Jesus the Radical Raymond Angelo Belliotti, 2013-10-22 Jesus the Radical The Parables and Modern Morality connects the lessons of six parables of the New Testament with philosophical issues structured around contemporary morality and the art of leading a good human life In this manner Raymond Angelo Belliotti highlights just how radical was the historical Jesus moral message and how enormous a challenge he raised to the conventional wisdom of his time More important this book demonstrates how deeply opposed is Jesus moral message to the dominant moral understandings of our time Although our conventional morality is generally profoundly influenced by Judeo Christianity several of Jesus revolutionary insights have been marginalized By imagining how our world would appear if those insights were highlighted we can perceive more clearly the people we are and the people we might become Belliotti s analysis of the parables will be of keen interest to professional philosophers theologians and educated lay people interested in the connections between religion and philosophy

Wages of Cross-Bearing and Debt of Sin Nathan Eubank,2013-03-01 In comparison to Mark and Luke the First Gospel contains a striking preponderance of economic language in passages dealing with sin righteousness and divine recompense For instance sin is described as a debt and righteous deeds are said to earn wages with God or treasure in heaven This study analyzes Matthew s economic language

against the backdrop of other early Jewish and Christian literature and examines its import for the narrative as a whole Careful attention to this neglected aspect of Matthew's theology demonstrates that some of the Gospel's central claims about atonement Jesus death and resurrection and divine recompense emerge from this conceptual matrix By tracing the narrative development of the economic motif the author explains how Jesus saves his people from their sins and comes to be enthroned as Son of Man sheds new light on numerous exegetical puzzles and clarifies the relationship of ethical rigorism and divine generosity 'A drug in the market': being some of the songs of Zion that are not wanted Jacobus (pseud.),1884

Infected Christianity Alan T. Davies,1988-06-01 Focusing on five modern Christs Alan Davies examines how the Christian church has succumbed to the infection of racist ideas Using an analysis of the writings of representative philosophic and religious figures Davies shows that the myths of race and nation innocent in themselves have evolved into sacred myths and histories which not only infected Christianity but in the case of Germany and South Africa served to legitimize ruling racist elites He traces the course of racism to its roots in the religious cultural and intellectual history of western civilization and to its culmination in the formation of the Aryan myth the great race myth of white Europeans in the nineteenth century As Germany played a pivotal role in recent developments of racism Davies discusses the Germanic Christ first and most extensively He analyzes French Roman Catholic racism particularly its role in the Third Republic through discussion of the Latin Christ His study of the Anglo Saxon Christ covers both English and American expressions of racism and their links to imperialism This is followed by a discussion of Afrikaner racism and an exploration of black nationalism in the United States and its advocacy of a black Christ Davies concludes with a discussion of the theological problems arising from the five racial Christs surveyed and the dilemmas posed by the attempt to cast a universal religion in a particular cultural mould

Children, Ethics, and Modern Medicine Richard B. Miller,2003-06-18 Because the discipline of medical ethics has developed with autonomy as its foundation the field has ignored pediatric ethics The book is resoundingly successful in its effort to rectify this problem A pleasure to read Eric D Kodish M D Director Rainbow Center for Pediatric Ethics Case Western Reserve University Using a form of medical ethnography to investigate a variety of pediatric contexts Richard B Miller tests the fit of different ethical approaches in various medical settings to arrive at a new paradigm for how best to care for children Miller contends that the principle of beneficence must take priority over autonomy in the treatment of children Yet what is best for the child is a decision that doctors cannot make alone In making and implementing such decisions Miller argues doctors must become part of a therapeutic alliance with families and the child undergoing medical care to come up with the best solution Children Ethics and Modern Medicine combines strong philosophical argumentation with firsthand
