Sculpture From Found Objects:

Sculpture from Found Objects Carl Reed, Burt Towne, 1974 *The Art of Found Objects* Robert Craig Bunch, 2016-09-23

In this first book of interviews with visual artists from across Texas more than sixty artists reflect on topics from formative influences and inspirations to their common engagement with found materials. Beyond the art itself no source is more primary to understanding art and artist than the artist's own words. After all, who can speak with more authority about the artist's influences, motivations, methods, philosophies, and creations? Since 2010 Robert Craig Bunch has interviewed sixty-four of Texas' finest artists who have responded with honesty, clarity, and naturally great insight into their own work. None of these interviews has been previously published, even in part. Incorporating a striking full-color illustration of each artist's work, these absorbing self-examinations will stand collectively as a reference of lasting value.

Found Object in Textile Art Cas Holmes, 2010-09-20

Textile artists have always used found objects both for decoration and to imbue their work with meaning. Cas Holmes is renowned for her use of the found, and her many layered atmospheric pieces have been shown around the world. The practice differs from recycling in that the objects often remain themselves when they are incorporated into the work rather than being transformed into something else, and their original appearance being obliterated. The work is often conceived and built around the found object. The definition of found object can include a wide range of objects from natural materials such as driftwood and leaves to old bits of machinery and vintage fabrics. Mundane objects such as CD cases can be used to create stunning pieces of art, or more sentimental items such as old jewellery can lend deep meaning to a work. The book covers how to find objects, for example in the home, walking the streets, travel souvenirs. Types of found object including natural objects, man-made items, printed ephemera. Using found objects using little jewels to decorate work, making unusual frames, creating work within boxes. Creating surfaces with found objects, printing, layering, fusing, cutting, and stitch. This book contains a wealth of techniques and inspiration for incorporating found objects into your textile work.

Found Sculpture and Photography from Surrealism to Contemporary Art Julia Kelly, 2017-07-05

Taking its departure point from the 1933 surrealist photographs of involuntary sculptures by Brassa and Dalí, *Found Sculpture and Photography from Surrealism to Contemporary Art* offers fresh perspectives on the sculptural object by relating it to both surrealist concerns with chance and the crucial role of photography in framing the everyday. This collection of essays questions the nature of sculptural practice.

looking to forms of production and reproduction that blur the boundaries between things that are made and things that are found One of the book's central themes is the interplay of presence and absence in sculpture as it is highlighted, disrupted or multiplied through photography's indexical nature The essays examine the surrealist three dimensional object its relation to and transformation through photographs as well as the enduring legacies of such concerns for the artwork's materiality and temporality in performance and conceptual practices from the 1960s through the present Found Sculpture and Photography sheds new light on the shifts in status of the art object challenging the specificity of visual practices pursuing a radical interrogation of agency in modern and contemporary practices and exploring the boundaries between art and everyday life

Sculpture Michael Dunn,2002 This work charts the growth of sculpture in this former British colony from the era of British imports through a period of strong British influence to the more confident art of the 20th century using a wider set of sources and materials and more personal forms of expression **Modern/Postmodern** Silvio Gaggi,2015-08-10 Silvio Gaggi s survey of the vast terrain of twentieth century arts and ideas is unique not only for its scope but also for the clarity and cohesiveness it brings to wide ranging seemingly disparate works By identifying underlying epistemological aesthetic and ethical issues Gaggi draws connections among such modern and postmodern masterpieces as Pirandello s and Brecht s theater Fowles s and Barth s fiction Warhol s paintings Godard s and Bergman s films and Derrida s literary theory Modern Postmodern begins with a discussion of the profound skepticism about traditional beliefs and about our ability to know the self that lies at the heart of both modernism and postmodernism Gaggi identifies the modernist response to this doubt as the rejection of mimesis in favor of a purely formalistic or expressionistic art The postmodern response on the other hand is above all to create art that is self referential concerned with art itself the history of art or its processes Drawing from the work of Piranadello and Brecht paradigms that can be applies to many different art works Gaggi emphasizes how these works from diverse media relate to one another and what their relationships are to the contemporary artistic and philosophical climate He concentrates on the works themselves but examines theory as a parallel manifestation of the same obsessions that inform recent literature and art Gaggi asks finally if self referential art can also be politically and ethically engaged with the reality outside it He concludes that the postmodern obsession with language narrativity and artifice is not necessarily a decadent indulgence but is at its best an honest inquiry into the problems questions and paradoxes of language Modern Postmodern is a lively approach to postmodern art that will interest all students and scholars of contemporary art and literature **Painting and Sculpture in Europe, 1880-1940** George Heard Hamilton,1993-01-01 This new edition of a book that offers the best available grounding in its huge subject as the Sunday Times called it includes color plates and a
