SDI and Industrial Technology Policy Walter Zegveld, Christien Enzing, 1987 Om de industrielle policyaspekter af stjernekrigsprojektet Konklusionen er at Europa forventedes at f mindre gavn af den nye teknologi The Strategic Defense Initiative Edward Reiss, 1992-07-23 This history of the Strategic Defense Initiative ranges across politics economics strategic studies and international relations and provides the latest research into the SDI interest groups the distribution of contracts and the politics of influence It discusses the wider contexts of Star Wars such as alliance management marketing and domestic politics and its military spin offs especially for anti satellite ASAT and space control programmes The author tests the theoretical literature on the dynamics of the arms race by using SDI as a case study and draws evidence from sources such as congressional hearings interviews the trade press restricted briefing papers and documents obtained under the US Freedom of Information Act The book follows the fortunes of strategic defence into the changed global conditions of the 1990s following the collapse of the Soviet bloc the Gulf War and President Bush s announcement of a refocused SDI the Global Protection Against Limited Strikes GPALS *Bulletin of the Atomic Scientists* ,1987-06 Military Production and Innovation in Spain Jordi Molas-Gallart, 1992 Military Production and Innovation in Spain extends the scope beyond the traditional analysis of arms producers to include components and sub systems manufacturers It combines a description of the changes experienced by Spanish military production with an analysis of its deeply rooted structural characteristics The book provides an in depth exploration of the Spanish military related industry its links with the rest of the economy and its potential role as a technological engine for the Spanish economy *Space* ,1990 *The Economics of Defence, Disarmament, and Peace* Keith Hartley, Nick Hooper, 1990 This major reference work is a comprehensive critical guide to the large and growing literature on the economics of defence disarmament and peace It covers the cost of defence spending and its effects on growth investment unemployment technical change and other aspects of a nation s economic performance It includes material on the determinants of defence spending namely defence budgets programme budgeting and procurement policy It also deals with the economic impact of arms limitation disarmament and the conversion from military production to products with peaceful uses **Special Reference Briefs** ,1983 *Ballistic Missile Defense In The Post-cold War Era* David B H Denoon, 2021-11-28 With the end of the Cold War and the visibility of U S Patriot missile defenses during the 1991 Gulf War the cost and benefits of ballistic missile defense systems BMD need to be re evaluated In this detailed and balanced study David Denoon assesses new types of short range and intercontinental missile defenses In the post Cold War era two fundamental changes have made missile defense for the United States and its military forces more compelling The United States and Russia no longer see each other as direct threats and there has been a dramatic proliferation of ballistic missile capability in the Third World Consequently U S forces deployed overseas are more likely to be at risk and eventually the United States itself could become vulnerable to missile threats With these changes in mind David Denoon analyzes the

current BMD dilemma arguing that active defenses against missiles should be seen as a form of insurance against catastrophe He assesses the likelihood of missile attacks and the appropriate level of investment for the United States to defend against such attacks The book provides an assessment of deterrence and the performance of the Patriot missiles during the 1991 Gulf War critiques the Strategic Defense Initiative and analyzes the prospects for new types of short range and intercontinental missile defenses

Redeemer Nation Orrin Schwab, 2004 In this book Dr Orrin Schwab develops the concept of the modern technocratic state as part of a global technocratic culture and civilization The author argues that technocratic cultural and institutional forms were and are part of a collective script for Western culture The American script combined the scientific commercial and technological aspects of the Enlightenment with the radical 17th century Protestant belief in America as a new Zion In the twentieth century the synthesis of mission along with global technocratic knowledge and institutions created the Wilsonian liberal technocratic order As the principal agent and protector of the modern capitalist international system America the self defined Redeemer Nation has moved through the controlled anarchy of international relations from one war and crisis to the next confirmed in its self defined role and mission
