Seal Folk Ocean Paddlers:

Seal-folk and Ocean Paddlers John MacAulay, 1998 Foremost in Scottish Hebridean tradition are the tales of the sea folk seals who could assume human form but could not return to the sea without their sealskin belts Against the background of such beliefs the fact of strange people in kayaks being occasionally seen around the islands off the north and west of Scotland was probably not worth special mention until travellers from the mainland heard of these sightings in the 17th and 18th centuries This study draws together historical fact and maritime folklore to reveal some spellbinding mysteries of the ocean involving seals and kayaks Norse ancestry and the children of the seal **The Magic of the Seal** Melanie Godfrey, 2024-07-26 This book will take you on a journey to awaken a spiritual relationship with the seal familiarizing you with the seal's anima as well as its history with the Gaelic ancestors of the British Isles The Clan of the Seal on North Uist and the traditional oral storytellers were the transmitters and custodians of folklore who told tales about the kindly selchie and revered seals as sacred akin to their own family The gentle seal will help reclaim what is lost within as we remember our Celtic heritage and identity in this fragile world Seal lore teaches valuable lessons in integrity and kindness and ignites our imagination leading us to the seal's inner landscape of presence and peace inevitably towards our own inner peace This is the magic of the seal not lost but found The Pirate Queen Barbara Sjöholm, 2015-04-07 The Pirate Queen begins in Ireland with the infamous Grace O'Malley a ruthless pirate and scourge to the most powerful fleets of sixteenth century Europe This Irish clan chieftain sea captain and pirate queen was a contemporary of Elizabeth I a figure whose life is the stuff of myth Regularly raiding English ships caught off Ireland's west coast O'Malley was purported to have fought the Spanish armada just hours after giving birth to her son She had several husbands in her lifetime and acquired lands and castles that still dot the Irish coastline today But Grace O'Malley was not alone Since ancient times women have rowed and sailed commanded and fished built boats and owned fleets As pirate captain's wives lighthouse keepers and sailors in disguise they've explored coastlines and set off alone across unknown seas Yet their incredible contributions have been nearly erased from the history books In The Pirate Queen Barbara Sjöholm brings some of these extraordinary women back to life taking the reader on an unforgettable journey from the wild Irish coast to the haunting Scandinavian fjords in this meticulously researched colorfully written and truly original work Boatlines Ian Stephen, 2023-03-02 People are drawn to the harbours and boats of Scotland whether they have a seafaring background or not Why do boats take on different shapes as you follow the complex shorelines of islands and mainland And why do the sails they carry appear to be so many shapes and sizes Then there are rowing craft or power driven vessels which can also be considered classics whether they were built for work or leisure As he traces the iconic forms of a selection of the boats of Scotland Ian Stephen outlines the purposes of craft past and present to help gain a true understanding of this vital part of our culture Sea conditions likely to be met and coastal geography are other factors behind the designs of a wide variety of craft Stories go with boats The vessels are not

seen as bare artefacts without their own soul but more like living things A writer uniquely attuned to the water and to the relationships each boat shares with the places it shaped his stories restore past sea roads and river routes to life David Gange author of *The Frayed Atlantic Edge* Mysterious Creatures George M. The group of story tellers set off to the Orkney Islands and an ancient mystery unravels Cover Western Isles Folk Tales Ian Stephen, 2014-10-01 Western Isles Folk Tales is a representative collection of stories from the geographical span of the long chain of islands known as the Outer Hebrides Some are well known tales and others have been sought out by the author but all are retold in the natural voice of a local man You will find premonitions accounts of uncanny events and mythical beings such as the blue men of the stream who test mariners venturing into the tidal currents around the Shiant Islands Also included are tales from islands now uninhabited like the archipelago of St Kilda in contrast to the witty yarns from bustling harbours The author was the inaugural winner of the Robert Louis Stevenson Fellowship 1995 and his Acts of Trust collaboration with visual artist Christine Morrison won the multi arts category in the first British Awards for Storytelling Excellence 2012 Both author and illustrator live in Stornoway Isle of Lewis *The Sea House* Elisabeth Gifford, 2014-04-15 In 1860 Alexander Ferguson a newly ordained vicar and amateur evolutionary scientist takes up his new parish a poor isolated patch on the remote Scottish island of Harris He hopes to uncover the truth behind the legend of the selkies mermaids or seal people who have been sighted off the north of Scotland for centuries He has a more personal motive too family legend states that Alexander is descended from seal men As he struggles to be the good pastor he was called to be his maid Moira faces the terrible eviction of her family by Lord Marstone whose family owns the island Their time on the island will irrevocably change the course of both their lives but the white house on the edge of the dunes keeps its silence long after they are gone It will be more than a century before the Sea House reluctantly gives up its secrets Ruth and Michael buy the grand but dilapidated building and begin to turn it into a home for the family they hope to have Their dreams are marred by a shocking discovery The tiny bones of a baby are buried beneath the house the child's fragile legs are fused together a mermaid child Who buried the bones And why To heal her own demons Ruth feels she must discover the secrets of her new home but the answers to her questions may lie in her own traumatic past *The Sea House* by Elisabeth Gifford is a sweeping tale of hope and redemption and a study of how we heal ourselves by discovering our histories **Take Me to the River** Vicky Allan, Jackie Kemp, 2025-09-11 Immerse yourself in an ocean of great literature Gasp at the cold with Amy Liptrot Be transfixed by Iris Murdoch's monster rising from the waves Learn how to swim like the frogs with John Muir Come on dive in A selection of joyful immersive and life affirming writing about wild swimming From gentle dips in calm waters to fights for survival in stormy seas From the erotic charge of a streamlined body to moments of revelation amidst the waves *Take Me to the River* is an anthology not just of wild swimming writing but of stories of how a jump into deep waters can change us Open water swimming plays a pivotal role in many great narratives taking us on an immersive journey from Homer's *Odyssey* to contemporary poetry and memoirs There is adventure here and aquatic playfulness Grief and anguish too heartbreaks displaced and healed by watery spaces Love and desire spark between characters at the edge of the water as does freedom from constraint and the glorious energy of possibility and hope *Take Me to the River* entices with a dip into the deep sea of

Bailey,2018-05-01 Fish bones in the caves of East Timor reveal that humans have systematically fished the seas for at least 42 000 years But in recent centuries our ancient vital relationship with the oceans has changed faster than the tides As boats and fishing technology have evolved traditional fishermen have been challenged both at sea and in the marketplace by large scale fishing companies whose lower overhead and greater efficiency guarantee lower prices In Fishing Lessons Kevin M Bailey captains a voyage through the deep history and present course of this sea change a change that has seen species depleted ecosystems devastated and artisanal fisheries transformed into a global industry afloat with hundreds of billions of dollars per year Bailey knows these waters the artisanal fisheries and their relationship with larger ocean ecology intimately In a series of place based portraits he shares stories of decline and success as told by those at the ends of the long lines and hand lines channeling us through the changing dynamics of small scale fisheries and the sustainability issues they face both
