Doris Lessing Carey Kaplan, Ellen Cronan Rose, 1988 Long neglected by the academic world because of her rejection of belletristic values and resistance to convenient literary taxonomy Doris Lessing has nonetheless built an international following of serious dedicated readers Acknowledging the difficulties posed by the multiple dimensions of Lessing's work Kaplan and Rose have gathered eleven essays that address her artistic philosophical political and psychological complexity and so provide a welcome introduction to the extraordinary depth and diversity of this important contemporary novelist Lessing has been described as an alchemical writer in that her work is directed toward changing people's lives and perceptions rather than simply recording experience Accordingly the contributors examine her various postures and tactics for the purpose of discovering how the alchemical elements inform her various personae Frederick C Stern discusses Lessing's commitment to radical humanist thought while Carey Kaplan examines how Lessing's imperialist past has shaped her futuristic fiction Elizabeth Abel offers a feminist interpretation of the pattern of brother-sister incest in Lessing's work showing how Lessing has established Antigone as a female alternative to the Oedipal myth of male incest Particularly insightful is Eve Bertelsen's report of her interview with Lessing demonstrating how Lessing's often evasive style of adversarial dialogue works in concert with her refusal to be conveniently pigeonholed by academic analysis For those readers new to her work Doris Lessing *The Alchemy of Survival* will serve as a useful introduction to Lessing's concerns and techniques Those who have long admired her writing will find in this collection new keys to understanding Lessing's philosophical political and psychological complexity

BOOK JACKET

Liberty, Equality, Maternity Alison Fell, 2017-12-02 The concept of motherhood emerges strongly in the writings of Simone de Beauvoir Violette Leduc and Annie Ernaux whose work is examined here in the light of current debates about women's reproductive function and the longstanding glorification of the mere au foyer in France driven by fear of a falling population In this interdisciplinary study of twentieth century French women's writing Fell uncovers tensions at the heart of the literary critique She shows these authors challenging the patriarchal view of motherhood as the sole justification for a woman's existence while at the same time confronting the conflict inherent in their relationship with their own mothers A survey of theoretical and historical material demonstrates vividly that the changing concept of motherhood remains a problematic and highly contentious issue for French feminists whether writing in 1940 or 1999
