**Racializing Jesus** Shawn Kelley, 2002 Shows how the major intellectual movements of the modern world are infused with the idea of race and how this thinking has influenced modern biblical scholarship Explores a wide range of current debate     **Handbook for the Study of the Historical Jesus (4 Vols)** Tom Holmén, Stanley E. Porter, 2011 V 1 How to study the historical Jesus v 2 The study of Jesus v 3 The historical Jesus v 4 Individual studies     Race in John's Gospel Andrew Benko, 2019-04-08 Directly or indirectly race makes many appearances in the Fourth Gospel What is the meaning of all this attention to ethnic labels Race in John's Gospel investigates how John reflects the racialized ideas current in its milieu challenging some and adapting others Ultimately John dismisses race as valid grounds for prejudice or discrimination devaluing the very criteria on which race is based The cumulative effect of this rhetoric is to undermine the category itself exposing earthly race as irrelevant and illusory However John's anthropology is layered and looks beyond this unimportant earthly level Above it John constructs a heavenly level of racial identity based on one's descent from either God or the devil

racial justice Topics include antiracist allyship and Jesus's interaction with marginalized individuals in the Gospel of Matthew cultural assimilation and Jesus's teachings about family and acceptance in the Gospel of Luke gendered stereotypes and the story of the Samaritan woman in the Gospel of John the experience of Black women and girls in the American criminal justice system and the woman accused of adultery in the Gospel of John group identity and the incorporation of Gentiles into the early Jesus movement in Acts privilege and Paul's claims to apostolic authority in 2 Corinthians coalition building between diverse groups and the discussion of unity in Ephesians government's role in providing social welfare and early Christians relationship to the Roman Empire in Romans and Revelation Through these creative and illuminating connections Sechrest offers a rich bounty of new insights from Scripture drawing out matters of justice and human dignity that spoke to early Christians and can speak still to Christians willing to listen today

Reading Other Peoples' Texts Ken S. Brown, Alison L. Joseph, Brennan Breed, 2020-05-14 This volume draws together eleven essays by scholars of the Hebrew Bible New Testament Greco Roman religion and early Judaism to address the ways that conceptions of identity and otherness shape the interpretation of biblical and other religiously authoritative texts The contributions explore how interpreters of scriptural texts regularly assume or assert an identification between their own communities and those described in the text while ignoring the cultural social and religious differences between themselves and the text's earliest audiences Comparing a range of examples these essays address varying ways in which social identity has shaped the historical contexts implied audiences rhetorical shaping redactional development literary appropriation and reception history of particular texts over time Together they open up new avenues for studying the relations between social identity scriptural interpretation and religious authority

**Democratizing Biblical Studies** Elisabeth Schüssler Fiorenza, 2009-01-01 Schüssler Fiorenza addresses such questions as What are the educational practices and procedures that are advocated by traditional educational models and how can they be changed What kinds of educational and communicative practices do biblical studies need to develop in order to fashion an emancipatory democratizing rhetorical space and a forum of many voices To envision articulate debate and practice a radical democratic ethos of biblical studies she identifies emerging didactic models that can foster such a radical democratic style of learning Pbk cover

*Why This New Race* Denise Buell, 2008-08-28 Denise Kimber Buell radically rethinks the origins of Christian identity arguing that race and ethnicity played a central role in early Christian theology Focusing on texts written before the legalization of Christianity in 313 C E including Greek apologetic treatises martyr narratives and works by Clement of Alexandria Origen Justin Martyr and Tertullian Buell shows how philosophers and theologians defined Christians as a distinct group within the Roman world characterizing Christianness as something both fixed in its essence and fluid in its acquisition through conversion Buell demonstrates how this view allowed Christians to establish boundaries around the meaning of Christianness and to develop the kind of universalizing claims aimed at uniting all members of the faith Her arguments challenge generations of scholars who have refused to acknowledge

ethnic reasoning in early Christian discourses They also provide crucial insight into the historical legacy of Christian anti-Semitism and contemporary issues of race

**The Body of Creation** James B. Pendleton, 2020-05-15 In the modern period space has predominately been conceived of as a mere setting for human action ontologically separate from the body In Markan studies the result has been the multiplication of textual geographies that hide the spatiality of Jesus's narrativized and thus living body Rather than representing Jesus's body as replicating the spatial configurations of dominant scribal cartographic practice including imperial practice James B Pendleton shows that Mark portrays Jesus's body as a living production of space that troubles dominant maps Against readings of Mark that argue that Jesus is either an imperial or an anti-imperial figure Pendleton argues that Mark presents Jesus's body and thus his spatiality as both inside as an insider and outside as an outsider simultaneously in what has more commonly been theorized recently as third spatiality or thirdspace Rather than an imperial or anti-imperial economy of spatial production Pendleton argues Mark presents Jesus's body within a both and and more economy that is kenotic revealing God's own royal yet emptying body

**African Biblical Studies** Andrew M. Mbuvi, 2022-09-22 Andrew M Mbuvi makes the case for African biblical studies as a vibrant and important emerging distinct discipline while also using its postcolonial optic to critique biblical studies for its continued underlying racially and imperialistically motivated tendencies Mbuvi argues that the emergence of biblical studies as a discipline in the West coincides with and benefits from the establishment of the colonial project that included African colonization At the heart of the colonial project was the Bible not only as ferried by missionaries who often espoused racialized views to convert heathens in the distant lands but as the text used in the racialized justification of the colonial violence Interpretive approaches established within these racist and colonialist matrices continue to dominate the discipline perpetuating racialized interpretive methodology and frameworks On these grounds Mbuvi makes the case that the continued marginalization of non-western approaches is a reflection of the continuing colonialist structure and presuppositions in the discipline of biblical studies African Biblical Studies not only exposes and critiques these persistent oppressive and subjugating tendencies but showcases how African postcolonial methodologies and studies that prioritize readings from the perspective of the marginalized and oppressed offer an alternative framework for the discipline These readings while destabilizing and undermining the predominantly white Euro-American approaches and their ingrained prejudices and problematizing the biblical text itself posit the need for biblical interpretation that is anti-colonial and anti-racist

*Ethnicity and Inclusion* David G. Horrell, 2020-10-29 Some of today s problematic ideologies of racial and religious difference can be traced back to constructions of the relationship between Judaism and early Christianity New Testament studies which developed contemporaneously with Europe s colonial expansion and racial ideologies is David Horrell argues therefore an important site at which to probe critically these ideological constructions and their contemporary implications In *Ethnicity and Inclusion* Horrell explores the ways in which ethnic and religious characteristics feature in key Jewish and early Christian texts challenging the widely accepted dichotomy between a Judaism that is ethnically defined and a Christianity that is open and inclusive Then through an engagement with whiteness studies he offers a critique of the implicit whiteness and Christianness that continue to dominate New Testament studies today arguing that a diversity of embodied perspectives is epistemologically necessary

**Harnessing Chaos** James G. Crossley, 2014-08-28 Harnessing Chaos is an explanation of changes in dominant politicized assumptions about what the Bible really means in English culture since the 1960s James G Crossley looks at how the social upheavals of the 1960s and the economic shift from the post war dominance of Keynesianism to the post 1970s dominance of neoliberalism brought about certain emphases and nuances in the ways in which the Bible is popularly understood particularly in relation to dominant political ideas This book examines the decline of politically radical biblical interpretation in parliamentary politics and the victory of a modified form of Margaret Thatcher s re reading of the liberal Bible tradition following the normalisation of a modified form of Thatcherism more generally Part I looks at the potential options for politicized readings of the Bible at the end of the the 1960s focussing on the examples of Christopher Hill and Enoch Powell Part II analyses the role of Thatcher s specific contribution to political interpretation of the Bible and assumptions about religion Part III highlights the importance of often unintended ideological changes towards forms of Thatcherite interpretation in popular culture and with particular reference to Monty Python s Life of Brian and the Manchester music scene between 1976 and 1994 Part IV concerns the modification of Thatcher s Bible particularly with reference to the embrace of socially liberal values by looking at the electoral decline of the Conservative Party through the work of Jeffrey Archer on Judas and the final victory of Thatcherism through Tony Blair s exegesis Some consideration is then given to the Bible in an Age of Coalition and how politically radical biblical interpretations retain a presence outside parliamentary politics Harnessing Chaos concludes with

reflections on why politicians in English politicians bother using the Bible at all
