

### Sociological analysis (cultural criticism)

- This type of analysis interprets the story in term of social structures: class, race, gender, culture, nationality or economics. Feminist criticism, postcolonial criticism, Marxist criticism, etc. all fall into this category. It can also overlap with historical analysis. For example, a Marxist criticism of *Catcher in the Rye* might claim that Holden's depression is derived from material wealth and social inequality.

### Philosophical

## **Racism A Philosophic Probe:**

Racism--a Philosophic Probe Chukwudum Barnabas Okolo, 1974-01-01      **Racism** Albert J. Wheeler, 2000 Of all mankind's vices racism is one of the most pervasive and stubborn. Success in overcoming racism has been achieved from time to time but victories have been limited thus far because mankind has focused on personal economic gain or power grabs ignoring generosity of the soul. This bibliography brings together the literature providing access by subject groupings as well as author and subject indexes. Contents: Racial Attitudes, Racism and Poverty, Hate Groups, Racial Justice, Racism and Politics, Race Discrimination, Racial Identity, Racism Around the World.      *Sartre on Contingency* Mabogo Percy More, 2021-09-22 The problem of antiblack racism has a long history in the world with as long a history of thinkers writing and theorizing against it. Few philosophers have opposed institutionalized racialism as vehemently as Jean Paul Sartre both in his intellectual work and in his political action. This book argues that not only does a relationship exist between Sartre's existentialist philosophy and antiracism but also more profoundly that it is precisely his existential ontology that informs his anti-racist social and political commitments. He sought to examine the complexity of our existence as conscious beings and thus provides the ontological basis for understanding the situation of a black person in an antiblack world. This book is about how Sartre's philosophy especially his early writings can be applied to address the problem of racism against black people. It argues that among the many concepts in Sartre's work that are useful in understanding the problem of racism against black people the philosophical notion of contingency is one of the most significant. Contingency in Sartre is the view that whatever exists need not exist and that therefore it can be changed; that the fact that one is born white or black without their choice has no moral weight at all in treating others as though they are responsible for what they are. In this book Mabogo More contends that through Sartre's philosophical notion of contingency he provides us with the ammunition to understand and deal with racism broadly and antiblack racism in particular.      **Identity Re-creation in Global African Encounters** John Ayotunde Isola Bewaji, Adedoyin Aguoru, 2019-08-07 *Identity Re-creation in Global African Encounters* explores race, racial politics and racial transformation in the context of Africa's encounters with non-African communities through various perspectives including oppression, racialization of ethnic difference and identity deconstruction. While the contributors recognize that ethnicity has long been a staple analytical category of engagements between African and non-African communities they present a holistic view of the continent and its diaspora through race outside of both colonial and neocolonial binaries allowing for a more nuanced study of Africa and its diaspora.      **Punk Rockers' Revolution** Curry Malott, Milagros Peña, 2004 For punk rockers music and art have often been used as tools for resisting and accommodating the interests of society's dominant classes. During the late 1970s a predominantly white male working middle class counterculture began to develop what is now known as punk rock. This book shows how punk rock serves to both subvert and accommodate the interest of late capitalist American society by looking at the trends in the ideas, values and beliefs transmitted through punk lyrical messages specifically through

the content of three punk record labels and how they have evolved over time The impact of punk will continue because it is a product of the changing face of alternative cultural spaces spaces that impact and are impacted by increasingly hostile and exploitive relationships between and within oppressor and oppressed groups      *Race and Racism in Modern Philosophy* Andrew Valls, 2005 An innovative substantial intervention in critical race theory this book brings together an impressive roster of thinkers to trace the question of race in modern philosophical inquiry and explore its influence on contemporary philosophy      *Philosophers on Race* Julie K. Ward, Tommy L. Lott, 2008-04-15 Philosophers on Race adds a new dimension to current research on race theory by examining the historical roots of the concept in the works of major Western philosophers

**Cool Pose** Richard Majors, Janet Mancini Billson, 1993-08 Traces the history of black men in America using a tough guy image to obscure their anger and disappointment over their roles in society back to their origins in Africa and the slave era

The Oxford Handbook of Feminist Theory Lisa Disch, Mary Hawkesworth, 2018-02-01 The Oxford Handbook of Feminist Theory provides a rich overview of the analytical frameworks and theoretical concepts that feminist theorists have developed to explicate the known world Featuring leading feminist theorists from diverse regions of the globe this collection delves into fifty subject areas demonstrating the complexity of feminist challenges to established knowledge while also engaging areas of contestation within feminist theory      Racism- philosophic probe Okolo,      **African Intellectual Heritage** Abu Sharrow

Third Series* Library of Congress. Copyright Office, 1976      *On Race and Racism in America* Roy Martinez, 2010-01-01 Given the racial complexity of the United States not to mention the racism of its foundations and its persistence why is it that the most influential white philosophers have not addressed the issue of race its social construction and myth and the problems it raises on a daily basis To answer this question Roy Martinez the editor of this volume solicited

contributions from eight of the most significant American philosophers working in the Continental and American pragmatist philosophical traditions But there is no one answer each contributor has a distinct perspective on the problem and provides an answer reflecting that perspective Some approach the question in a personal manner by reflecting on how race has affected their own lives Others resort to meta analyses of features of philosophy as a discipline that account for its relative blindness to issues of race Together they shed light on an anomaly that distinguishes philosophy from the other humanities as well as the social sciences a relative lack of attention to race compared with class and gender and thus help us better understand how the mental frameworks within which scholars operate can lead to differences in the subjects they take an interest in analyzing Aside from the editor the contributors are John D Caputo David Couzens Hoy John Ladd Joseph Margolis Ladelle McWhorter Shannon Sullivan Georgia Warnke and Cynthia Willett

**Racial Theories in Social Science** Sean Elias,Joe R. Feagin,2016-04-14 Racial Theories in Social Science A Systemic Racism Critique provides a critique of the white racial framing and lack of systemic racism analysis prevalent in past and present mainstream race theory As this book demonstrates mainstream racial analysis and social analysis more generally remain stunted and uncritical because of this unhealthy white framing of knowledge and evasion or downplaying of institutional structural and systemic racism In response to ineffective social science analyses of racial matters this book presents a counter approach systemic racism theory The foundation of this theoretical perspective lies in the critical insights and perspectives of African Americans and other people of color who have long challenged biased white framed perspectives and practices and the racially oppressive and exclusionary institutions and social systems created by whites over several centuries

**Another white Man's Burden** Tommy J. Curry,2018-11-27 Winner of the 2020 Josiah Royce Prize in American Idealist Thought presented by the Josiah Royce Society Another white Man s Burden performs a case study of Josiah Royce s philosophy of racial difference In an effort to lay bare the ethnological racial heritage of American philosophy Tommy J Curry challenges the common notion that the cultural racism of the twentieth century was more progressive and less racist than the biological determinism of the 1800s Like many white thinkers of his time Royce believed in the superiority of the white races Unlike today however whiteness did not represent only one racial designation but many Contrary to the view of the British born Germanophile philosopher Houston S Chamberlain for example who insisted upon the superiority of the Teutonic races Royce believed it was the Anglo Saxon lineage that possessed the key to Western civilization It was the birthright of white America he believed to join the imperial ventures of Britain to take up the white man s burden To this end he advocated the domestic colonization of Blacks in the American South suggested that America s xenophobia was natural and necessary to protecting the culture of white America and demanded the assimilation and elimination of cultural difference for the stability of America s communities Another white Man s Burden reminds philosophers that racism has been part of the building blocks of American thought for centuries and that this must be

recognized and addressed in order for its proclamations of democracy community and social problems to have real meaning

**Philosophy, Black Film, Film Noir** Dan Flory, 2008-01-01 Examines how African American as well as international films deploy film noir techniques in ways that encourage philosophical reflection Combines philosophy film studies and cultural studies Provided by publisher

**Race as Phenomena** Emily S. Lee, 2019-07-09 This book introduces and explores the relation between race and phenomenology through varied African American Latina Asian American and White American perspectives Phenomenology is best known as a descriptive endeavor to more accurately describe our experience of the world These essays examine the ways in which this relation between phenomenology and race acts as a site of racial meaning Philosophy of race conceives race as a social construction Because of the sedimentation of racial meaning into the very structure and practices of society the socially constructed meanings about features of the body are mistaken as natural Hence although racial meaning is theoretically recognized as socially constructed during an every day interaction racial meaning is mistaken as inevitable and natural Ideal for advanced students in phenomenology and philosophy of race this volume pushes the phenomenological method forward by exploring its relation to questions within philosophy of race
