Racial Situations John Hartigan Jr., John Hartigan, 1999-10-24 *Racial Situations* challenges perspectives on race that rely upon oft repeated claims that race is culturally constructed and hence simply false and distorting John Hartigan asserts instead that we need to explain how race is experienced by people as a daily reality His starting point is the lives of white people in Detroit As a distinct minority whites in this city can rarely assume they are racially unmarked and normative privileges generally associated with whiteness Hartigan conveys their attempts to make sense of how race matters in their lives and in Detroit generally Rather than compiling a generic sampling of white views Hartigan develops an ethnographic account of whites in three distinct neighborhoods an inner city underclass area an adjacent debatably gentrifying community and a working class neighborhood bordering one of the city s wealthy suburbs In tracking how racial tensions develop or become defused in each of these sites Hartigan argues that whites do not articulate their racial identity strictly in relation to a symbolic figure of black Otherness He demonstrates instead that intraracial class distinctions are critical in whites determinations of when and how race matters In each community the author charts a series of names hillbilly gentrifier and racist which whites use to make distinctions among themselves He shows how these terms function in everyday discourses that reflect the racial consciousness of the communities and establish boundaries of status and privilege among whites in these areas

Detroit
 Scott Martelle, 2014-03-01 Detroit was established as a French settlement three quarters of a century before the founding of this nation A remote outpost built to protect trapping interests it grew as agriculture expanded on the new frontier Its industry took a great leap forward with the completion of the Erie Canal which opened up the Great Lakes to the East Coast Surrounded by untapped natural resources Detroit turned iron from the Mesabi Range into stoves and railcars and eventually cars by the millions This vibrant commercial hub attracted businessmen and labor organizers European immigrants and African Americans from the rural South At its mid 20th century heyday one in six American jobs were connected to the auto industry its epicenter in Detroit And then the bottom fell out Detroit A Biography takes a long unflinching look at the evolution of one of America's great cities and one of the nation's greatest urban failures It tells how the city grew to become the heart of American industry and how its utter collapse from 1.8 million residents in 1950 to 714,000 only six decades later resulted from a confluence of public policies private industry decisions and deep thick seams of racism And it raises the question when we look at modern day Detroit are we looking at the ghost of America's industrial past or its future

What's the Use of Race? Ian Whitmarsh, David S. Jones, 2010-04-16 How race as a category reinforced by new discoveries in genetics is used as a basis for practice and policy in law science and medicine The post civil rights era perspective of many scientists and scholars was that race was nothing more than a social construction Recently however the relevance of race as a social legal and medical category has been reinvigorated by science especially by discoveries in genetics Although in 2000 the Human Genome Project reported that humans shared 99.9 percent of their genetic code scientists soon began to argue that the degree of variation was actually greater than this and that this variation maps naturally onto conventional categories of race In the context of this rejuvenated biology of race the contributors to *What's the Use of Race* investigate whether race can be a category of analysis without reinforcing it as a basis for discrimination Can policies that aim to alleviate inequality inadvertently increase it by reifying race differences The essays focus on contemporary questions at the cutting edge of genetics and governance examining them from the perspectives of law science and medicine The book follows the use of race in three domains of governance ruling knowing and caring Contributors first examine the use of race and genetics in the courtroom law enforcement and scientific oversight then explore the ways that race becomes implicitly or explicitly part of the genomic science that attempts to address human diversity and finally investigate how race is used to understand and act on inequities in health and disease Answering these questions is essential for setting policies for biology and citizenship in the twenty first century

Dropping Anchor, Setting Sail Jacqueline Nassy Brown, 2009-01-10 The port city of Liverpool England is home to one of the oldest Black communities in Britain Its members proudly date their history back at least as far as the nineteenth century with the global wanderings and eventual settlement of colonial African seamen Jacqueline Nassy Brown analyzes how this worldly origin story supports an avowedly local Black political and identity a theme that becomes a window onto British politics of race place and nation and Liverpool's own contentious origin story as a gloriously cosmopolitan port of world historical import that was nonetheless central to British slave trading and imperialism This ethnography also examines the rise and consequent dilemmas of Black identity It captures the contradictions of diaspora in postcolonial Liverpool where African and Afro Caribbean heritages and transnational linkages with Black America both contribute to and compete with the local as a basis for authentic racial identity Crisscrossing historical periods rhetorical modes and academic genres the book focuses singularly on place enabling its most radical move its analysis of Black racial politics as enactments of English cultural premises The insistent focus on English culture implies a further twist Just as Blacks are racialized through appeals to their assumed Afro Caribbean and African cultures so too has Liverpool an Irish working class city whose expansive port faces the world beyond Britain long been beyond the pale of dominant notions of authentic Englishness *Dropping Anchor, Setting Sail* studies race through clashing constructions of Liverpool

Hubbs zeroes in on flawed assumptions about how country music models and mirrors white working class identities She particularly shows how dismissive politically loaded middle class discourses devalue country s manifestations of working class culture politics and values and render working class acceptance of queerness invisible Lucid important and thought provoking this book is essential reading for students and scholars of American music gender and sexuality class and pop culture

Getting Ghost Luke Bergmann, 2010-09-22 Bergmann chronicles the drug trading the risks and rewards and the demarcations between the city and suburbs even as he witnessed suburbanites come into the city to buy drugs Booklist Not just illustrative and emotive this pummeling immersive social text is grounded in street level reportage and seeded with wisdom Kirkus Reviews In prose that is equally eloquent and enlightening Luke Bergmann brings to the surface the lives of two young men living in a place that is regarded by too many people as a forgotten city Alford A Young Jr Arthur F Thurnau Professor and Associate Professor Sociology and Afroamerican and African Studies University of Michigan Luke Bergmann sometimes risks life and limb to bring us firsthand the lives of young people who mainstream media and academic research have ignored except for the occasional crime story or impersonal policy brief Getting Ghost is a journey worth taking It sets a new standard for documentary reportage Sudhir Venkatesh author of Gang Leader for a Day and Off the Books

Postapocalyptic Detroit infamous for its abandoned buildings empty lots and blighted streets may be the only American city to have earned such an epithet As a teenager who frequently visited Detroit with his father Luke Bergmann saw the devastation caused by the collapse of the automobile industry Years later he returned to the city as an anthropologist to study the incarceration of inner city youth and his research connected him with two teenaged drug dealers Dude Freeman and Rodney Phelps For nearly three years Bergmann lived on the city s West Side hanging out with Dude and Rodney driving around hearing their stories and dreams and witnessing the intricacies of Detroit s urban drug trade Bergmann is soon more than an observer as he intervenes with Dude s probation officer when he misses a hearing and becomes Rodney s only contact when he flees the city to escape criminal charges Through it all he strives to understand their lives their families and the neighborhoods they call home In an effort to break through the conventional wisdom about who sells drugs and why Bergmann chronicles the unsettling alchemy of choice force of habit structural inequality and political neglect that combine to restrict the horizons of too many young people in America s cities As Rodney and Dude spin through the revolving door of juvenile detention getting ghost becomes a rich metaphor for leaving a scene for quitting the trade and ultimately for mortality With stunning insight courage and even humor Getting Ghost illuminates complex inner lives that are too often diminished by empty stereotypes as it reveals the common yearnings in all of our American dreams Luke Bergmann is a research director at the Detroit Department of Health and Wellness Promotion and an adjunct faculty associate at the Institute for Social Research at the University of Michigan Cover photo Simon Wheatley Magnum Photos

White Supremacy and Racism in the Post-civil Rights Era Eduardo Bonilla-Silva, 2001 Is a racial structure still firmly in place in the United States White Supremacy and Racism answers that question with an unequivocal yes describing a contemporary system that operates in a covert subtle institutional and superficially nonracial fashion Assessing the major perspectives that social analysts have relied on to explain race and racial relations Bonilla Silva labels the post civil rights ideology as color blind racism a system of social arrangements that maintain white privilege at all levels His analysis of racial politics in the United States makes a compelling argument for a new civil rights movement rooted in the race class needs of minority masses multiracial in character and focused on attaining substantive rather than formal equality

Visibilities and Invisibilities of Race and Racism Yasuko Takezawa, Faye V. Harrison, Akio Tanabe, 2025-01-28 Takezawa Harrison Tanabe and their contributors present a multi sited transnational and intercultural perspective on racism shifting its emphasis away from the conventional North Atlantic interpretive frameworks to better understand its fundamental nature Racism is not a uniquely transatlantic phenomenon but because it is most often understood within Euro American paradigms its salience in other contexts is often less visible The chapters in this volume analyze the process by which fundamentally invisible differences have been made visible and various groups and communities have been marked essentialized and substantialized under a range of social political and cultural conditions Focusing on the space between the visible and invisible they evaluate the dynamics by which invisible differences are rendered visible and by which visible differences render other differences invisible In doing so they promote a decentering of Western centered frameworks and elucidate continuities with and discontinuities from past era of racial antagonism and conflict They look at case studies ranging from Japan India and Southeast Asia to Iceland the United States and intra white racism in Europe The strength of this work lies in its exploration of the varied modalities of race and racism particularly those that deviate from the conventional visibly identifiable notions of race thus broadening the understanding of racism beyond traditional paradigms An important contribution to the re worlding of the study of racism for
