**Politics, and the Decline of Deference in England, 1968-2000** Florence Sutcliffe-Braithwaite,2018-02-23 In late twentieth century England inequality was rocketing yet some have suggested that the politics of class was declining in significance while others argue that class identities lost little power Neither interpretation is satisfactory class remained important to ordinary people s narratives about social change and their own identities throughout the period 1968 2000 but in changing ways Using self narratives drawn from a wide range of sources the raw materials of sociological studies transcripts from oral history projects Mass Observation and autobiography the book examines class identities and narratives of social change between 1968 and 2000 showing that by the end of the period class was often seen as an historical identity

related to background and heritage and that many felt strict class boundaries had blurred quite profoundly since 1945 Class snobberies went underground as many people from all backgrounds began to assert that what was important was authenticity individuality and ordinariness In fact Sutcliffe Braithwaite argues that it is more useful to understand the cultural changes of these years through the lens of the decline of deference which transformed people's attitudes towards class and towards politics The study also examines the claim that Thatcher and New Labour wrote class out of politics arguing that this simple and highly political narrative misses important points Thatcher was driven by political ideology and necessity to try to dismiss the importance of class while the New Labour project was good at listening to voters particularly swing voters in marginal seats and echoing back what they were increasingly saying about the blurring of class lines and the importance of ordinariness But this did not add up to an abandonment of a majoritarian project as New Labour reoriented their political project to emphasize using the state to empower the individual

*Britain* Inigo Bing, 2022-07-12 LIFE SEX RACE POWER FREE SPEECH PROTEST PRIVACY DEMOCRACY SOVEREIGNTY DEATH Society shapes law and law shapes society We like to imagine that progress comes about when Parliament spots a looming groundswell in public opinion and responds by changing the laws that govern our daily lives This is not always true In this fascinating book Inigo Bing unravels ten legal cases in which the decisions of judges or a jury either heralded a shift in outlook or forced Parliament to respond to simmering social change Some of these cases demonstrate the role judges have in defending our civil liberties against overweening executive power articulating inherent unwritten rights Parliament would prefer to keep quiet about Others explore what happens when rapid technological or social change outpaces government placing urgent ethical dilemmas in the lap of the court All of them have had a lasting impact on the society we inhabit Taken together these stories provide a powerful insight into eighty years of British social political and cultural history illustrating why legal cases are just as important to making our world as laws written by Parliament or grassroots changes within society
