Louis Johnson And The Arming Of America The Roosevelt And Truman Years:

Louis Johnson and the Arming of America Keith D. McFarland, David L. Roll, 2005-10-04 Without question this is an important new addition to World War II and Cold War historiography Highly recommended Douglas Brinkley author of *Dean Acheson The Cold War Years* and *The Unfinished Presidency Jimmy Carter's Journey beyond the White House* A remarkably objective yet sympathetic study of Louis Johnson's life and career Now only half remembered Johnson was a major national figure Colorful aggressive independent minded egotistical his strong views and conflicts with Dean Acheson proved to be his undoing All in all a fascinating tale James R Schlesinger former Secretary of Defense McFarland and Roll have performed a real service in rescuing from obscurity this Democratic mover and shaker Their account of the rise and fall of Louis Johnson provides us with the fullest depiction yet of an important Washington figure employed for better or worse as a blunt instrument of policy change by both Franklin Roosevelt and Harry Truman Alonzo L Hamby author of *Man of the People A Life of Harry S Truman* and *For the Survival of Democracy Franklin Roosevelt and the World Crisis of the 1930s* Johnson's career is a cautionary tale of how even the most ruthlessly effective men can become pawns in the Washington power game McFarland and Roll bring Johnson to life in this thorough and well told history Evan Thomas *Newsweek* author of *Robert Kennedy His Life and The Very Best Men The Early Years of the CIA* Louis Johnson was FDR's Assistant Secretary of War and the architect of the industrial mobilization plans that put the nation on a war footing prior to its entry into World War II Later as Truman's Secretary of Defense Johnson was given the difficult job of unifying the armed forces and carrying out Truman's orders to dramatically reduce defense expenditures In both administrations he was asked to confront and carry out extremely unpopular initiatives massive undertakings that each president believed were vital to the nation's security and economic welfare Johnson's conflicts with Henry Morgenthau Secretary of War Harry H Woodring Winston Churchill Harry Hopkins Dean Acheson Averell Harriman and Paul Nitze find contemporary parallels in the recent disagreements between the national defense establishment and the State Department

In the Shadow of Fear Nick Bunker, 2023-10-03 An evocative portrait of a divided America at the dawn of the Cold War Halfway through the twentieth century the United States towered over the world in industrial might After winning the 1948 election Harry Truman hoped to use this economic strength to build on FDR's achievements with new liberal reforms But then in just ten months between September 1949 and June 1950 the president's ambitions were overtaken by events that left the country gripped by rage and fear The Soviets tested an atomic bomb Mao's army swept through China and at home Truman faced labor unrest and a Republican Party desperate for power *In the Shadow of Fear* is an innovative and gripping history of this pivotal moment Recounting the launch of Senator Joe McCarthy's anti communist crusade the defeat of Truman's liberal program and the start of the Korean War prizewinning historian Nick Bunker shows us a polarized nation facing crises at home and abroad a story with deep resonances today

The creation of the Pentagon in seventeen whirlwind months during World War II is one of the great construction feats in American history involving a tremendous mobilization of manpower resources and minds In astonishingly short order Brigadier General Brehon B Somervell conceived and built an institution that ranks with the White House the Vatican and a handful of other structures as symbols recognized around the world Now veteran military reporter Steve Vogel reveals for the first time the remarkable story of the Pentagon s construction from it s dramatic birth to its rebuilding after the September 11 attack At the center of the story is the tempestuous but courtly Somervell dynamite in a Tiffany box as he was once described In July 1941 the Army construction chief sprang the idea of building a single huge headquarters that could house the entire War Department then scattered in seventeen buildings around Washington Somervell ordered drawings produced in one weekend and despite a firestorm of opposition broke ground two months later vowing that the building would be finished in little more than a year Thousands of workers descended on the site a raffish Virginia neighborhood known as Hell s Bottom while an army of draftsmen churned out designs barely one step ahead of their execution Seven months later the first Pentagon employees skirted seas of mud to move into the building and went to work even as construction roared around them The colossal Army headquarters helped recast Washington from a sleepy southern town into the bustling center of a reluctant empire Vivid portraits are drawn of other key figures in the drama among them Franklin D Roosevelt the president who fancied himself an architect Secretary of War Henry L Stimson and Army Chief of Staff General George C Marshall both desperate for a home for the War Department as the country prepared for battle Colonel Leslie R Groves the ruthless force of nature who oversaw the Pentagon s construction as well as the Manhattan Project to create an atomic bomb and John McShain the charming and dapper builder who used his relationship with FDR to help land himself the contract for the biggest office building in the world The Pentagon s post World War II history is told through its critical moments including the troubled birth of the Department of Defense during the Cold War the tense days of the Cuban Missile Crisis and the tumultuous 1967 protest against the Vietnam War The pivotal attack on September 11 is related with chilling new detail as is the race to rebuild the damaged Pentagon a restoration that echoed the spirit of its creation This study of a single enigmatic building tells a broader story of modern American history from the eve of World War II to the new wars of the twenty first century Steve Vogel has crafted a dazzling work of military social history that merits comparison with the best works of David Halberstam or David McCullough Like its namesake The Pentagon is a true landmark

In a Time of Total War Joshua E. Kastenberg, Eric Merriam, 2016-03-17 This book is a judicial military and political history of the period 1941 to 1954 As such it is also a United States legal history of both World War II and the early Cold War Civil liberties mass conscription expanded military jurisdiction property rights labor relations and war crimes arising from the conflict were all issues to come before the federal judiciary during this period and well beyond since the Supreme Court and the lower courts heard appeals from the government s wartime decisions well into the 1970s A detailed study of the judiciary during World War II evidences that while the majority of the justices and judges determined appeals partly on the basis of enabling a large disciplined and reliable military to either deter or fight a third world war there was a recognition of the existence of a tension between civil rights and liberties on the one side and military necessity on the other While the majority of the judiciary tilted toward national security and deference to the military establishment the judiciary s recognition of this tension created a foundation for persons to challenge governmental narrowing of civil and individual rights after 1954 Kastenberg and Merriam present a clearer picture as to why the Court and the lower courts determined the issues before them in terms of external influences from both national and world wide events This book is also a study of civil military relations in wartime so whilst legal scholars will find this study captivating so will military and political historians as well as political scientists and national security policy makers

Autumn of Our Discontent John Curatola, 2022-06-15 In the Fall of 1949 a series of international events shattered the notion that the United States would return to its traditional small peacetime military posture following World War II Autumn of our Discontent chronicles the events that triggered the wholesale review of United States national security policies The review led to the adoption of recommendations advanced in NSC 68 which laid the foundation for America s Cold War activities expanded conventional forces sparked a thermonuclear arms race and equally important to the modern age established the national security state all clear breaks from America s martial past and cornerstone ideologies In keeping with the American military tradition the United States dismantled most of its military power following World War II while Americans in general enjoyed unprecedented post war and peacetime prosperity In the autumn of 1949 however the Soviet s first successful test of their own atomic weapon in August was followed closely by establishment of the communist People s Republic of China on October 1st shattered the illusion that

American hegemony would remain unchallenged Combined with the decision at home to increase the size of the atomic stockpile on and the on going debate regarding the Revolt of the Admirals the United States found itself facing a new round of crisis in what became the Cold War Curatola explores these events and the debates surrounding them to provide a detailed history of an era critical to our own modern age Indeed the security state conceived of in the events of this critical autumn and the legacy of the choices made by American policymakers and military leaders continue to this day **Council of War** Steven L. Award A gripping narrative of the Truman Administration's response to the fall of Nationalist China and the triumph of Mao Zedong's Communist forces in 1949 an extraordinary political revolution that continues to shape East Asian politics to this day In the opening months of 1949 U S President Harry S Truman found himself faced with a looming diplomatic catastrophe perhaps the greatest that this country has ever suffered as the journalist Walter Lippmann put it Throughout the spring and summer Mao Zedong's Communist armies fanned out across mainland China annihilating the rival troops of America's one time ally Chiang Kai shek and taking control of Beijing Shanghai and other major cities As Truman and his aides including his shrewd ruthless secretary of state Dean Acheson scrambled to formulate a response they were forced to contend not only with Mao but also with unrelenting political enemies at home Over the course of this tumultuous year Mao would fashion a new revolutionary government in Beijing laying the foundation for the creation of modern China while Chiang Kai shek would flee to the island sanctuary of Taiwan These events transformed American foreign policy leading ultimately to decades of friction with Communist China a long standing U S commitment to Taiwan and the subsequent wars in Korea and Vietnam Drawing on Chinese and Russian sources as well as recently declassified CIA documents Kevin Peraino tells the story of this remarkable year through the eyes of the key players including Mao Zedong President Truman Secretary of State Acheson Minnesota congressman Walter Judd and Madame Chiang Kai shek the influential first lady of the Republic of China Today the legacy of 1949 is more relevant than ever to the relationships between China the United States and the rest of the world as Beijing asserts its claims in the South China Sea and tensions endure between Taiwan and the mainland

American Civil-Military Relations Suzanne C. Nielsen, Don M. Snider, 2009-10-05 *American Civil Military Relations* offers the first comprehensive assessment of the subject since the publication of Samuel P Huntington's *The Soldier and the State* Using this seminal work as a point of departure experts in the fields of political science history and sociology ask what has been learned and what more needs to be investigated in the relationship between civilian and military sectors in the 21st century Leading scholars such as Richard Betts Risa Brooks James Burk Michael Desch Peter Feaver Richard Kohn Williamson Murray and David Segal discuss key issues including changes in officer education since the end of the Cold War shifting conceptions of military expertise in response to evolving operational and strategic requirements increased military involvement in high level politics the domestic and international contexts of U S civil military relations The first section of the book provides contrasting perspectives of American civil military relations within the last five decades The next section addresses Huntington's conception of societal and functional imperatives and their influence on the civil military relationship Following sections examine relationships between military and civilian leaders and describe the norms and practices that should guide those interactions What is clear from the essays in this volume is that the line between civil and military expertise and responsibility is not that sharply drawn and perhaps given the increasing complexity of international security issues it should not be When forming national security policy the editors conclude civilian and military leaders need to maintain a respectful

and engaged dialogue Essential reading for those interested in civil military relations U S politics and national security policy

The Home Fronts of Iowa, 1939-1945 Lisa L. Ossian, 2009-10-16 As Americans geared up for World War II each state responded according to its economy and circumstances as well as the disposition of its citizens This book considers the war years in Iowa by looking at activity on different home fronts and analyzing the resilience of Iowans in answering the call to support the war effort With its location in the center of the country far from potentially threatened coasts Iowa was also the center of American isolationism historically Republican and resistant to involvement in another European war Yet Iowans were quick to step up and Lisa Ossian draws on historical archives as well as on artifacts of popular culture to record the rhetoric and emotion of their support Ossian shows how Iowans quickly moved from skepticism to overwhelming enthusiasm for the war and answered the call on four fronts farms factories communities and kitchens Iowa's farmers faced labor and machinery shortages yet produced record amounts of crops and animals even at the expense of valuable topsoil Ordnance plants turned out bombs and machine gun bullets Meanwhile communities supported war bond and scrap drives while housewives coped with rationing raised Victory gardens and turned to home canning The Home Fronts of Iowa 1939 1945 depicts real people and their concerns showing the price paid in physical and mental exhaustion and notes the heavy toll exacted on Iowa's sons who fell in battle Ossian also considers the relevance of such issues as race class and gender particularly the role of women on the home front and the recruitment of both women and blacks for factory work taking into account a prevalent suspicion of ethnic groups by the state's largely homogeneous population The fact that Iowans could become loyal citizen soldiers forming an Industrial and Defense Commission even before Pearl Harbor speaks not only to the patriotism of these sturdy midwesterners but also to the overall resilience of Americans In unraveling how Iowans could so overwhelmingly support the war Ossian digs deep into history to show us the power of emotion and to help us better understand why World War II is consistently remembered as the Good War
