Maritime Technology and Engineering 5 Volume 1 Carlos Guedes Soares, 2021-07-08 This set of two volumes comprises the collection of the papers presented at the 5th International Conference on Maritime Technology and Engineering MARTECH 2020 that was held in Lisbon Portugal from 16 to 19 November 2020 The Conference has evolved from the series of biennial national conferences in Portugal which have become an international event and which reflect the internationalization of the maritime sector and its activities MARTECH 2020 is the fifth of this new series of biennial conferences The set comprises 180 contributions that were reviewed by an International Scientific Committee Volume 1 is dedicated to maritime transportation ports and maritime traffic as well as maritime safety and reliability It further comprises sections dedicated to ship design cruise ship design and to the structural aspects of ship design such as ultimate strength and composites subsea structures as pipelines and to ship building and ship repair

Economics of Maritime Business Shuo Ma, 2020-06-02 This book provides a comprehensive introduction to the economics of the business of maritime transport It

provides an economic explanation of four aspects of maritime transport namely the demand the supply the market and the strategy The book first explains why seaborne trade happens and what its development trends are it then analyses the main features of shipping supply and how various shipping markets function the book finally addresses the critical strategic issues of the shipping business The full range of different types of shipping are covered throughout the chapters and cases The book combines the basic principles of maritime transport with the modern shipping business and the latest technological developments particularly in the area of digital disruption The ideas and explanations are supported and evidenced by practical examples and more than 160 tables and figures The questions posed by the book are similar to those that would be asked by the students in their learning process or the professionals in the business environment with the answers concentrating on the reasons for what has happened and will happen in the future rather than merely fact telling or any specific forecast The book is most suited for students of shipping related disciplines and is also a valuable reference for maritime professionals

Shipping Innovation N. Wijnolst, Tor Wergeland, Kai Levander, 2009 There were not many textbooks on shipping available for the students in the early 1990s Therefore it was decided to write Shipping in 1996 One year earlier Niko Wijnolst had published Design Innovation in Shipping based on work at the Delft University of Technology The two books together offered a comprehensive insight and overview into the dynamics of global shipping and maritime innovation Although the core of the books held its value it was decided to make an update of the two books and merge them into one new textbook Shipping Innovation destined for a broad spectre of maritime students and professionals Some substantial new parts were added as well as some new contributions by other writers This textbook offers a one stop shopping experience to those students and professionals who wish to get acquainted with the multifaceted aspects of global shipping and its everlasting innovation dynamics Some of the new contributions are the mission based design process of a Panamax containership and a ro ro vessel sustainable shipping and innovation and an innovation case study on the revolutionary design of a ballast free ship Shipping Innovation is a remarkable book It deserves to become a standard text for students and professionals alike combining as it does both commercial and technical topics into one coherent whole Paul

Gunton Fairplay co uk Lloyd George at War, 1916-1918 George H. Cassar, 2011 Lloyd George at War 1916 1918 refutes the traditional view that Lloyd George was the person most responsible for winning the Great War Cassar s careful analysis shows that while his work on the home front was on the whole good he was an abysmal failure as a strategist and nearly cost Britain the war Shipping and Logistics Management Yuen Ha (Venus) Lun, Kee Hung Lai, Tai Chiu Edwin
