Twentieth Century Fiction George Woodcock, 1983-04-01

Redacted Jonathan Abel, 2012-09-13

At the height of state censorship in Japan more indexes of banned books circulated more essays on censorship were published more works of illicit erotic and proletarian fiction were produced and more passages were Xed out than at any other moment before or since As censors construct and maintain their own archives their acts of suppression yield another archive filled with documents on against and in favor of censorship The extant archive of the Japanese imperial censor 1923 1945 and the archive of the Occupation censor 1945 1952 stand as tangible reminders of this contradictory function of censors As censors removed specific genres topics and words from circulation some Japanese writers converted their offensive rants to innocuous fluff after successive encounters with the authorities But another coterie of editors bibliographers and writers responded to

censorship by pushing back using their encounters with suppression as incitement to rail against the authorities and to appeal to the prurient interests of their readers This study examines these contradictory relationships between preservation production and redaction to shed light on the dark valley attributed to wartime culture and to cast a shadow on the supposedly bright open space of free postwar discourse Winner of the 2010 2011 First Book Award of the Weatherhead East Asian Institute Columbia University Framing Blackness Ed Guerrero, 2012-06-20 A challenge to Hollywood's one dimensional images of African Americans **The Hell of War Comes Home** Owen W. Gilman Jr., 2018-02-09 Owen W. Gilman Jr stresses the US experience of war in the twenty first century and argues that wherever and whenever there is war there will be imaginative responses to it especially the recent wars in Afghanistan and Iraq Since the trauma of September 11 the experience of Americans at war has been rendered honestly and fully in a wide range of texts creative nonfiction and journalism film poetry and fiction These responses Gilman contends have packed a lot of power and measure up even to World War II's literature and film Like few other books Gilman's volume studies these new texts among them Kevin Powers's debut novel *The Yellow Birds* and Phil Klay's short stories *Redeployment* along with the films *The Hurt Locker* *American Sniper* and *Billy Lynn's Long Halftime Walk* For perspective Gilman also looks at some touchstones from the Vietnam War Compared to a few of the big Vietnam books and films this new material has mostly been read and watched by small audiences and generated less discussion Gilman exposes the circumstances in American culture currently preventing literature and film of our recent wars from making a significant impact He contends that Americans inclination to demand distraction limits learning from these compelling responses to war in the past decade According to Gilman where there should be clarity and depth of knowledge we instead face misunderstanding and the anguish endured by veterans betrayed by war and our lack of understanding *The Oxford Encyclopedia of American Literature* Jay Parini, 2004 The Encyclopedia of American Literature gathers together 350 essays from over 190 leading scholars on the whole of American literature from European discovery to the present At the core of the Encyclopedia lie 250 essays on poets playwrights essayists and novelists Figures such as Whitman Melville Faulkner Frost and Morrison are discussed in detail with each examined in the context of his or her times an assessment of the writer's current reputation a bibliography of major works and a list of major critical and biographical works about the writer Fifty entries on major works such as *Moby Dick* *Song of Myself* *Walden* *The Great Gatsby* *The Waste Land* *Their Eyes Were Watching God* *Death of a Salesman* and *Beloved* place the work in its historical context and offer a range of possibilities with regard to critical approach The Encyclopedia also contains essays on literary movements periods and themes pulling together a broad range of information and making connections between them Each entry has its own primary and annotated secondary bibliography and a system of cross references helps readers locate information with ease The Encyclopedia of American Literature is an outstanding reference source for students studying authors or particular pieces of literature libraries looking for one comprehensive source and readers interested in American literature its authors
