Movie Magic John Brosnan, 1974 Both the photographic and mechanical element are emphasized in this discussion of the history of film special effects *Magic in the Movies* Jane O'Connor, Katy Hall, 1980-01-01 Discusses special effects used in films including optical illusions miniatures and full scale live action weather and makeup effects **Movie Magic** John Brosnan, 1976 Special Effects Ron Miller, 2006-01-01 Looks at the history of the special effects industry from silent films to the use of current technologies providing insight into how various special effects are created and used From Film Adaptation to Post-Celluloid Adaptation Costas Constandinides, 2010-10-21 The main corpus of film adaptation thus far has focused on films based on canonical literature From Film Adaptation to Post Celluloid Adaptation takes the next logical step by discussing the emerging modes of film adaptation from older media to new mainly focusing on the computer generated reconstructions of popular narratives and characters along with other forms of convergence such as the Internet While New Media is a broad concept the book will concentrate on the ways digital technology is being used in the encoding of films and discuss the ways this shift can be debated from a theoretical perspective Though the discussion is framed through the new media lens the work will not exclude a broader understanding of New Media which refers to video games official websites and interactivity so as to examine how the visual style of contemporary films is dispersed across and influenced by other media Discussing films like *Minority Report* *King Kong* *300* and *Wanted* in relation to Film Adaptation theory the work aims to challenge and rework the definition of adaptation *The Crafty Animator* Caroline Ruddell, Paul Ward, 2019-04-03 This collection is a study of the value of craft as it can be understood within the study and practice of animation The book reconsiders the position of craft which is often understood as inferior to art with a particular focus on questions of labour in animation production and gendered practices The notion of craft has been widely investigated in a number of areas including art design and textiles but despite the fact that a wide range of animators use craft based techniques the value of craft has not been interrogated in this context until now Seeking to address such a gap in the literature this collection considers the concept of craft through a range of varying case studies Chapters include studies on experimental animation computer animation trauma and memory children's animation and silhouette animation among others The *Crafty Animator* also goes some way to exploring the relationship craft has with the digital in the context of animation production Through these varied discussions this book problematizes simplistic notions about the value of certain methods and techniques working to create a dialogue between craft and animation **Film - An International Bibliography** Malte Hagener, Michael Töteberg, 2016-12-16 Kommentierte Bibliografie Sie gibt Wissenschaftlern Studierenden und Journalisten zuverlässige Auskunft über rund 6000 internationale Veröffentlichungen zum Thema Film und Medien Die vorgestellten Rubriken reichen von Nachschlagewerk über Filmgeschichte bis hin zu Fernsehen Video Multimedia Brazilian Science Fiction Film Alfredo Suppia, 2024-12-01 This book offers a pioneering critical history of Brazilian science fiction SF cinema from its first

appearances in the mid twentieth century to the present Though frequently overlooked by scholars SF cinema from the Global South has reinvigorated the genre in recent decades In this comprehensive study the first of its kind in either English or Portuguese Alfredo Suppia draws out the unique features and universal resonance of SF film in Brazil a country that has fittingly been called the land of the future In Suppia s analysis Brazilian SF stems from and responds to a long history of inequality in which everyday reality has often resembled a movie like dystopia Analyzing both short and feature films in the context of social political and economic transformations Suppia rethinks SF film in general from a southern perspective

Hollywood Aida A. Hozic, 2001 Hollywood is currently one of the largest and most profitable sectors of the U S economy In just a few decades it has transformed itself from a dying company town into a merchandising emporium of movies games and licensed characters It is quickly moving even further into cyberspace virtual reality and digital imaging Aida Hozic writes of these enormous changes in the film industry from a novel perspective by tracing shifts in spatial organization of film production from the enclosed worlds of old Hollywood studios through globally dispersed location shooting to digital production and distribution Hozic s fascinating tale of latter day capitalism suggests that the physical reorganization of production across the American economy but in Hollywood in particular alters material and conceptual boundaries between work and leisure public and private reality and fantasy Particular economic regimes and forms of spatial organization have specific moral implications and so the story of Hollywood s cultural production is partly a story of censorship and moral surveillance Hozic s account of industrial change in Hollywood and of its attempts at moral control over the production of fantasy is an illuminating confrontation with the peculiar nature of Hollywood s political authority and of its complex power
