The Body in the Reservoir Michael Ayers Trotti, 2010-02-15 Centered on a series of dramatic murders in nineteenth and early twentieth century Richmond Virginia *The Body in the Reservoir* uses these gripping stories of crime to explore the evolution of sensationalism in southern culture In Richmond as across the nation the embrace of modernity was accompanied by the prodigious growth of mass culture and its accelerating interest in lurid stories of crime and bloodshed But while others have emphasized the importance of the penny press and yellow journalism on the shifting nature of the media and cultural responses to violence Michael Trotti reveals a more gradual and nuanced story of change In addition Richmond's racial makeup one third to one half of the population was African American allows Trotti to challenge assumptions about how black and white media reported the sensational the surprising discrepancies offer insight into just how differently these two communities experienced American justice An engaging look at the connections between culture and violence this book gets to the heart or perhaps the shadowy underbelly of the sensational as the South became modern

Athens of the New South Mary Ellen Pethel, 2024-01-12 A diverse and vibrant collection of colleges and universities has always set Nashville apart from other southern cities I'm excited to see Mary Ellen Pethel exploring the history of a force for good that continues to inspire and shape our city Meagan Barry Mayor of Nashville In 2013 the New York Times identified Nashville as America's it city a leading hub of music culture technology food and business But long before the Tennessee capital was known as the Athens of the South as a reflection of the city's reputation for and investment in its institutions of higher education which especially blossomed after the end of the Civil War and through the New South Era from 1865 to 1930 This wide ranging book chronicles the founding and growth of Nashville's institutions of higher education and their impressive impact on the city region and nation at large Local colleges and universities also heavily influenced Nashville's brand of modernity as evidenced by the construction of a Parthenon replica the centerpiece of the 1897 Centennial Exposition By the turn of the twentieth century Vanderbilt University had become one of the country's premier private schools while nearby Peabody College was a leading teacher training institution Nashville also became known as a center for the education of African Americans Fisk University joined the ranks of the nation's most prestigious black liberal arts universities while Meharry Medical College emerged as one of the country's few training centers for African American medical professionals Following the agricultural industrial model Tennessee A David Lipscomb College the instructional arm of the Church of Christ and Roger Williams University which trained black men and women as teachers and preachers made

important contributions to the higher educational landscape In sum Nashville was distinguished not only by the quantity of its schools but by their quality Linking these institutions to the progressive and educational reforms of the era Mary Ellen Pethel also explores their impact in shaping Nashville s expansion on changing gender roles and on leisure activity in the city which included the rise and popularity of collegiate sports In her conclusion she shows that Nashville s present day reputation as a dynamic place to live learn and work is due in no small part to the role that higher education continues to play in the city s growth and development MARY ELLEN PETHEL is the archivist and a member of the Social Science Department at Harpeth Hall School in Nashville At Belmont University also in Nashville Dr Pethel is a Global Leadership Studies Fellow and teaches in the Honors Department *Gin, Jesus, and Jim Crow* Brendan J. J. Payne, 2022-04-20 In *Gin Jesus and Jim Crow* Brendan J J Payne reveals how prohibition helped realign the racial and religious order in the South by linking restrictions on alcohol with political preaching and the disfranchisement of Black voters While both sides invoked Christianity prohibitionists redefined churches doctrines practices and political engagement White prohibitionists initially courted Black voters in the 1880s but soon dismissed them as hopelessly wet and sought to disfranchise them stoking fears of drunken Black men defiling white women in their efforts to reframe alcohol restriction as a means of racial control Later as the alcohol industry grew desperate it turned to Black voters many of whom joined the brewers to preserve their voting rights and maintain personal liberties Tracking southern debates about alcohol from the 1880s through the 1930s Payne shows that prohibition only retreated from the region once the racial and religious order it helped enshrine had been secured

A Contested Terrain AnneMarie Brosnan, 2025-03-04 A testament to the resilience and determination of Black North Carolinians to achieve educational equality This book examines the educational experiences of Black North Carolinians during the American Civil War and Reconstruction period 1861 1877 By highlighting the collaborative efforts that led to the growing network of schools for the formerly enslaved people it argues that schooling the Freedpeople was a contested terrain fraught with conflicting visions of Black freedom and the role education should play Although Black men and women emerged as the driving force behind the educational endeavors of this period their work was facilitated by Northern aid and missionary societies the federally mandated Freedmen s Bureau and over 1 400 teachers from various regional and racial backgrounds Yet the educational landscape was far from uniform and the individuals and organizations involved had their distinct visions regarding the nature and purpose of Freedpeople s education Through the use of qualitative and quantitative research methods this book offers new insights into the reasons why Black and white Northerners and Southerners elected to become teachers By examining their diverse motivations and experiences it argues that attitudes toward Freedpeople s education were complex and fluid defying neat characterization Despite mounting obstacles and opposition to their work Black North Carolinians unrelenting quest for education ultimately gave rise to free public schooling for both races the professionalization of Black teachers and an extensive network of Historically Black Colleges and Universities **Murder**

on Trial Robert Asher, Lawrence B. Goodheart, Alan Rogers, 2012-02-01 This fascinating collection examines murder jurisprudence the social rules that govern the arrest trial and punishment of people accused of murder in the United States from the colonial period to the present The contributors show how changing social mores have influenced the application of murder law by highlighting the ways cultural biases like racism changing ideas about childhood and insanity and the ameliorative effects of middle class status and paternal imagery both helped and handicapped persons accused of murder Such famous cases as the Lizzie Borden axe murder and African American activist Abu Jamal s murder trial are included

A Most Stirring and Significant Episode H. Paul Thompson, Jr., 2012-10-15 When Atlanta enacted prohibition in 1885 it was the largest city in the United States to do so A Most Stirring and Significant Episode examines the rise of temperance sentiment among freed African Americans that made this vote possible as well as the forces that resulted in its 1887 reversal well before the 18th Amendment to the Constitution created a national prohibition in 1919 H Paul Thompson Jr s research also sheds light on the profoundly religious nature of African American involvement in the temperance movement Contrary to the prevalent depiction of that movement as being one predominantly led by white female activists like Carrie Nation Thompson reveals here that African Americans were central to the rise of prohibition in the south during the 1880s As such A Most Stirring and Significant Episode offers a new take on the proliferation of prohibition and will not only speak to scholars of prohibition in the US and beyond but also to historians of religion and the African American experience Freedpeople in the Tobacco South Jeffrey R. Kerr-Ritchie, 2003-07-11 Throughout the colonial and antebellum periods Virginia s tobacco producers exploited slave labor to ensure the profitability of their agricultural enterprises In the wake of the Civil War however the abolition of slavery combined with changed market conditions sparked a breakdown of traditional tobacco culture Focusing on the transformation of social relations between former slaves and former masters Jeffrey Kerr Ritchie traces the trajectory of this breakdown from the advent of emancipation to the stirrings of African American migration at the turn of the twentieth century Drawing upon a rich array of sources Kerr Ritchie situates the struggles of newly freed people within the shifting parameters of an older slave world examines the prolonged agricultural depression and structural transformation the tobacco economy underwent between the 1870s and 1890s and surveys the effects of these various changes on former masters as well as former slaves While the number of older freedpeople who owned small parcels of land increased phenomenally during this period he notes so too did the number of freedom s younger generation who deserted the region s farms and plantations for Virginia s towns and cities Both these processes contributed to the gradual transformation of the tobacco region in particular and the state in general *Confronting Modernity* Richard B. Megraw, 2008 An analysis of how modernity and modernism complicated local visions of art and society **Homelands** Leonard Rogoff, 2007-09 Homelands blends oral history documentary studies and quantitative research to present a colorful local history with much to say about multicultural identity in the South Homelands is a case study of a unique ethnic group in North America small town

southern Jews Both Jews and southerners Leonard Rogoff points out have long struggled with questions of identity and whether to retain their differences or try to assimilate into the national culture Rogoff shows how as immigrant Jews became small town southerners they constantly renegotiated their identities and reinvented their histories The Durham Chapel Hill Jewish community was formed during the 1880s and 1890s when the South was recovering from the Reconstruction era and Jews were experiencing ever growing immigration as well as challenging the religious traditionalism of the previous 4 000 years Durham and Chapel Hill Jews recent arrivals from the traditional societies of eastern Europe assimilated and secularized as they lessened their differences with other Americans Some Jews assimilated through intermarriage and conversion but the trajectory of the community as a whole was toward retaining their religious and ethnic differences while attempting to integrate with their neighbors The Durham Chapel Hill area is uniquely suited to the study of the southern Jewish experience Rogoff maintains because the region is exemplary of two major trends the national population movement southward and the rise of Jews into the professions The Jewish peddler and storekeeper of the 1880s and the doctor and professor of the 1990s Rogoff says are representative figures of both Jewish upward mobility and southern progress
