Looking At Great Britain Looking At Other Countries:

The UK's energy supply Great Britain: Parliament: House of Commons: Energy and Climate Change Committee, 2011-10-25 The Government must start thinking strategically about energy security to protect the UK's energy supply against short term shocks and rising global energy prices according to a report by MPs on the Energy and Climate Change Committee Gas storage capacity needs to be increased in the UK to minimise the potential damage from supply interruptions or price spikes the report argues It reveals that the UK's current storage capacity amounts to only 14 days worth of gas supply a dangerously low level compared with France which has 87 days worth of gas storage Germany 69 and Italy 59 19 gigawatts GW of ageing electricity plant will close by 2018 and the UK will become increasingly reliant on energy imports as North Sea oil and gas reserves decline The report concludes that new electricity generation currently being built or planned will fill this gap But it urges the Government to ensure security of supply by delivering on its energy efficiency targets rolling out smart meters that can balance demand and maintaining a diverse energy mix

The International Social Survey Programme 1984-2009 Max Haller, Roger Jowell, Tom W Smith, 2009-09-11 The social sciences rely more on the comparative method than on experimental data mainly because the latter is difficult to acquire amongst human populations The International Social Survey Programme has played a pioneering role in creating and sustaining methodologically sophisticated mass attitude surveys across the globe Starting in 1984 with five nations it now encompasses forty five nations spread over five continents each administering an identical annual survey to a random sample of their population Analyses of the data or descriptions of the methodology already appear in over 3 000 publications This book contains new contributions from three dozen eminent scholars who analyse and compare the perceptions and attitudes of citizens across all five continents nations and over time Subjects range from inequality and the role of the state ethnic national and global identities the changing relevance of religion beliefs and practices gender roles family values and work orientations household and society Some chapters focus on methodological issues others focus on substantive findings This book sets new standards for cross cultural research

The Break-Up of Britain Tom Nairn, 2021-06-22 The classic text with a new introduction by Anthony Barnett In this classic text first published in 1977 Tom Nairn memorably depicts the slow foundering of the United Kingdom on the rocks of constitutional anachronism its fall from empire and the gathering force of civic nationalism Rich in comparisons between the nationalisms of the British Isles and those of the wider world The Break Up of Britain concludes by
