Rethinking Security In Post Cold War Europe:

Rethinking Security in Post-Cold-War Europe William Park, G. Wyn Rees, 2014-06-11 Provides a survey of the principal items on the agenda following the end of the Cold War focusing upon the institutions and regions where the reconsideration of security issues has been particularly profound The book is organised into three main sections the first examines the changed roles of the main security institutions which have survived the Cold War NATO the European Union Western European Union and the Organisation for Security and Cooperation in Europe The second analyses the Central European countries Russia and States of the former Soviet Union in terms of their ideologies political structures and relationships of the Cold War period Lastly the text examines the northern and southern regions of Europe where quite different perspectives and agendas are concerned Regional Peacekeeping in the Post-Cold War Era Hilaire McCoubrey, Justin

Morris, 2021-09-06 *The Kosovo crisis and the evolution of a post-Cold War European security* Martin A Smith, Paul Latawski, 2013-07-19 This electronic version has been made available under a Creative Commons BY NC ND open access license Analyses the international response to the crisis in Kosovo and its broader implications by examining its diplomatic military and humanitarian features Unravelling these implications can be challenging as it remains an event replete with paradoxes the originality of this book's approach lies in its exploration of these paradoxes The crisis in Kosovo has been a headline grabbing event a serious study of the implications of the conflict on wider European security issues and institutions is urgently required *European Security in the Twenty-First Century* Adrian Hyde-Price, 2007-02-12 Combining a sophisticated theoretical analysis with detailed empirical case studies this book provides an original view of the challenges and threats to a stable peace order in Europe The end of Cold War bipolarity has transformed Europe Using structural realist theory Adrian Hyde Price analyzes the new security agenda confronting Europe in the twenty first century Europe he argues is not primed for peace as mainstream thinking suggests rather it faces new security threats and the challenge of multipolarity This critical and original volume looks at European security after the Iraq War the failure of the EU constitution and the change of government in Germany Reflecting on the inherently competitive and tragic nature of international politics it concludes that realism provides the only firm foundations for an ethical foreign and security policy European Security in the Twenty First Century will appeal to students and scholars of international relations European politics and security studies

A New Euro-Mediterranean Cultural Identity Stefania Panebianco, 2004-08-02 The Euro Mediterranean Partnership was formed in 1995 in Barcelona In this volume concepts of democracy civil society human rights and dialogue among civilizations in the Mediterranean region are addressed in the context of the new Euro Mediterranean Partnership Torn between East and West Iulian Chifu, Simona Tutuianu, 2016-08-05 This book is a very timely account of the legal economic and political consequences for border states caught in the current tug of war between the West and Russia The Ukraine crisis of 2014 focused policy makers attention on a geographical area full of dangers that had gone relatively unnoticed since

the breakup of the Soviet Union namely the security dynamics of the border states of Eastern Europe and the Black Sea Twenty five years after the collapse of the Soviet Union a strong Russia returns alternatively threatening and cajoling but at risk itself of suffering economic injury from western reprisals over its nostalgia for the map drawn at Yalta That conflict which hotted up over the Ukraine was soon being played out over and in the air space over Syria and Turkey while the border states themselves are likely to be drawn into the European refugee crisis and have the potential after the 2015 Paris atrocities to be breeding grounds for international terrorists This groundbreaking book contains prescient warnings that must be heeded by leaders and diplomats on both sides of the East West divide **Peace without Politics? Ten Years of**

State-Building in Bosnia David Chandler,2013-09-13 Ten years on from the signing of the Dayton Peace Agreement in November 1995 the legacy of the Bosnian war still shapes every aspect of the political social and economic environment of the tiny state This state of affairs is highlighted by the fact that Bosnia is still under international control with the Office of the International High Representative regularly using its powers to dismiss elected presidents prime ministers and MPs and to impose legislation over the resistance of elected legislatures at national regional and local level What has changed in the ten years since Dayton Is international regulation helping to establish a sustainable peace in Bosnia What lessons can be learned for nation building in Bosnia This volume was previously published as a special issue of the leading journal International Peacekeeping

Foreign and Security Policy of the European Union Fraser Cameron,1999-11-01 The book provides an overview of the efforts to develop a Common Foreign and Security Policy CFSP for the European Union It covers the attempts to create a European Defence Community in the 1950s the establishment of the system of European Political Cooperation EPC in the 1970s and the renewed drive for a CFSP culminating in the treaties of Maastricht and Amsterdam The book assesses the CFSP in operation discusses the EU response to the Bosnia and Kosovo crises and offers some challenging proposals for the future development of the CFSP in light of the enlargement of the Union This title is published in conjunction with UACES the University Association for Contemporary European Studies UACES web site can be found at www.uaces.org *The New Security Concept and German-French Approaches to the European "Pillar of Defence," 1990-2000* Siret Hürsoy,2002 A historic opportunity without precedent is gradually becoming reality in the 21st Century with the chance taken to pave the way in the period 1990 2000 towards the organisation of defence in Europe The corresponding conditions have been brought about by concrete steps taken at the Maastricht Amsterdam Cologne Helsinki and Nice European Council meetings In the end the EU WEU is developing into an equal partner to the US by assuming greater responsibility in the security and defence sphere The French and German bilateral relationship which is the driving force behind every European integration process is the historical force behind this development of the ultimate desire to reach a robust European Pillar of Defence through reconfiguration of the transatlantic relationship This book provides the first comprehensive and up to date analysis of German and French approaches to the European Pillar of Defence from the view of

Europeanisation emanating from the process of integration **NATO: Does it Still Fulfil an Important Function?** Saghir Iqbal, 2018-08-10 When NATO was founded in 1949 it had a clearly defined role The demise of the Cold War the disintegration of the Soviet Union and the collapse of communism in the period from 1989 to 1991 called into question NATO's future role and its continued existence The primary role was called into question over its future relevance in the post Cold War world The reason for NATO was essentially a military alliance to deter Soviet and Warsaw Pact aggression however once the threat had finished its role had been challenged by many academics and governments Many analysts felt that NATO was nothing more than an out of date alliance from the Cold War with no real future Others would say however that an organisation such as NATO was still crucial in the modern world to ensure that countries do not act unilaterally but co operate with allies In view of the situations NATO has managed to address new issues and adapt its roles on different levels

Securitization Revisited Michael J. Butler, 2019-07-23 This book seeks to interrogate how contemporary policy issues become securitized and furthermore what the implications of this process are A generation after the introduction of the concept of securitization to the security studies field this book engages with how securitization and desecuritization works within and across a wide range of security domains including terrorism and counter terrorism climate change sexual and gender based violence inter state and intra state conflict identity and memory in various geographic and social contexts Blending theory and application the contributors to this volume drawn from different disciplinary ontological and geographic spaces orient their investigations around three common analytical objectives revealing deficiencies in and through application s of securitization considering securitization through speech acts and discourse as well as other mechanisms and exposing latent orthodoxies embedded in securitization research The volume demonstrates the dynamic and elastic quality of securitization and desecuritization as concepts that bear explanatory fruit when applied across a wide range of security issues actors and audiences It also reveals the deficiencies in restricting securitization research to an overly narrow set of issues actors and mechanisms This volume will be of great interest to scholars of critical security studies international security and International Relations Chapter 6 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

The Palgrave Handbook of National Security Michael Clarke, Adam Henschke, Matthew Sussex, Tim Legrand, 2021-09-28 This handbook provides a comprehensive analysis of the contemporary theory practice and themes in the study of national security Part 1 Theories examines how national security has been conceptualised and formulated within the disciplines international relations security studies and public policy Part 2 Actors shifts the focus of the volume from these disciplinary concerns to consideration of how core actors in international affairs have conceptualised and practiced national security over time Part 3 Issues then provides in depth analysis of how individual security issues have been incorporated into prevailing scholarly and policy paradigms on national security While security now seems an all encompassing phenomenon one general

proposition still holds national interests and the nation state remain central to unlocking security puzzles As normative values intersect with raw power as new threats meet old ones and as new actors challenge established elites making sense out of the complex milieu of security theories actors and issues is a crucial task and is the main accomplishment of this book

European Union Policy towards the Arab-Israeli Peace Process C. Musu, 2010-02-12 What are the achievements the limits and the failures of the EU's involvement in the Arab Israeli conflict This book sets out to answer this question by analysing the development of European policy towards the conflict over the last forty years European Union Foreign Policy Hazel Smith, 2002-03-20 As the European Union is not a nation state it is not generally perceived to have a foreign policy However this book argues that quite the reverse is true that an overemphasis on procedure and structures has disguised the fact that the EU has a clear foreign policy that can be analysed in much the same way as that of the sovereign state Conventional assessments of the EU focus on the mechanisms institutions and treaties through which policies are implemented Smith shows how this can lead to a massive underestimation of the capacities of the EU Rather than concentrating on how the policy of the EU is made Smith investigates the action that it has engaged in abroad and the nature of its diverse global interventions in relation to the United States and the industrialised North the various regions of the South and most recently its huge involvement in east and central Europe and the entire European continent Developing a pathbreaking analysis of the nature of EU foreign policy this comprehensive account shows how the EU can be very effective indeed in promoting its own domestic interests abroad Migration, Regional Integration and Human Security Harald Kleinschmidt, 2017-03-02 This original and timely book is the first to analyze the interconnectedness of migration regional integration and the new security studies Exploring the conflict between the actions of transnational migrants and state government policy in a series of theoretical chapters and regional case studies the book includes theoretical chapters which look at three key facets of the nation state population territory and government discussing the ways in which migration regional integration and new security thinking challenge the accepted role and responsibilities of the state Regional case studies are also included which explore the specific challenges faced in regions including Central America Asia and the Pacific and Central and Eastern Europe As a book that asks crucial questions about the formulation of migration policies and the consequences of that success or failure it will be essential reading for students and scholars of migration in sociology politics and international relations and also for those with professional interests in the area **Where is Nato Going?** Martin Smith, 2013-09-13 Since the end of the Cold War and especially since September 11 2001 the future of NATO has been the subject of intense debate This book brings together a group of international relations specialists in order to offer fresh perspectives on the Alliance's current and future purposes and roles Rather than revisiting long standing debates in areas such as NATO enlargement the contributors focus instead on relevant contemporary issues These include the prospects for NATO going global NATO's role in the US led war on terror and the challenges posed by the transatlantic capabilities gap and the

emergence of a military dimension to the European Union The paradox facing NATO today is that whilst it is busier than it has ever been before it still does not appear to many observers to have found a viable core role or roles in the contemporary international security arena By exploring key issues and debates on NATO s current agenda this book helps us to better understand the prospects for its long term survival and viability This book was previously published as a special issue of the leading journal Contemporary Security Policy The Emerging Euro-Mediterranean System Dimitris Xenakis,Dimitris N. Chrysoschoou,2001 Focusing on the principal challenges facing the Euro Mediterranean partnership since the signing of the Barcelona Declaration in November 1995 this study assesses past European policies towards the region **Peace Without Politics?** David Chandler,2006 This edited collection brings together policy specialists and academics from the UK Europe the US and Canada to assess and analyse lessons from ten years of nation building in Bosnia New World Order Mark Poynter,2015-05-11 Examines the geopolitical developments which have taken place since the end of the Cold War and assesses the impact of Francis Fukuyama s e The End of Historye 1989 and the extent to which the spread of globalisation has shaped the New World Order **Aspects of Peacekeeping** Stuart Gordon,Francis Toase,2014-05-22 The nature of UN operational involvement in the practical management of conflict has evolved dramatically since the end of the Cold War The post Cold War liberation of the Security Council the subsequent paralysis in its decision making competence and the apparent dilution of the concept of sovereignty as a prohibition on intervention have been principal factors in the evolving fortunes of UK peace support operations This evolving environment has had profound implications for the way in which the humanitarian community the United Nations and military forces engaged under a UN flag have reacted to peace support operations This book explores contemporary peace support operations and examines many of the principal challenges that now confront those charged in different ways with bringing peace to war torn societies In particular this volume looks at the evolving nature of military UN and humanitarian non governmental organization s intervention in these complex conflicts It also explores how these organizations relate to one another and the way in which a division of labour is determined
