Racism The Inevitable In America:

Racism Albert J. Wheeler, 2005 Of all mankind's vices racism is one of the most pervasive and stubborn. Success in overcoming racism has been achieved from time to time but victories have been limited thus far because mankind has focused on personal economic gain or power grabs ignoring generosity of the soul. This bibliography brings together the literature.

Racism and Sexual Oppression in Anglo-America Ladelle McWhorter, 2009-03-26 Does the black struggle for civil rights make common cause with the movement to foster queer community, protest anti-queer violence or discrimination and demand respect for the rights and sensibilities of queer people? Confronting this emotionally charged question, Ladelle McWhorter reveals how a carefully structured campaign against abnormality in the late 19th and early 20th centuries encouraged white Americans to purge society of so-called biological contaminants: people who were poor, disabled, black or queer. Building on a legacy of savage hate crimes such as the killings of Matthew Shepard and James Byrd, McWhorter shows that racism, sexual oppression and discrimination against the disabled, the feeble and the poor are all aspects of the same societal distemper and that when the civil rights of one group are challenged so are the rights of all.

Race in the Mind of America Paul L. Wachtel, 2012-10-12 Internationally recognized psychologist Paul L. Wachtel sheds new light on the psychological foundations of our nation's racial impasse and applies his pathbreaking vicious circle approach to help resolve it. This timely and fascinating analysis shows how the ways we attempt to cope with racial tensions and inequalities often lead to the perpetuation of our difficulties rather than their resolution. Understanding the ironies that characterize contemporary race relations is the first step toward extricating our nation from the vicious circle. Both controversial and healing, *Race in the Mind of America* challenges the orthodoxies that shape black and white opinion and liberal and conservative policies while sensitively exploring the way the world looks to both sides and why it looks that way. Wachtel probes the daily experiences of blacks and whites, shedding new light on how individual experiences and larger social, historical and economic forces continually re-create each other. In illustrating how blacks and whites get caught in vicious circles that sustain the very behaviors and attitudes they wish would change, Wachtel also points toward the concrete solutions to our seemingly enduring dilemmas and shows how to move beyond the adversarial rhetoric that divides us.

Trump and the Protestant Reaction to Make America Great Again Matthew Rowley, 2020-11-01 This book explores how polarised interpretations of America's past influence the present and vice versa. A focus on competing Protestant reactions to President Trump's 'Make America Great Again' slogan evidences a fundamental divide over how America should remember historical racism, sexism and exploitation. Additionally, these Protestants disagree over how the past influences present injustice and equality. The 2020 killing of George Floyd forced these rival histories into the open. Rowley proposes that recovering a complex view of the past, confessing the bad and embracing the good might help Americans have a shared memory that can bridge polarisation and work to secure justice and equality. An accessible and timely book, this is essential.
