*Looking Forward Through the Lifespan: Developmental Psychology* Candida C Peterson, 2013-12-17 When a local context really makes the difference The new edition of this original Australian text continues to offer the most balanced coverage of theory and research for Australian students and educators and appeals to students from many backgrounds It covers the domains of development including neurological cognitive social physical and personality The text is organised chronologically by chapter Within each chapter content is organised topically This structure allows for a degree of flexibility and lecturers can choose the way they wish to approach the content whether it is topically or chronologically **Lifespan** David A. Sinclair, Matthew D. LaPlante, 2019-09-10 A NEW YORK TIMES BESTSELLER Brilliant and enthralling The Wall Street Journal A paradigm shifting book from an acclaimed Harvard Medical School scientist and one of Time's most influential people It's a seemingly undeniable truth that aging is inevitable But what if everything we've been taught to believe about aging is wrong What if we could choose our lifespan In this groundbreaking book Dr David Sinclair leading world authority on genetics and longevity reveals a bold new theory for why we age As he writes Aging is a disease and that disease is treatable This eye opening and provocative work takes us to the frontlines of research that is pushing the boundaries on our perceived scientific limitations revealing incredible breakthroughs many from Dr David Sinclair's own lab at Harvard that demonstrate how we can slow down or even reverse aging The key is activating newly discovered vitality genes the descendants of an ancient genetic survival circuit that is both the cause of aging and the key to reversing it Recent experiments in genetic reprogramming suggest that in the near future we may not just be able to feel younger but actually become younger Through a page turning narrative Dr Sinclair invites you into the process of scientific discovery and reveals the emerging technologies and simple lifestyle changes such as intermittent fasting cold exposure exercising with the right intensity and eating less meat that have been shown to help us live younger and healthier for longer At once a roadmap for taking charge of our own health destiny and a bold new vision for the future of humankind Lifespan will forever change the way we think about why we age and what we can do about it **Trends in U.S. Life Expectancy** United States. Congress. Senate. Committee on Finance. Subcommittee on Savings, Pensions, and Investment Policy, 1983 *Prospective Longevity* Warren C. Sanderson, Sergei Scherbov, 2019-11-19 Warren Sanderson and Sergei Scherbov argue for a new way to measure individual and population aging Instead of counting how many years we've lived we should think about our prospective age the number of years we expect to have left Their pioneering model can generate better demographic estimates which inform better policy choices **Women's Sexuality Across the Life Span** Judith C. Daniluk, 2003-06-09 Moving beyond a traditional focus on sexual functioning this book emphasizes the complex interaction of psychological social cultural and biological influences on women's sense of themselves as sexual beings Written for practitioners and educators its goal is to challenge contradictory messages and meanings that cause many women to feel disconnected from their bodies and from

their needs and desires Themes explored include the development of sexual awareness and sexuality in childhood and adolescence the critical sexual choices of young adulthood and the multiple transitions characterizing the middle and later years of life The book features creative exercises and interventions to help girls and women construct more affirming sexual meanings
