conflict particularly between the perspectives of those working within the industry and the civil servants working outside of it but the interviews are presented as a unit and the reader is encouraged to draw their own conclusion The result is a unique historical archive that offers a multitude of firsthand perspectives on the British shipping decline open to interpretation by historians and future researchers It includes a preface introduction and select bibliography The interviews are grouped together by location and role Shipping World & Shipbuilder ,1976 *Why are the British Bad at Manufacturing?* Karel Williams,John Williams,Dennis Thomas,2018-01-12 This book first published in 1983 offers a new explanation for the poor performance of British manufacturing since 1950 Rather than invoke orthodox economic theory or general social factors the book analyses four national conditions enterprise control over the labour process market structure and the composition of demand the relation of manufacturing enterprise to financial institutions like banks and stock exchanges and the relation of manufacturing enterprise to government **Ships Monthly** ,2005 Journal of Abstracts of the British Ship Research Association British Ship Research Association,1976 Consists largely of abstracts of articles and papers of interest to shipbuilders ship owners and marine engineers **Southern Africa Shipping News** ,2004 Marine News ,2001
