Longwy Immigrés Et Prolétaires 1880-1980:

Une Histoire à soi Daniel Fabre, 2001 Peut-on exister collectivement sans une histoire pour s'en souvenir et transmettre? Chaque commune française n'a-t-elle pas des édifices, des objets, des vestiges à exposer et au moins un passé à raconter, à rendre visible ou discret, à combler les lacunes et les oublis tiraillés entre l'archive et la légende, le récit historique fondé dans nos sociétés, les identités dans le temps? Il a ses rudiments, ses thèmes de prédilection et ses formes d'expression. Par l'intermédiaire de la école, la nation et la République ont longtemps délimité les horizons et posé les grands repères qui permettaient d'inscrire la localité dans leur grand récit. Aujourd'hui, le paysage de l'histoire ordinaire se métamorphose sous nos yeux. D'autres acteurs la racontent, d'autres pouvoirs la suscitent. Ils la donnent moins à lire qu'à voir, à toucher, à ressentir. Et puis, surtout, la référence spectaculaire au passé n'est plus d'autres façons de fonder et de partager un même lieu en produisant son sens. Ce livre explore ces nouveaux rapports à l'histoire. En nous conduisant du Larzac à la Creuse, du vignoble languedocien aux anciens sites industriels lorrains et stéphanois, de Martigues à Montpellier, des ethnologues nous découvrent quel point notre modernité a partout relancé deux débats cruciaux qui ont autorité pour représenter l'histoire. Que faire ensemble de ces figures de ces récits? Contributions de Marlène Albert-Llorca, Stéphane Baciocchi, Alban Bensa, Dominique Blanc-Jean, Luc Bonniol, Chantal Bordes, Benayoun Patrick, Cabanel Hélène, Clastres Wanda, Diebolt Jean-Louis, Fabiani Daniel, Fabre Luc, Faraldi Gilles, Lafert Richard, Lauraire Olivier, Le Guillou Jean-Marc, Leveratto Fabrice, Montebello Michel, Peroni Solange, Pinton Jay, Rowell Sylvie, Sagnes Anna, Zisman Colette, Zytnicki.

Nationalism, Labour and Ethnicity 1870-1939 Angel Smith, Stefan Berger, 1999 This text looks at the inter-relationships between labour nationalist movements and ethnicity during the Age of Imperialism. Two of the most debated contemporary issues focus on the decline of labour, particularly socialist ideologies, and the rise of nationalism. It is sometimes assumed that the demise of one led to the triumph of the other. It is also thought that labour as an internationalist movement underestimated and misunderstood the power of nationalism. This text links these historical phenomena and sets the debate in a more accurate historical context.

The Politics of Racism in France P. Fyfe, J. Wolfreys, 2003-01-31 While most analyses of the French National Front (NF) see it as a threat to democracy, the exact nature of this threat has never been clearly defined. Drawing on interviews with leading far-right figures and access to internal party documents, this book identifies the NF as a modern fascist party. The authors produce an uncompromising assessment of attempts to confront the NF and explain how it emerged as the leading challenger to a discredited mainstream in the 2002 presidential election.

Wine, Sugar, and the Making of Modern France Elizabeth Heath, 2014-10-09 Reveals how empire and global economic crisis redefined republican citizenship and laid the foundations of a racial state in France.

Race, Nation, Class Étienne Balibar, Immanuel Wallerstein, 2020-05-05 Forty years after the defeat of Nazism and twenty years after the great wave of decolonization, how is it that racism remains a growing phenomenon? What are the special characteristics of contemporary racism? How can it be related to class divisions and to the contradictions of the nation-state? And how far in turn does racism today compel us to

rethink the relationship between class struggles and nationalism This book attempts to answer these fundamental questions through a remarkable dialogue between the French philosopher Etienne Balibar and the American historian and sociologist Immanuel Wallerstein Each brings to the debate the fruits of over two decades of analytical work greatly inspired respectively by Louis Althusser and Fernand Braudel Both authors challenge the commonly held notion of racism as a continuation of or throwback to the xenophobias of past societies and communities They analyze it instead as a social relation indissolubly tied to present social structures the nation state the division of labor and the division between core and periphery which are themselves constantly being reconstructed Despite their productive disagreements Balibar and Wallerstein both emphasize the modernity of racism and the need to understand its relation to contemporary capitalism and class struggle Above all their dialogue reveals the forms of present and future social conflict in a world where the crisis of the nation state is accompanied by an alarming rise of nationalism and chauvinism

Migration and the International Labor Market 1850-1939 Tim Hatton, Jeffrey Williamson, 2005-08-12 This book focuses on the reasons for international migration during the era of mass migrations and examines the resulting economic effect

The Halted March of the European Left Matt Myers, 2025-02-06 The European left seemed to be in rude health during the 1970s Never had so many political parties committed to representing the working class been in power simultaneously across the continent New forms of mobilisation led by female immigrant and young wage earners seemed to reflect the growing strength of the workers movement rather than its pending obsolescence Parties and trade unions grew rapidly as a diverse new generation entered the ranks Why did the left's forward march halt so abruptly The Halted March of the European Left shows how the left's defeats after the mid 1970s were not the inevitable result of de industrialisation or more precisely the transition to a globalised and post Fordist world that abolished the working class as a great historical actor Choices that were made during a concentrated but decisive moment contributed to the left's lost battles The British French and Italian left managed the shift to a new era by marginalising those groups of workers who had invested it with hopes of social and political transformation Communist socialist and social democratic parties helped disempower the new components of the working class in workplaces in society in the political system and successfully disciplined their traditional working class supporters The left encountered a crisis of purpose and identity a sense of both defeat and lost opportunities and the dissolution of the idea of a community of fate amongst workers This book provides a comparative analysis of the left's fragmenting relationship with the working class and a feel for the culture of three leading industrial countries during a traumatic transition of late twentieth century history It concludes that decisions taken by the left during the 1970s contributed to the tragic inversion of the expected outcome of that hopeful decade

France, 1800-1914 Roger Magraw, 2014-07-22 Nineteenth century France was a society of apparent paradoxes It is famous for periodic and bloody revolutionary upheavals for class conflict and for religious disputes yet it was marked by relative demographic stability gradual urbanisation and modest economic change

class conflict and ongoing religious and cultural tensions Incorporating much recent research Roger Magraw draws both upon still valuable insights derived from the new social history of the 1960s and upon more recent approaches suggested by gender history cultural anthropology and the linguistic turn

One Hundred Years of History of the French Communist Party Roger Martelli, Jean Vigreux, Serge Wolikow, 2022-09-14 The Communist Party appeared a hundred years ago on the French political and social scene According to opinions and moments it has been the party of Moscow of those shot of the working class of the union of the left the party of the foreigner or that of the nation It has been underground in government in town halls in factories or in the streets Some considered it too revolutionary others not enough More than others it aroused passions positive or negative It attracted many and repelled just as many After the fall of the USSR it decided to remain a communist party while many others gave it up But it no longer has the place it once had in reality as in the imagination This book does not intend to judge but to provide keys to understanding It is based on a considerable number of archives that are now available and is an ordered and distanced look at an object that is not lacking in complexity and no doubt even in mystery This book has been translated from French to English thanks to a financial help from the Gabriel P ri Foundation and the LIR3S UMR Cnrs 7366 of Dijon

Politics and the Other Scene Étienne Balibar, 2020-05-05 As one of Louis Althusser s most brilliant students in the 1960s Etienne Balibar contributed to the theoretical collective masterpiece of Reading Capital Since then he has established himself among the most subtle philosophical and political thinkers in France In Politics and the Other Scene Balibar deepens and extends the work he first developed with Immanuel Wallerstein in Race Nation Class Exploring the theme of universalism and difference he addresses such topical questions as European racism the notion of the border whether a European citizenship is possible or desirable violence and politics and identity and emancipation

The Development of the French Economy 1750-1914 Colin Heywood, 1995-09-14 Understanding French economic development in the eighteenth and nineteenth centuries has always proved a formidable challenge for historians This concise 1995 survey for students is designed to make clear the areas of controversy among historians and to guide the reader through the complexities of the debate The author provides succinct surveys of findings on the pattern of development and on the underlying causes of that pattern He addresses questions such

as was France a latecomer or an early starter in industrialisation Did long periods of protectionism help or hinder development And was the peasantry an obstacle to change in the economy He argues that France was not the backward economy it was often thought to be instead it provides a quietly successful case of economic development avoiding the massive social upheaval experienced elsewhere in Europe

The Transnational Family Deborah Bryceson,Ulla Vuorela,2020-12-16 Migrant networks in the form of families associational ties and social organizations stretch across the globe connecting cultures and bridging national boundaries The effects of this global networking are vast This book is the first to stand back and explore the impact Families living outside of their original national boundaries have had and continue to have a profound influence over the flow of people goods money and information More in depth perspectives reveal how immigrants face troubling issues of cultural identity economic change political uncertainty and social welfare From an examination of nineteenth century transnational families emigrating from Europe to the Ghanaian Pentecostal diaspora in Europe today this book combines broadly based analysis with more unusual case studies to reveal the complexities that immigrants and refugees must contend with in their daily lives What are the experiences of migrant Turkish women living in Germany In what ways has religion been hybridized amongst West African Muslim migrants in Paris What are the gender relations and transnational ties amongst Bosnian refugees Never has such a topic been more relevant Problems relating to immigrants and refugees situations in their adopted countries continue to grow This book wide ranging in its geographical and thematic scope is a highly important and timely addition to debates on transnational families immigrants and refugees

Fellow Travellers Thomas Beaumont,2019-12-03 Fellow Travellers considers the origins and development of the Communist presence among French railway workers how Communist activists adapted to the particular environment of railway industrial relations and examines the foundations of what was to become one of the most powerful and enduring constituencies of Communist support in modern France

Moral Gray Zones Michel Anteby,2008-07-01 Anyone who has been employed by an organization knows not every official workplace regulation must be followed When management consistently overlooks such breaches spaces emerge in which both workers and supervisors engage in officially prohibited yet tolerated practices gray zones When discovered these transgressions often provoke disapproval when company materials are diverted in the process these breaches are quickly labeled theft Yet why do gray zones persist and why are they unlikely to disappear In Moral Gray Zones Michel Anteby shows how these spaces function as regulating mechanisms within workplaces fashioning workers identity and self esteem while allowing management to maintain control The book provides a unique window into gray zones through its in depth look at the manufacture and exchange of illegal goods called homers tolerated in a French aeronautic plant Homers such as toys for kids cutlery for the kitchen or lamps for homes are made on company time with company materials for a worker s own purpose and use Anteby relies on observations at retirees homes archival data interviews and surveys to understand how plant workers and managers make sense of this tacit practice He

argues that when patrolled gray zones like the production of homers offer workplaces balanced opportunities for supervision as well as expression Cautioning against the hasty judgment that gray zone practices are simply wrong Moral Gray Zones contributes to a deeper understanding of the culture group dynamics and deviance found in organizations **The Wealth and Poverty of Nations: Why Some Are So Rich and Some So Poor** David S.
