A California sea lion shoots above the ocean's surface. Suddenly, there is another, and then a third one racing through the water. The sea lions are speeding toward one of their favorite places to dive for clams. Then things get scary. A gigantic great white shark bursts out of the water. The sea lions' hunting trip has just turned into a race for their lives. Young readers will explore the underwater world of these beautiful marine mammals through clear text, full-color photos, and diagrams. Age-appropriate activities such as researching how California sea lions compare to other pinnipeds give readers a chance to make observations and to develop animal science skills *Listening to Sea Lions* Sarah Keene Meltzoff, 2012-12-15
From the Galapagos to the depths of Patagonia and up along the stark desert coast of Chile, *Listening to Sea Lions* empathic ethnography carries the reader directly into the heart of the ocean world of Latino coastal people. Sea lions are the fellow denizens in nature who share the perpetual changes and are seen as metaphoric selves. Meltzoff uses storytelling rather than explicit theory to help explain local struggles and survival strategies wrought by extreme El Niño events and shifting political climates. Embedded within the six multi-sited ethnographies are global themes in coastal communities: from boom and bust fisheries to the rivalries among fisheries, tourism, conservation interests. The overall picture is sea change and impermanence as a local way of life by the ocean.
