*Champion of the Earth Rachel Carson* Mary Dodson Wade, 2009-07-01 Author Mary Dodson Wade explores Rachel Carson's  
life in this biography for beginning readers. Readers learn how Carson wrote about the environment after her experiences  
working as a marine biologist. Her books still influence environmentalists today **Rachel Carson** Anita Croy, 2020-07-31  
The twentieth century was the only century in history when a single species, humans, had acquired significant power to  
change the nature of the whole world. This fascinating biography details the life and achievements of Rachel Carson, a  
scientist who made significant contributions to the field of biology. Carson's famous book called *Silent Spring* changed the  
world's understanding of the impact of human activities on the environment, helping to launch the modern environmental  
movement **Always, Rachel** Rachel Carson, 1995 Rachel Carson, whose brave and lyrical *Silent Spring* set in motion the  
modern environmental movement, was an extremely private public figure. Her friendship with Dorothy Freeman was begun in  
1953 when Carson was forty-six, after Freeman wrote to the already famous author. Their friendship formed around mutual  
love of the Maine seashore and on an almost immediate emotional recognition quickly gained in intensity. The friendship with  
Freeman became Carson's most important emotional haven and her richest source of creative support during the last twelve  
years of her life. *Always, Rachel* is first of all a record of a moving, complex, and sustained friendship between two women. It is  
the first revealing autobiographical writing we have from Carson. The letters span the writing of *The Edge of the Sea* and of  
*Silent Spring*. They illuminate the creative turmoil Carson underwent as she wrote her moments of despair and then of calm  
assurance that she had done what she imagined doing and her sense of destiny as a writer. *Always, Rachel* reveals for the first  
time the nearly crushing family and physical burdens under which Carson wrote *Silent Spring*, that she was dying of cancer  
as she was writing the book that was to change our view and use of environmental toxins. BOOK JACKET Title Summary field
