identity formation throughout the Americas share a dependence on metaphors of incorporation and often of cannibalism From the position of the incorporating body the construction of a national and racial identity through a process of assimilation presupposes a remainder a residue Nunes addresses works by writers and artists who explore what is left behind in the formation of national identities and speak to the limits of the contemporary discourse of democracy Cannibal Democracy tracks its central metaphor s circulation through the work of writers such as Mrio de Andrade W E B Du Bois and Toni Morrison and journalists of the black press as well as work by visual artists including Magdalena Campos Pons and Keith Piper and reveals how exclusion understood in terms of what is left out can be fruitfully understood in terms of what is left over from a process of unification or incorporation Nunes shows that while this remainder can be deferred into the future lurking as a threat to the desired stability of the present the residue haunts discourses of national unity undermining the ideologies of democracy that claim to resolve issues of race Zita Nunes is associate professor

Theorizing Race in the Americas Juliet Hooker,2017-04-03 In 1845 two thinkers from the American hemisphere the Argentinean statesman Domingo Faustino Sarmiento and the fugitive ex slave abolitionist leader and orator from the United States Frederick Douglass both published their first works Each would become the most famous and enduring texts in what were both prolific careers and they ensured Sarmiento and Douglass position as leading figures in the canon of Latin American and U S African American political thought respectively But despite the fact that both deal directly with key political and philosophical questions in the Americas Douglass and Sarmiento like African American and Latin American thought more generally are never read alongside each other This may be because their ideas about race differed dramatically Sarmiento advocated the Europeanization of Latin America and espoused a virulent form of anti indigenous racism while Douglass opposed slavery and defended the full humanity of black persons Still as Juliet Hooker contends looking at the two together allows one to chart a hemispheric intellectual geography of race that challenges political theory s preoccupation with and assumptions about East West comparisons and questions the use of comparison as a tool in the production of theory and philosophy By juxtaposing four prominent nineteenth and twentieth century thinkers Frederick Douglass Domingo F Sarmiento W E B Du Bois and Jos Vasconcelos her book will be the first to bring African American and Latin American political thought into conversation Hooker stresses that Latin American and U S ideas about race were not developed in isolation but grew out of transnational intellectual exchanges across the Americas In so doing she shows that nineteenth and twentieth century U S and Latin American thinkers each looked to political models in the other America to advance racial projects in their own countries Reading these four intellectuals as hemispheric thinkers Hooker foregrounds elements of their work that have been dismissed by dominant readings and provides a crucial platform to bridge the canons of Latin American and African American political thought      **Race and Racism in Latin America and the Caribbean** Rebecca Lemos Igreja,Richard Santos,Carlos Agudelo,2022-12-05 Race and Racism in Latin America and the Caribbean A Crossview from Brazil discusses the racial issue in Latin America by inserting Brazil s perspective within the regional debate at once

contrasting with more common nationally focused perspectives and highlighting the exchange between the luso and hispano worlds Through this dialogical scheme the volume aims to offer a panorama of the historical and contemporary debates on the racial issue across the region It emphasizes in particular slavery s inheritance the persistent subordination of the black population along with its mobilization and exchanges the centrality of the anti racist struggle and its main actors and intellectuals the impact of multicultural and racial equality policies and the development of categorizations Race and Racism in Latin America and the Caribbean A Crossview from Brazil brings about the need to enlarge knowledge on the black population in the region identifying national particularities distinct historical contexts and forms of categorization and relations with other ethnic groups The volume also illustrates a current state of affairs underscoring new debates and challenges which arise in a context of sanitary crisis and black genocide

**Race and Nation in Modern Latin America** Nancy P. Appelbaum, Anne S. Macpherson, Karin Alejandra Rosemblatt, 2003 Based on cutting edge research these 12 essays examine connections between race and national identity in Latin America and the Caribbean in the post independence era They reveal how notions of race and nationhood have varied over time and across the region s political landscapes

*Race and Ethnicity in Latin America* Jorge I Dominguez, 2018-12-07 First Published in 1994 In nearly all racially and ethnically heterogeneous societies there is overt national conflict among parties and social movements organized on the basis of race and ethnicity Such conflict has been much less evident in Latin America Scholars have pondered the nature of race and ethnicity with regard to both Afro American and Indo American societies though research on Brazil has been particularly prominent Special attention has been given to the relationship between social class and race and ethnicity

Race in Another America Edward E. Telles, 2014-04-24 This is the most comprehensive and up to date book on the increasingly important and controversial subject of race relations in Brazil North American scholars of race relations frequently turn to Brazil for comparisons since its history has many key similarities to that of the United States Brazilians have commonly compared themselves with North Americans and have traditionally argued that race relations in Brazil are far more harmonious because the country encourages race mixture rather than formal or informal segregation More recently however scholars have challenged this national myth seeking to show that race relations are characterized by exclusion not inclusion and that fair skinned Brazilians continue to be privileged and hold a disproportionate share of wealth and power In this sociological and demographic study Edward Telles seeks to understand the reality of race in Brazil and how well it squares with these traditional and revisionist views of race relations He shows that both schools have it partly right that there is far more miscegenation in Brazil than in the United States but that exclusion remains a serious problem He blends his demographic analysis with ethnographic fieldwork history and political theory to try to understand the enigma of Brazilian race relations how inclusiveness can coexist with exclusiveness The book also seeks to understand some of the political pathologies of buying too readily into unexamined ideas about race relations In the end Telles contends the traditional myth

that Brazil had harmonious race relations compared with the United States encouraged the government to do almost nothing to address its shortcomings
