Examining Racial and Ethnic Diversity in American Higher Education J. Clint Kinkead, 2011 Most higher education scholars associate access to higher education with the Associate Colleges sector While Associate College ACs better known to the public as community colleges have a long standing and well documented relationship with access regional universities are also agents of access The Carnegie Foundation for the Advancement of Teaching terms these regional institutions as Master's Colleges and Universities MCUs From the data presented in this work I argue that the ambitious goals of the American Graduation Initiative cannot be reached without the collaboration of these two institutional types Contains 4 tables

Compelling Interest Mitchell J. Chang, Daria Witt, James Jones, Kenji Hakuta, 2003-03-12 In recent years American colleges and universities have become the locus of impassioned debates about race conscious social policies as conflicting theories clash over the ways to distribute the advantages of higher education in a fair and just manner Just below the surface of these policy debates lies a complex tangle of ideologies histories grievances and emotions that interfere with a rational

analysis of the issues involved As never before the need for empirical research on the significance of race in American society seems essential to solving the manifest problems of this highly politicized and emotionally charged aspect of American higher education The research evidence presented in this book has a direct relevance to those court cases that challenge race conscious admission policies of colleges and universities Though many questions still need to be addressed by future research the empirical data collected to date makes it clear that affirmative action policies do work and are still very much needed in American higher education This book also provides a framework for examining the evidence pertaining to issues of fairness merit and the benefits of diversity in an effort to assist courts and the public in organizing beliefs about race and opportunity

Diversity Leadership in Higher Education Adalberto Aguirre, Jr., Ruben O. Martinez, 2006 Promoting diversity as a core value among social groups is one of the major challenges faced by institutions of higher education in the United States By focusing on racial and ethnic minorities in higher education this monograph provides a view of diversity as a positive and dynamic social force in society that promotes its integration as a core value and process Diversity leadership challenges higher education to move beyond co optation strategies in which diversity is viewed as a descriptive and static organizational element to the adoption of transformational strategies in which diversity is viewed as a dynamic and positive process Through the promotion and development of diversity leadership institutional leadership is seen as building capacity to promote inclusive learning and workplace environments in colleges and universities As demographic shifts in US society create an ever expanding context in which the well being of the nation becomes increasingly linked to the social and cultural groups that have been systematically excluded from full participation in American society the need for positive cultural and structural changes that foster their inclusion in higher education becomes an important challenge to address This volume provides an overview of the context for diversity leadership roles and practices in higher education It argues for an alignment between institutions of higher education and the diverse populations they serve in this country This is volume 32 number 3 of the ASHE Higher Education Report a bi monthly journal published by Jossey Bass See our entire list of ASHE Higher Education Report titles for a wide variety of critical issues facing Higher Education today

Hale, 2023-07-03 A unique reference describing successful diversity initiatives in higher education Higher education like the nation is facing major demographic changes Our colleges and universities recognize they not only have to be more inclusive but that they have to provide an environment that will effectively retain and develop the growing population of ethnically and racially diverse students How ready are they and what should they be doing Frank W Hale Jr known as the Dean of Diversity for his pioneering efforts in establishing Ohio State as one of the institutions graduating the most Black Ph D s has gathered twenty two leading scholars and administrators from around the country who describe the successful diversity programs they have developed Recognizing the importance of diversity as a means of embracing the experiences perspectives and expertise of other cultures this book shares what has been most effective in

Higher Education The minority groups defined by the plan are Hispanic Latino African American Asian American and Native American listed in order of their current proportional presence in the state s population Subsequently the Board s Strategic Plan was enacted by the state legislature which since 1986 has provided the Board with a small symbolic annual allocation to promote achievement of the plan s diversity goals Although the plan mandates no numeric goals it holds campuses to the ideal that the racial and ethnic make up of their students graduates and professional staff should reflect the diversity of the state s residents Since enactment of the Strategic Plan students attending and graduating from Connecticut s public colleges and universities have become more racially and ethnically diverse and 2008 continues a historic trend of year to year incremental progress The number of minority group members among both enrolled students and degree recipients at the undergraduate level reached record levels There has also been a steady increase in the number of minority group members employed as professionals at public institutions This report summarizes the activities and progress achieved in 2008 to ensure that Connecticut s public colleges and universities are representative of the state s racial and ethnic diversity

Board of Governors for Higher Education,1996 *Strategic Plan to Ensure Racial and Ethnic Diversity in Connecticut Public Higher Education, 2007. Annual Report* Connecticut. Increasing the participation of minority groups at public colleges and universities is a longstanding goal of the Board of Governors for Higher Education as first outlined in its 1983 Strategic Plan to Ensure Racial and Ethnic Diversity in Connecticut Public Higher Education The minority groups defined by the plan are Hispanic Latino African American Asian American and Native American listed in order of their current proportional presence in the state s population Since enactment of the Strategic Plan students attending and graduating from Connecticut s public colleges and universities have become more racially and ethnically diverse and 2006 continues a trend of year to year incremental progress The number of minority group members among both enrolled students and degree recipients at the undergraduate level reached record levels There has also been a steady increase in the number of minority group members employed as professionals at public institutions The overall trends are

- 1 In fall 2006 minorities numbered 24 278 or 25.3 percent of all undergraduate students enrolled in the state s public institutions of higher education exceeding their proportional presence in the state s population for the ninth consecutive year
- 2 During the 2005-06 academic year minority students received 2 476 or 18.9 percent of all undergraduate degrees associate and bachelor s degrees conferred by the state s public colleges and universities and
- 3 Among full time professionals employed by the state s public institutions of higher education 1 444 were minority group members at the end of 2006

Despite impressive growth over the course of the past 23 years disproportional levels of achievement in minority enrollment graduation and employment persist Persistent areas of racial ethnic disparity in Connecticut s public higher education include

- 1 Hispanic Latinos are the only minority group whose overall undergraduate enrollment level has not reached its

proportion of the state's population 2 Hispanic Latino and African American students are overrepresented in their enrollment at community colleges and underrepresented at universities 3 Disproportionate numbers of Hispanic Latino and African American students who enroll in college fail to attain an undergraduate degree and 4 Hispanic Latinos are underrepresented in each of the professional occupational categories within the professional workforce of the public institutions of higher education This report summarizes the activities and progress achieved in 2006 to ensure that Connecticut's public colleges and universities are representative of the state's racial and ethnic diversity Contains 25 tables and 6 graphs

Multiculturalism in Higher Education C. Spencer Platt, Adriel A. Hilton, Christopher Newman, Brandi Hinnant-Crawford, 2020-03-01 As the educational landscape of America continues to evolve and diversify college faculty and administrators must be cutting edge in their approaches to create a variety of educational experiences with a greater level of multicultural cognizance Unlike in previous generations higher education in the 21st Century is no longer a luxury reserved for the elite and wealthy but is an increasing necessity for access to labor markets Community colleges and universities are working hard to respond to the demands of the labor market by attempting to provide skills for jobs that may not yet exist Colleges and universities should aim to make all of their students feel welcome and a part of the campus being committed to celebrating differences Additionally filling faculty seats with varied races cultures perspectives and identities will aid in providing mentors and role models everyone can relate to These are some of the vital steps toward building a campus community that helps students develop a sense of belonging that allows them to persist and thrive in college The scholarship in this volume illustrates the state of multicultural education on college and university campuses The authors bridge foundational knowledge with contemporary understandings making the work both accessible for novices and beneficial for the authorities on multicultural education This volume provides thoughtful discourse on issues ranging from the racial and ethnic diversity of the student and faculty bodies and important topics like disability issues to different educational contexts such as community colleges HBCUs and HSI institutions
