Esoteric Medicine and Practical Magic Samael Aun Weor, 2020-07-22 In ancient times only the wisest were trusted with medical knowledge for it bears power over life and death The remedies and methods of those seers may have been abandoned by modern civilization but they have been preserved and retain their power Throughout all of our most sacred traditions it is known that Nature is the source for all genuine medicine The teachings of Hippocrates Paracelsus Galen Tibetan tantras and others all agree that a properly prepared individual can use Nature to cure any illness Samael Aun Weor lived in close contact with the mysterious natives of the Sierra Nevada of South America who have been in self imposed isolation from the rest of the world for hundreds of years The priests and doctors of that region taught him and his wife Litelantes their system of training and many of their healing methods revealed here to the public for the first time Perhaps most astonishing is that the philosophy and spiritual concepts are fundamentally the same as the ancient knowledge of the Greeks Tibetans Hindus and others This collection of hundreds of techniques and practices will guide you to awaken consciousness perform healing for yourself and others and return to the core medical knowledge of the ages Do not undervalue these remedies because of the modest way in which they are presented or because of their simplicity The author has tested in various cases all of the formulae and works of practical magic contained in this book Remember that this is not a game for children but a work for mature individuals I Samael Aun Weor give testimony of my work Guardians of Idolatry Viviana Díaz Balsera, 2018-11-01 In 1629 Catholic priest Hernando Ruiz de Alarcón produced the Treatise on the Heathen Superstitions That Today Live among the Indians Native to This New Spain to aid the church in its abolishment of native Nahua religious practices The bilingual Nahuatl Spanish Treatise collected diverse incantations or nahualtocahtl used to conjure Mesoamerican deities for daily sustenance and medical activities Today this work is recognized as one of the most significant firsthand records of indigenous religious practices in postconquest Mexico Yet as Viviana Díaz Balsera argues in Guardians of Idolatry the selection process for the incantations recorded in the Treatise reflects two sites of agency Ruiz de Alarcón's desire to present the most flagrant examples of Nahua demonic practices and Nahua efforts to share benign nahualtocahtl in order to preserve their preconquest traditions while negotiating with colonial Christian hegemony Guardians of Idolatry offers readers a rare in depth look at the nahualtocahtl and the native cosmogonies beliefs and medical practices they reveal Through close reading of four incantations for safe travel maguey sap harvesting bow and arrow deer hunting and divination through maize kernels Díaz Balsera shows the nuances of a Nahua spiritual world populated by intelligent superhuman and nonhuman entities that directly responded to human appeals for intercession She also addresses Jacinto de la Serna's Manual for Ministers of These Indians 1656 an elaborate commentary on the Treatise Guardians of Idolatry tells a compelling story of the robust presence of a unique form of Postclassic Mesoamerican ritual knowledge fully operative one

hundred years after the incursion of Christianity in south Central Mexico Together Ruiz de Alarcón's Treatise and de la Serna's Manual reveal the highly sophisticated language of the nahualtocaítl and the disparate ways in which both colonizers and resilient indigenous agents contributed to the conservation of Mesoamerican epistemology

Treatise on the Heathen Superstitions that Today Live Among the Indians Native to this New Spain, 1629 Hernando Ruiz de Alarcón,1984 The Treatise of Hernando Ruiz de Alarc n is one of the most important surviving documents of early colonial Mexico It was written in 1629 as an aid to Roman Catholic churchmen in their efforts to root out the vestiges of pre Columbian Aztec religious beliefs and practices For the student of Aztec religion and culture is a valuable source of information Hernando Ruiz de Alarc n was born in Taxco Guerrero Mexico in the latter part of the sixteenth century He attended the University of Mexico and later took holy orders Sometime after he was assigned to the parish of Atenango he began writing the Treatise for his fellow priests and church superiors to use as a guide in suppressing native heresy With great care and attention to detail Ruiz de Alarc n collected and recorded Aztec religious practices and incantations that had survived a century of Spanish domination sometimes in his zeal extracting information from his informants through force and guile He wrote down the incantations in Nahuatl and translated them into Spanish for his readers He recorded rites for such everyday activities as woodcutting traveling hunting fishing farming harvesting fortune telling lovemaking and the curing of many diseases from toothache to scorpion stings Although Ruiz de Alarc n was scornful of native medical practices we know now that in many aspects of medicine the Aztec curers were far ahead of their European counterparts
