**Down by the Riverside** Larry Murphy, Larry George Murphy, 2000-11 An introductory overview of the development of African American religion and theology Down by the Riverside provides an expansive introduction to the development of African American religion and theology Spanning the time of slavery up to the present the volume moves beyond Protestant Christianity to address a broad diversity of African American religion from Conjure Orisa and Black Judaism to Islam African American Catholicism and humanism This accessible historical overview begins with African religious heritages and traces the transition to various forms of Christianity as well as the maintenance of African and Islamic traditions in antebellum America Preeminent contributors include Charles Long Gayraud Wilmore Albert Raboteau Manning Marable M. Shawn Copeland Vincent Harding Mary Sawyer Toinette Eugene Anthony Pinn and C. Eric Lincoln and Lawrence Mamiya They consider the varieties of religious expression emerging from migration from the rural South to urban areas African American women's participation in Christian missions Black religious nationalism and the development of Black Theology from its nineteenth century precursors to its formulation by James Cone and later articulations by black feminist and womanist theologians They also draw on case studies to provide a profile of the Black Christian church today This thematic history of the unfolding of religious life in African America provides a window onto a rich array of African American people practices and theological positions

Resources in Education, 2001-10 The Black Church in the African American Experience C. Eric Lincoln, Lawrence H. Eric Lincoln and Lawrence H. Mamiya present an analysis of the Black Church as it relates to the history of African Americans and to contemporary black culture In examining both the internal structure of the Church and the

reactions of the Church to external societal changes the authors provide important insights into the Church's relationship to politics economics women youth and music Among other topics Lincoln and Mamiya discuss the attitude of the clergy toward women pastors the reaction of the Church to the civil rights movement the attempts of the Church to involve young people the impact of the black consciousness movement and Black Liberation Theology and clergy and trends that will define the Black Church well into the next century This study is complete with a comprehensive bibliography of literature on the black experience in religion Funding for the ten year survey was made possible by the Lilly Endowment and the Ford Foundation

**Metropolitan Desegregation** Robert Green,2013-11-11 Most of the findings in this book are based on the work of a team of researchers from Urban Affairs Programs at Michigan State University From 1976 to 1981 the team observed the progress of school desegregation in metropolitan Wilmington Delaware which encompasses New Castle County The project was made possible by a grant from the Rockefeller Foundation Division of Social Sciences Metropolitan desegregation is a strategy deserving of national attention because this country's black population has become increasingly concentrated within central cities Desegregation solutions must be found that encompass America's white suburbs as well as its urban areas In a 1977 statement the U S Commission on Civil Rights called metropolitan school desegregation the last frontier to be crossed in the long judicial effort to make equal educational opportunity a living reality Moreover the National Task Force on Desegregation Strategies concluded in 1979 The simple demographic fact is that many large city school districts cannot desegregate by themselves For children in such districts the best hope for attending a desegregated school lies in the implementation of metropolitan desegregation strategies i e desegregation plans which do not stop at the city line but rather encompass at least some of the surrounding suburban areas p 1 The Michigan State University research team began its investigation in New Castle County Delaware after a three judge federal district court ruled that area schools were illegally segregated between districts

**Who Gets Represented?** Peter K. Enns, Christopher Wlezien, 2011-01-10 An investigation of policy preferences in the U S and how group opinion affects political representation While it is often assumed that policymakers favor the interests of some citizens at the expense of others it is not always evident when and how groups interests differ or what it means when they do Who Gets Represented challenges the usual assumption that the preferences of any one group women African Americans or the middle class are incompatible with the preferences of other groups The book analyzes differences across income education racial and partisan groups and investigates whether and how differences in group opinion matter with regard to political representation Part I examines opinions among social and racial groups Relying on an innovative matching technique contributors Marisa Abrajano and Keith Poole link respondents in different surveys to show that racial and ethnic groups do not as previously thought predictably embrace similar attitudes about social welfare Katherine Cramer Walsh finds that although preferences on health care policy and government intervention are often surprisingly similar across class lines different income groups can maintain the same policy preferences for different reasons Part II turns to how group interests translate into policy outcomes with a focus on differences in representation between income groups James Druckman and Lawrence Jacobs analyze Ronald Reagan s response to private polling data during his presidency and show how different electorally significant groups Republicans the wealthy religious conservatives wielded disproportionate influence on Reagan s policy positions Christopher Wlezien and Stuart Soroka show that politicians responsiveness to the preferences of constituents within different income groups can be surprisingly even handed Analyzing data from 1876 to the present Wesley Hussey and John Zaller focus on the important role of political parties vis vis constituents preferences for legislators behavior Who Gets Represented upends several long held assumptions among them the growing conventional wisdom that income plays in American politics and the assumption that certain groups will always or will never have common interests Similarities among group opinions are as significant as differences for understanding political representation Who Gets Represented offers important and surprising answers to the question it raises

**Public Opinion and the Political Future of the Nation's Capital** Edward M. Meyers, 1996-06-01 Despite widespread agreement that the District of Columbia s political system has collapsed there is a serious lack of thoughtful proposals addressing the political future of the nation s capital In this book Edward M Meyers examines the opinions of average Americans about Washington D C in order to understand how many Americans are likely to approach the question of what reforms are needed Meyers first explores the political economic and social conditions of the

District providing an informed context for understanding and evaluating its political options Presenting the results of in depth qualitative research with focus groups held across the country Meyers reveals that regardless of the participants knowledge about the District their beliefs in six basic concepts or schemata such as respect for democratic rights attitudes about race and aversion to an intrusive federal government molded their opinions about various options for District self governance The book concludes with insights into the District by local and national political leaders including OMB Director Alice Rivlin Jesse Jackson Representatives Eleanor Holmes Norton Thomas Davis and James Walsh and Marion Barry

**When the Fences Come Down** Genevieve Siegel-Hawley,2016-04-12 How we provide equal educational opportunity to an increasingly diverse highly urbanized student population is one of the central concerns facing our nation As Genevieve Siegel Hawley argues in this thought provoking book within our metropolitan areas we are currently allowing a labyrinthine system of school district boundaries to divide students and opportunities along racial and economic lines Rather than confronting these realities though most contemporary educational policies focus on improving schools by raising academic standards holding teachers and students accountable through test performance and promoting private sector competition Siegel Hawley takes us into the heart of the metropolitan South to explore what happens when communities instead focus squarely on overcoming the educational divide between city and suburb Based on evidence from metropolitan school desegregation efforts in Richmond Virginia Louisville Kentucky Charlotte Mecklenburg North Carolina and Chattanooga Tennessee between 1990 and 2010 Siegel Hawley uses quantitative methods and innovative mapping tools both to underscore the damages wrought by school district boundary lines and to raise awareness about communities that have sought to counteract them She shows that city suburban school desegregation policy is related to clear measurable progress on both school and housing desegregation Revisiting educational policies that in many cases were abruptly halted or never begun this book will spur an open conversation about the creation of the healthy integrated schools and communities critical to our multiracial future      *Subject Catalog* Library of Congress,1980-04      *Public Opinion and Polling around the World* John G. Geer,2004-07-21 Covering the intricate facets of America s most important democratic tradition this book serves as an important resource to understand how citizens views are translated into governmental action *Public Opinion and Polling around the World* presents a thorough review of public opinion from its roots in colonial America to its role in today s emerging democracies More than 100 entries prepared by top scholars examine the 200 year history of public opinion measurement methodologies with an emphasis on telephone interviews and Internet polls and key figures like George Gallup and Elmo Roper who created their own polling systems An analysis of theories compares schools of thought from the fields of psychology sociology and economics and explores how people form opinions A fascinating snapshot of the public s current views on economic issues foreign policy gender gay rights and other hot button topics observes patterns across genders race ethnic origins class and religion in regions all over the world Students academicians and political observers will discover

answers to such questions as does public opinion shape the behavior of government

**Socio-Cultural Polarization** Israr Qureshi, Babita Bhatt, Samrat Gupta, Amit Anand Tiwari, 2022-03-22 This book explores cultural polarization resultant decline in social cohesion in society and how information and communication technologies exacerbate the cultural polarization through phenomenon such as echo chambers of information that damage the quality of online discourse This book examines the nature of the information that is shared Further this book identifies how the quality of online discourse and polarization induced through it leads to offline harm and negative outcomes in our society This book discusses how wide ranging information exchange on digital media can lead to two scenarios namely the formation of the public sphere or the formation of echo chambers While the public sphere which promotes greater diversity is a well researched domain substantially less research has been conducted on echo chambers in relation to sociocultural activities products or services This book states that polarization induced by the formation and evolution of echo chambers in sociocultural realm such as around epidemic outbreaks vaccination healthcare education and climate change is an emerging avenue of research due to its enormous impact in the shaping of our society Therefore this book argues that understanding the characteristics of sociocultural products related controversies is critical and valuable in developing interventions to reduce unhealthy societal and organizational polarisations The development of systematic knowledge is required to understand and address such a large scale and complex societal challenge so as to facilitate a deeper understanding and offer solutions to the growing issue of polarization in sociocultural context driven primarily through echo chambers This book examines how technology enabled social media usage increases and the complex structural outcomes such as echo chambers are likely to have an increasingly important role in shaping public opinion This book appeals to readers with interest in developing a deeper and broader understanding of issues and initiatives related to the polarization of opinions on cultural products These include readers and scholars from various disciplines along with engaged organizational leaders activists policy makers and common citizens
