the first time a full analysis of the artist's entire sculptural oeuvre. Along with a comprehensive catalogue of Hermes sculpture, Jane Hill provides a full account of the artist's life in the context of her career as a sculptor. What results is a picture of a pioneering spirit who created busts and heads, functional designs, decorative work and reliefs that are dynamic and unpredictable. Featuring over 140 images, *The Sculpture of Gertrude Hermes* is a groundbreaking study of an artist so long associated with one art form. This book redresses the imbalance and creates a new and fresh perspective on an important female artist of the twentieth century. Publisher's website: [British Sculptors of the Twentieth Century](#) Alan Windsor, 2020-09-10. This title was first published 2003. In the twentieth century Britain was rich in artistic achievement, especially in sculpture. Just some of those working in this field were Jacob Epstein, Henri Gaudier, Brzeska, Henry Moore, Barbara Hepworth, Anthony Caro, Richard Long, Mona Hatoum and Anish Kapoor. The work of these and other known and less well-known artists has an astonishing variety and expressive power, a range and strength that has placed Britain at the hub of the artistic world. Alan Windsor has compiled a concise biographical dictionary of sculpture in Britain in book form. Richly informative and easy to use, this guide is an art lover's and expert's essential reference. Written by scholars, the entries are cross-referenced and each concise biographical outline provides the relevant facts about the artist's life, a brief characterization of the artist's work and where appropriate, major bibliographical references. [Architecture York](#) John Brooke Fieldhouse, 2022-01-11. You live in York, UK; you're thinking of paying a visit or you just like buildings. Then this new work from John Brooke Fieldhouse is a must-have. It's a guide book, but it's completely different; it's not what you'd expect from the city of Vikings, Romans, the medieval, the Civil War, the Georgians and the Victorians. It's about the twentieth century and later, right up to 2018. Its buildings, public and private, how they're designed, engineered, lit, heated, ventilated and not just buildings: there are 130 plus items, including bridges, a flood barrier, details like windows, seating, handrails, landscaping, paving, all the things we touch when we move through a city, the things that make us feel good or bad. It's 260 pages, 360 colour photographs, fifteen pages of indexes and an introduction consisting of unsentimental and unvarnished answers by the author to over 30 questions on the book and York. Answering questions and always asking more, it's not just the past; it's all about the present and the future. We spend most of our lives in buildings; they are art, science, psychology and politics, so it's essential we all have our own view about them.
