The Battle for Britain Anthony J Cumming,2015-05-15 The Battle for Britain is a provocative reinterpretation of both British air and naval power from 1909 to 1940 Anthony Cumming challenges the view that the Battle of Britain was a decisive victory won solely by the Royal Air Force through independent airpower operations By re evaluating the early stage of the Mediterranean conflict and giving special emphasis to naval battles such as Calabria and Taranto Cumming argues that the Royal Navy played an equally important role in defeating Hitler s early advances buying critical time until the Americans could make a decisive contribution His argument holds that the RAF s role as an independent arm has been exaggerated and that contemporary strategists can learn from investing too much confidence in independent airpower

Race to the Front Kevin D. Stubbs,2002-09-30 When war broke out in Europe in 1914 nearly every combatant foresaw a short decisive conflict Experience would soon prove however that this belief was sorely misplaced Eventually excessive economic dislocations would topple every authoritarian regime Only the intervention of the United States would save the British and the French from collapse This book traces the trilateral struggle between the Entente the Central Powers and the United States to determine the outcome of the war Stubbs focuses on a few essential factors vital to understanding this three way race the acquisition of war materiel food human resources and the movement of each In an analysis of coalition strategies it is not enough to study the memoirs and memoranda of General Staffs or political figures engaged in war One must also examine the roles played by each population their industries economy means of transportation and the financial decisions that make such strategies possible In short the material foundations of war set the boundaries within which strategic maneuvers occur Ultimately the United States determined the outcome of the First World War not simply because it provided the last untapped reservoir of manpower but due to its overall economic contributions to the allied effort
