how conservative legal social political and economic policies have impacted activism in the U S based movement to end violence against women Richie argues that Black women face particular peril because of the ways that race and culture have not figured centrally enough in the analysis of the causes and consequences of gender violence As a result the extent of physical sexual and other forms of violence in the lives of Black women the various forms it takes and the contexts within which it occurs are minimized at best and frequently ignored Arrested Justice brings issues of sexuality class age and criminalization into focus right alongside of questions of public policy and gender violence resulting in a compelling critique a passionate re framing of stories and a call to action for change

Part Four examines critical psychology practice from theory, methodology, and therapy to community organizing and the politics of resistance.

Behavioral Science & Policy: Volume 1, Issue 2 Craig Fox, Sim B. Sitkin, 2016-04-26

The success of nearly all public and private sector policies hinges on the behavior of individuals, groups, and organizations. Today, such behaviors are better understood than ever thanks to a growing body of practical behavioral science research. However, policymakers often are unaware of behavioral science findings that may help them craft and execute more effective and efficient policies. The pages of this new journal will become a meeting ground, a place where scientists and non-scientists can encounter clearly described behavioral research that can be put into action. By design, the scope of BSP is broad, with topics spanning health care, financial decisionmaking, energy, and the environment, education, and culture, justice, and ethics, and workplace practices. Contributions will be made by researchers with expertise in psychology, sociology, law, behavioral economics, organization science, decision science, and marketing. The journal is a key offering of the Behavioral Science Policy Association in partnership with the Brookings Institution. The mission of BSPA is to foster dialog between social scientists, policymakers, and other practitioners in order to promote the application of rigorous empirical behavioral science in ways that serve the public interest. BSPA does not advance a particular agenda or political perspective. The first issue's contents follow:
