*James Cowles Prichard's Anthropology* H.F. Augstein, 2016-08-29 The Bristol doctor James Cowles Prichard 1786 1848 has enjoyed a glowing reputation Late Victorians regarded him as the founder of British anthropology and in the twentieth century he has been considered as a precursor of Darwin Nowadays his name is cited mainly in context of inquiries into the rise of racial theories Prichard's own theoretical goal was simple the son of Quaker parents he attempted to establish that the Bible provided a correct account of the earliest history of humankind above all it was his aim to prove once and for all the doctrine of monogenesis the unitary origins of mankind He single handedly charted the waters of the pre Victorian human sciences Philology anthropology mythology Biblical criticism the philosophy of the human mind comparative anatomy physiology and practical medicine Prichard mastered subjects so diverse that his learning may be called truly universal His views have often been misrepresented however and his opposition to racial thinking in particular has been underestimated This book the first study dedicated exclusively to Prichard explores his notions of man's place in nature and puts them in the context of contemporary European learning

*Race* Hannah Franziska Augstein, 1996 The nineteenth century saw the rejection of earlier classifications of racial diversity as grounded in environment education and divine origins for that of scientific racism Used to account for political problems within Europe it justified imperialism and the imposition of rule over so called primitive peoples And yet such racial theory which is nowadays seen as a characteristic development of the nineteenth century had its foundations in the age of Enlightenment This volume reproduces documents written between 1760 and 1850 surveying developments in Germany France and England which reveal the rise of racial theory in all its complex diversity from Buffon and Blumenbach onwards

**Sowing Empire** Jill H. Casid, 2005-01-01 In an ambitious work of wide ranging literary visual and historical allusion Jill H. Casid examines how landscaping functioned in an imperial mode that defined and remade the heartlands of nations as well as the contact zones and colonial peripheries in the West and East Indies Revealing the colonial landscape as far more than an agricultural system as a means of regulating national sexual and gender identities Casid also traces how the circulation of plants and hybridity influenced agriculture and landscaping on European soil and how colonial contacts materially shaped what we take as European

**Slavery, Empathy, and Pornography** Marcus Wood, 2002-11-21 Slavery Empathy and Pornography considers the operations of slavery and of abolition propaganda on the thought and literature of English from the late eighteenth to the mid nineteenth centuries Incorporating materials ranging from canonical literatures to the lowest form of street publication Marcus Wood writes from the conviction that slavery was and still is a dilemma for everyone in England and seeks to explain why English society has

constructed Atlantic slavery in the way it has. He takes on the works of canonic eighteenth and nineteenth century white authors which claimed when written to account for slavery and asks with some scepticism what kind of truth they hold. Taking an interdisciplinary approach chapters focus on the writings of the major Romantic poets English Radicals William Cobbett and John Thelwall the Surinam writings of John Stedman the full range of slavery texts generated by Harriet Martineau John Newton and the social prophets Carlyle and Ruskin. Slavery Empathy and Pornography also contains a radical new critique of the operations of slavery within the work of Austen and Charlotte Bront.

**Discourses of Slavery and Abolition** B. Carey, M. Ellis, S. Salih, 2004-05-25 Discourses of Slavery and Abolition brings together for the first time the most important strands of current thinking on the relationship between slavery and categories of writing oratory and visual culture in the long Eighteenth century. The book begins by examining writing about slavery and race by both philosophers and by authors such as Aphra Behn. It considers self representation in the works of Ignatius Sancho Olaudah Equiano James Williams and Mary Prince. The final section reads literary and cultural texts associated with the abolition movements of the Eighteenth and Nineteenth centuries moving beyond traditional accounts of the documents of that movement to show the importance of religious writing children's literature and the relationship between art and abolition.

**The Gestation of German Biology** John H. Zammito, 2018 This book explores how and when biology emerged as a science in Germany. Beginning with the debate about organism between Georg Ernst Stahl and Gottfried Leibniz at the start of the eighteenth century John Zammito traces the development of a new research program culminating in 1800 in the formulation of developmental morphology. He shows how over the course of the century naturalists undertook to transform some domains of natural history into a distinct branch of natural philosophy which attempted not only to describe but to explain the natural world and became ultimately the science of biology.

**Racism** George M. Fredrickson, 2015-09-15 Are antisemitism and white supremacy manifestations of a general phenomenon? Why didn't racism appear in Europe before the fourteenth century and why did it flourish as never before in the eighteenth and nineteenth centuries? Why did the twentieth century see institutionalized racism in its most extreme forms? Why are egalitarian societies particularly susceptible to virulent racism? What do apartheid South Africa Nazi Germany and the American South under Jim Crow have in common? How did the Holocaust advance civil rights in the United States? With a rare blend of learning economy and cutting insight George Fredrickson surveys the history of Western racism from its emergence in the late Middle Ages to the present. Beginning with the medieval antisemitism that put Jews beyond the pale of humanity he traces the spread of racist thinking in the wake of European expansionism and the beginnings of the African slave trade. And he examines how the Enlightenment and nineteenth century romantic nationalism created a new intellectual context for debates over slavery and Jewish emancipation. Fredrickson then makes the first sustained comparison between the color coded racism of nineteenth century America and the antisemitic racism that appeared in Germany around the same time. He finds similarity enough to justify the common label but also major differences in the nature and functions of

the stereotypes invoked The book concludes with a provocative account of the rise and decline of the twentieth century's overtly racist regimes the Jim Crow South Nazi Germany and apartheid South Africa in the context of world historical developments This illuminating work is the first to treat racism across such a sweep of history and geography It is distinguished not only by its original comparison of modern racism's two most significant varieties white supremacy and antisemitism but also by its eminent readability

Manifesting the Primal Imagination Joshua D.

Settles, 2024-09-26 Manifesting the Primal Imagination explores a little known but important aspect of Black American Christianity the primal spirituality of the Black Pentecostal and spiritual church Set against the backdrop of a Christianity believed by many to be synonymous with White Western culture Manifesting the Primal Imagination demonstrates how this image of Christianity came to be and how it is false through a historical and scriptural examination of Christianity itself At a time in which the nature of Christian faith is hotly contested with many rejecting Christianity on the basis of its historical

association with White supremacist claims Settles advocates for a rereading of the history of Black American faith in a way that recognizes the importance of the primal imagination to Christianity itself      Slavery and the Politics of Place Elizabeth A. Bohls, 2014-10-23 This book analyzes representations of the places of British slavery Africa the Caribbean and Britain in writings by planters slaves and travellers      Rereading the Black Legend Margaret R. Greer, Walter D. Mignolo, Maureen Quilligan, 2008-09-15 The phrase The Black Legend was coined in 1912 by a Spanish journalist in protest of the characterization of Spain by other Europeans as a backward country defined by ignorance superstition and religious fanaticism whose history could never recover from the black mark of its violent conquest of the Americas Challenging this stereotype Rereading the Black Legend contextualizes Spain's uniquely tarnished reputation by exposing the colonial efforts of other nations whose interests were served by propagating the Black Legend A distinguished group of contributors here examine early modern imperialisms including the Ottomans in Eastern Europe the Portuguese in East India and the cases of Mughal India and China to historicize the charge of unique Spanish brutality in encounters with indigenous peoples during the Age of Exploration The geographic reach and linguistic breadth of this ambitious collection will make it a valuable resource for any discussion of race national identity and religious belief in the European Renaissance      *Romantic Indians* Tim Fulford, 2006-01-26 *Romantic Indians* considers the views that Britons colonists and North American Indians took of each other during a period in which these people were in a closer and more fateful relationship than ever before or since It is therefore also a book about exploration empire and the forms of representation that exploration and empire gave rise to in particular the form we have come to call Romanticism in which Indians appear everywhere It is not too much to say that Romanticism would not have taken the form it did without the complex and ambiguous image of Indians that so intrigued both the writers and their readers Most of the poets of the Romantic canon wrote about them not least Southey Wordsworth and Coleridge so did many whom we have only recently brought back to attention including Bowles Hemans and Barbauld Yet Indians formative role in the aesthetics and politics of Romanticism has rarely been considered Tim Fulford aims to bring that formative role to our attention to show that the images of native peoples that Romantic writers received from colonial administrators politicians explorers and soldiers helped shape not only these writers idealizations of savages and tribal life but also their depictions of nature religion and rural society The romanticization of Indians soon affected the way that real native peoples were treated and described by generations of travellers who had already before reaching the Canadian forest or the mid western plains encountered the literary Indians produced back in Britain Moreover in some cases Native Americans writing in English turned the romanticization of Indians to their own ends This book highlights their achievement in doing so featuring fascinating discussions of several little known but brilliant Native American writers      *The Chinese in Britain, 1800-Present* G. Benton, E. Gomez, 2007-12-18 This study points up the complex interplay of ethnic and national identities in the lives of Chinese in Britain arguing that transnational studies reinforce essentialist conceptions of identity and

cultural authenticity in diasporic communities and thus frustrate the promotion of ethnic co existence and social cohesion in multi ethnic societies

*Plessy v. Ferguson* Thomas J. Davis, 2012-07-19 More than the story of one man's case this book tells the story of entire generations of people marked as mixed race in America amid slavery and its aftermath and being officially denied their multicultural identity and personal rights as a result Contrary to popular misconceptions *Plessy v. Ferguson* was not a simple case of black vs white separation but rather a challenging and complex protest for U S law to fully accept mixed ancestry and multiculturalism This book focuses on the long struggle for individual identity and multicultural recognition amid the dehumanizing and depersonalizing forces of African American slavery and the Anglo American white supremacy that drove it The book takes students and general readers through the extended gestation period that gave birth to one of the most oft mentioned but widely misunderstood landmark law cases in U S history It provides a chronology brief biographies of key figures primary documents an annotated bibliography and an index all of which provide easy reading and quick reference Modern readers will find the direct connections between *Plessy's* story and contemporary racial currents in America intriguing

**Sight Unseen** Martin A. Berger, 2005-11-03 A compelling and challenging work Frances K Pohl author of *Framing America* Berger is unafraid to tackle the major issues and this book shows it Bruce Robertson author of *Marsden Hartley* and *Reckoning with Winslow Homer* Berger writing on topics as diverse as landscape photography and early film pushes into fascinating issues of gender race and class with sensitivity insight and largely jargon free analysis Having made a mark as a key Eakins scholar he promises to achieve a similar feat in *Sight Unseen* getting us to rethink traditional material in a new light John Wilmerding Christopher Binyon Sarofim Professor of American Art Princeton University

*Dread and Pentecostal* Robert Beckford, 2011-07-01 In this authoritative and passionately argued book Robert Beckford explores the future of Black British Pentecostalism in a society where the notion of White supremacy even in faith is all too evident Drawing on Black womanist and post colonial theologies of liberation he urges the Black Church to regain its traditional prophetic role as part of its ministry He suggests that the Caribbean's first liberation theology Rastafari has much to offer all Christians concerned with speaking prophetically into social and political life in Britain Reflecting on aspects of Rastafari Black Pentecostalism and the meaning of Jesus in the world today he develops a new model for a Black political faith a Dread Pentecostal theology

*The Anatomy of Blackness* Andrew S. Curran, 2011-09-19 2012 Outstanding Academic Title Choice Magazine This volume examines the Enlightenment era textualization of the Black African in European thought Andrew S Curran rewrites the history of blackness by replicating the practices of eighteenth century readers Surveying French and European travelogues natural histories works of anatomy pro and anti slavery tracts philosophical treatises and literary texts Curran shows how naturalists and philosophes drew from travel literature to discuss the perceived problem of human blackness within the nascent human sciences describes how a number of now forgotten anatomists revolutionized the era's understanding of black Africans and charts the shift of the slavery debate from the moral mercantile and theological

realms toward that of the black body itself In tracing this evolution he shows how blackness changed from a mere descriptor in earlier periods into a thing to be measured dissected handled and often brutalized Penetrating and comprehensive The Anatomy of Blackness shows that far from being a monolithic idea eighteenth century Africanist discourse emerged out of a vigorous varied dialogue that involved missionaries slavers colonists naturalists anatomists philosophers and Africans themselves
