McNiven, 2018-10-17 Rock art is one of the most visible and geographically widespread of cultural expressions and it spans

much of the period of our species existence Rock art also provides rare and often unique insights into the minds and visually creative capacities of our ancestors and how selected rock outcrops with distinctive images were used to construct symbolic landscapes and shape worldviews Equally important rock art is often central to the expression of and engagement with spiritual entities and forces and in all these dimensions it signals the diversity of cultural practices across place and through time Over the past 150 years archaeologists have studied ancient arts on rock surfaces both out in the open and within caves and rock shelters and social anthropologists have revealed how people today use art in their daily lives The Oxford Handbook of the Archaeology and Anthropology of Rock Art showcases examples of such research from around the world and across a broad range of cultural contexts giving a sense of the art s regional variability its antiquity and how it is meaningful to people in the recent past and today including how we have ourselves tended to make sense of the art of others replete with our own preconceptions It reviews past present and emerging theoretical approaches to rock art investigation and presents new cutting edge methods of rock art analysis for the student and professional researcher alike

Dreaming Red Linda Pace, Jan Jarboe Russell, Eleanor Heartney, Kathryn Kanjo, 2014-11-17 Since its founding in 1993 by the late Pace Foods heiress Linda Pace Artpace has become one of the premiere foundations for contemporary art An artist residency program based in San Antonio Texas Artpace s goal is to give artists time and space in which to imagine new ways to work Each year nine artists three from Texas three from other areas of the United States and three from abroad are invited to the foundation to create new work Selected by guest curators the likes of Robert Storr and Okwui Enwezor the list of artists who have undertaken residencies at ArtPace is impressive prescient and diverse including Felix Gonzalez Torres Annette Messager Tracey Moffatt Xu Bing Nancy Rubins Cornelia Parker Inigo Manglano Ovalle Glenn Ligon Kendell Geers Carolee Schneemann Mona Hatoum Isaac Julien Arturo Herrera and Christian Jankowski Dreaming Red includes illustrations of all the works created at ArtPace since its inception an essay by art historian Eleanor Heartney short essays on selected artists by the guest curators including Cuauhtemoc Medina Lynne Cooke Chrissie Iles and Judith Russi Kirshner and a lengthy essay on the personal history of the foundation and its founder *The International Minimum Standard and Fair and Equitable Treatment* Martins Paparinskis, 2013-01-31 Investment protection treaties generally provide for the obligation to treat investments fairly and equitably even if the wording of the rule and its relationship with the customary international standard may differ The open textured nature of the rule the ambiguous relationship between the vague treaty and equally vague customary rules and States interpretations of the content and relationship of both rules not to mention the frequency of successful invocation by investors make this issue one of the most controversial aspect of investment protection law This monograph engages in a comprehensive analysis of the relationship between the international minimum standard and fair and equitable treatment It provides an original argument about the historical development of the international standard a normative rationale for reading it into the treaty rules of fair and equitable treatment and a coherent methodology for establishing the content of this standard The first part of this book untangles the history of both the international minimum

standard and fair and equitable treatment The second part addresses the normative framework within which the contemporary debate takes place After an exhaustive review of all relevant sources it is argued that the most persuasive reading of fair and equitable treatment is that it always makes a reference to customary law The third part of the book builds on the historical analysis and the normative framework explaining the content of the contemporary standard by careful comparative human rights analysis
