Longest Mission:

The Nimrods Roger D. Graham, Colonel, USAF-Retired, 2007-09-24 The Nimrods is an important new book for two reasons First it is an accurate true life story told by an A 26 navigator co pilot who flew 182 combat missions in the Vietnam War about a magnificent band of A 26 pilots and navigator co pilots who flew from 1966 to 1969 countless high intensity nighttime dive bombing missions in The Secret War in Laos Steel Tiger Barrel Roll and along the Ho Chi Minh Trail To illustrate the intensity of the dive bombing missions in the Vietnam War the writer describes in detail more than twenty separate unforgettable missions and more importantly the personalities and psychological reactions of all of the unforgettable characters who were a part of the 609th Special Operations Squadron Second the book is highly relevant to the current Wars in Iraq and Afghanistan and the Global War on Terror because it addresses the lessons learned in the Vietnam War and World War II and the Korean War and advocates that Americans and their allies apply those lessons learned to terrorism and renewed threats of nuclear war from tyrants and terrorists around the world This is a book whose time has come The views of our military veterans and their families who have endured the life threatening and life changing experiences of combat are made known to the American public and our allies Recommendations from The Iraq Study Group Report and President Bush s new Iraq strategy are reviewed and analyzed The book articulates a new way forward and a new vision that can be embraced by the entire world and contrasts the vision of America and its allies with the vision of Osama bin Laden and the radical Islamic terrorists who threaten the security of the entire world Red River Valley Fighter Pilots, 1992-03 **Soviet Military Power**, 1983 Fire Fighting as Extended Operations Donald B. Headley, 1989 *The Hubble Space Telescope* David J. Shayler, David M. Harland, 2015-11-25 The highly successful Hubble Space Telescope was meant to change our view and understanding of the universe Within weeks of its launch in 1990 however the space community was shocked to find out that the primary mirror of the telescope was flawed It was only the skills of scientists and engineers on the ground and the daring talents of astronauts sent to service the telescope in December 1993 that saved the mission For over two decades NASA had developed the capabilities to service a payload in orbit This involved numerous studies and the creation of a ground based infrastructure to support the challenging missions Unique tools and EVA hardware supported the skills developed in crew training that then enabled astronauts to complete a demanding series of spacewalks Drawing upon first hand interviews with those closely involved in the project over thirty years ago this story explains the development of the servicing mission concept and the hurdles that had to be overcome to not only launch the telescope but also to mount the first servicing mission a mission that restored the telescope to full working order three years after its launch saved the reputation of NASA and truly opened a new age in understanding of our place in space This is not just a tale of space age technology astronauts and astronomy It is also a story of an audacious scientific vision and the human ingenuity and determination to overcome all obstacles to make it possible Hubble Space Telescope From Concept to Success

is a story of an international partnership dedicated teamwork and a perfect blend of human and robotic space operations that will inspire people of all ages The subsequent servicing missions that enabled the telescope to continue its scientific program beyond its 25th year in orbit are described in a companion volume Enhancing Hubble's Vision Servicing a National Treasure

Outer Space and Popular Culture Annette Froehlich, 2023-03-01 This book provides detailed insights into how space and popular culture intersect across a broad spectrum of examples including cinema music art arcade games cartoons comics and advertisements This is a pertinent topic since the use of space themes differs in different cultural contexts and these themes can be used to explore various aspects of the human condition and provide a context for social commentary on politically sensitive issues With the use of space imagery evolving over the past sixty years of the space age this is a topic ripe for in depth exploration The book also discusses the contrasting visions of space from the late nineteenth and early twentieth centuries and the reality of today and analyzes space vehicles and habitats in popular depictions of space from an engineering perspective exploring how many of those ideas have actually been implemented in practice and why or why not a case of life imitating art and vice versa As such it covers a wide array of relevant and timely topics examining intersections between space and popular culture and offering accounts of space and its effect on culture language and storytelling from the southern regions of the world

The Praetorian STARShip : the untold story of the Combat Talon , 2001 Jerry Thigpen's study on the history of the Combat Talon is the first effort to tell the story of this wonderfully capable machine This weapons system has performed virtually every imaginable tactical event in the spectrum of conflict and by any measure is the most versatile C 130 derivative ever produced First modified and sent to Southeast Asia SEA in 1966 to replace theater unconventional warfare UW assets that were limited in both lift capability and speed the Talon I quickly adapted to theater UW tasking including infiltration and resupply and psychological warfare operations into North Vietnam After spending four years in SEA and maturing into a highly respected UW weapons system the Joint Chief of Staff JCS chose the Combat Talon to lead the night low level raid on the North Vietnamese prison camp at Son Tay Despite the outcome of the operation the Talon I cemented its reputation as the weapons system of choice for long range clandestine operations In the period following the Vietnam War United States Air Force USAF special operations gradually lost its political and financial support which was graphically demonstrated in the failed Desert One mission into Iran Thanks to congressional supporters like Earl Hutto of Florida and Dan Daniel of Virginia funds for aircraft upgrades and military construction projects materialized to meet the ever increasing threat to our nation Under the leadership of such committed hard driven officers as Brenci Uttaro Ferkes Meller and Thigpen the crew force became the most disciplined in our Air Force It was capable of penetrating hostile airspace at night in a low level mountainous environment covertly to execute any number of unconventional warfare missions
