Queering Romantic Engagement in the Postal Age Pamela VanHaitsma, 2019-09-18 2020 Winifred Bryan Horner Book Award Honorable Mention from the Coalition of Feminist Scholars in the History of Rhetoric and Composition Romantic letters are central to understanding queer history

Debates about letters of romantic friendship however too often reduce them to unstudied expressions of heartfelt feeling In *Queering Romantic Engagement in the Postal Age* Pamela VanHaitsma shows how the genre should be understood as a learned form of rhetoric VanHaitsma argues that epistolary instruction in the nineteenth century United States shaped civic engagement in predictably heteronormative ways even as it opened up possibilities for queer rhetorical practices Her archival study draws on writings whose authors diverse by gender race class and education all developed ways of queering cultural norms and generic conventions in their same sex relationships VanHaitsma theorizes a new concept of rhetorical education for romantic engagement to account for the significant yet understudied role of such training in inventing both civic and romantic life
